William Quinn, William Thorn and William William Pooler, were camped bear hunting. On the 26th, having killed one bear, in the evening two of the party, Wm. Thorn and Wm. Quinn, concluded they would take around and see if they could not scare up another one. They soon became separated, and just as it was getting dusk Thorn saw what he thought was a bear and fired at it. Instead of a bear it turned out to be Quinn. The bullet struck his right arm, passing through near the shoulin their papers what a good time they like the fortunately missing his body entirely. Seifert immediately started for

What-is 00 ever the cause may be it will prove a s 40 great loss to all whose yards are affect-

tions in part of Kent and Sussex, due to the insidious fungus, known as hop mildew. This was somewhat unusual as the fungus generally appears and spreads rapidly in dull, cool seasons, and especially after sudden variations of temperature, and has hardly ever seen known to occasion much injury to hops in warm seasons, with equalihigh temperature, like that of 1887. is somewhat remarkable that this fun gus prevalls most and was most injurlous in districts where it had hitherto not been very troublesome. It was noticed where sulphur was put on the plants in June, as a part of the ordinary reutine of cultivation of hops, the fungus did much less harm.

"Mildew frequently destroys the crop of hops entirely in some grounds, and that is often accomplished with wonderful celerity. A few mildewed cones may be noticed in a plantation, and before the crop is ripe, or can be picked, the whole may be reduced to mere blackened lumps of rubbish, by the work of the fungus. In 1860, the wettest winter of the present century the entire crop upon thousands of acres was utterly ruined by it. In this last summer, one of the most dry of this century, many of the hop grounds yielded nothing on account of its at-tack upon the cones."

women and Children Sent Away. ST. PAUL, Minn., Sept. 5.—Reports from the north are to the effect that Carlton, Kerrick and Barnum are in danger. Fierce fires now surround these places, and so dense is the smoke it is impossible to see across the street. Details are hard to get, as wires are down. A report was cur-rent in this city today that Barnum had been destroyed, but it has been impossible to confirm the report. The men of Kerrick sent the women and children to West Superior and Duluth for safety, and remained to fight fire. Subscriptions for the fire sufferers jumped up rapidly today. The first one came from President James J. Hill, of the Great Northern Railway, and was for \$5000. Accompanying this was another for \$5000 from:

A Witness Against His Sinyer. Condon, Or., Sept. 5.—Monday morning at 10:40 Myron Hamilton was shot and killed at this place by James Barnard. Both are residents of the south end of this county. nard was tried and convicted here last spring for cattle stealing, and sen-tenced to two years in the penitentiary. After being there a few days he was released by the supreme court for a new trial at Condon this month. Ham-ilton was a witness against him, and was at Sheriff Wilcox's house, Mon-day, when Barnard rode into town, he put his horse in a stable, walked up to Wilcox's and shook hands with Mrs. Wilcox, He called Hamilton out, walked up the street with him, then back, and when near Wilcox's front gate, drew his revolver and shot Hamilton in the back of the head twice, once in the back and once in the left arm. One shot went by and struck the residence of G. W. Rhineliart. Five shots were fired. Hamil-ton fell dead against Wilcox's gate. Barnard then ran to the stable, mount-ed his horse and then rode out of town, waving his revolver at the

zens to frighten them back. A posse started in pursuit. News came in late last night that Barnard was, at 2 o'clock p. m., 25 miles from here, his horse nearly fagged out, and the posse within a Barnard was within mile of his brother Elmer's, Cant Zachary's and his brother-in-law Brown's, beyond Butte Creek and on West Fork.

The Barnards and Zacharys are the same chaps that earned fame in con-nection with the Roslyn bank robbery. Indictments are out now against two or three of them in this county.

The coroner's jury returned a ver-dict of "premeditated and deliberate murder," and named James Barnard

An Opponent to Wilson. Elkins, W. Va., Sept. 5,—An exceptionally large number of delegates assembled today to nominate a candidate to oppose William L. Wilson in the second congressional district. Murder at a Political Meeting. E. C. Smith, sole agent, wholesale WAYNE, W. Va., Sept. 5.—Murder was the result of a political meeting here last night, one man being killed and three others seriously wounded. Ex-Governor Wilson, democratic candidate to succeed Senator Camden, made a speech. After he finished United States Marshal Vinson, a strong Camden man, attempted to address the crowd. There was hooting. One of Vinson's deputies fired a revolver. The firing then became general, three deputies joining in. It is charged Vinson also fired several shots. Vinson and his men jumped on horses and fled. William Frizzel, one of Wilson's supporters, was shot through the stom-ach and died this morning. Steps will be taken to have all the marshals arrested and ousted from office.

Bloody Water Oozed Out Constantly.

No Peace Day or Night. Doctors

Failed. Cured by Cuticura.

Ifychild's disease, which was the worst kind of Eccessa, started on one-cheek like a ring worm. It appears and itched so the poor little fellow had no peace night or day. Then it started on the other cheek and chile, until all were raw as a piece of beefsteak, like a burn where you would rub off the akin, and bloody water consel out constantly. His suffar-fings were terrible I know, although he was butter months old and coold not tell how be suffered. I tied his hands that he would not scratch, then he would rub his poor little checks on his shoulders to relieve the little checks on his shoulders to relieve he militally and cools not relieve the little checks on his shoulders to relieve him. I read of the Corrocaa Engineers, and at once perchased them. Strange to say that very night he reside without scratching his face, and from that on he impurised and soon was entirely curred. I would like anyone suffering from this twelfth year sow. His complexion is as clear and smooth as can be. This is me unsolicited testimonial, and every word is true. I thank find for ny child's recovery, and I thank the manufacturer of Curret na.
