

# CASTORIA

for Infants and Children.

"Castoria is well adapted to children that I recommend it as superior to any prescription known to me." J. A. AUSTIN, M. D.  
111 E. Oxford St., Brooklyn, N. Y.

"The use of 'Castoria' is so universal and its merits so well known that it seems a work of supererogation to endorse it. Few are the intelligent families who do not keep Castoria within easy reach."  
CARLOS MARTIN, D. D.,  
New York City.

THE CHRYSLER COMPANY, 37 N. BROADWAY, NEW YORK CITY.

**The Finley Prune Crop.**

Corvallis Times: Hugh Finley, who was down this morning, reports pruning drying on his farm as progressing favorably. The two dryers are running day and night, and beginning last Saturday night, 1,000 bushels were dried; 2,500 bushels are yet to be taken care of, and Mr. Finley believes the dryers will be able to handle the crop without loss from over-ripeness. Several persons are employed about the dryers, and are picking about the fruit. Mr. Finley believes his crop will be 70,000 pounds, of which something over two-thirds are peaches and the rest Italian. The crop of the latter is short. Two or three weeks after the fruit is dried it goes into a sweat that continues about four weeks, which will render the product marketable about November 15th. Quotations at present for peaches are four and Italians six cents, which would make Mr. Finley's fruit crop bring more than \$3,000. Mr. Stone does the drying and takes one-third of the crop. The weight of the fruit on the Finley's Hungarian trees was estimated at many of the branches. This was permitted as the Hungarians are not saleable and Mr. Finley will graft these trees with Italian slips. Under this process they will bear Italian prunes in two years. Mr. Finley figures that prunes can be raised profitably at three cents a pound.

**A HARD TRIP.**—Corvallis Times: A Corvallis young man and his honey-suckle went to Sulphur yesterday afternoon. Enroute home the tap that held one of the wheels on came off and so did the wheel. The pair went down in the dust and the tap could not be found. It was a mile and a half to the nearest house where another buggy could be borrowed. The wheel was put on, the girl mounted the seat and drove and the young man ran along side the buggy to keep the wheel on. The dust was deep, the driver drove recklessly and fast, but through that long mile and a half the patient youth stayed with the wheel and brought the craft safely to Ed Wiles' place. The next time he goes to Sulphur the taps on the buggy will be well secured before he starts.

**NOTICE TO CREDITORS.**

Notice is hereby given that E. P. Coleman has been duly appointed administrator of the estate of R. B. Cochran, deceased. All persons having claims against said estate are hereby notified to present the same to the administrator at the office of Geo. B. Davis, in Eugene City, within six months from the date of this notice, with the necessary vouchers.

Dated Sept. 20, 1914.  
E. P. COLEMAN, Adm'r.

**NOTICE FOR PUBLICATION.**

Land Office at Roseburg, Or., Sept. 25, '14. Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before A. C. Jennings, County Clerk of Lane County, Oregon, on November 3, 1914, viz: John W. Parkerson, on Homestead entry No. 6920, for the N. W. 1/4 N. E. 1/4 N. 1/4 N. W. 1/4 S. W. 1/4 N. W. 1/4 section 22, Tp. 18 S., R. 6 W.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz: Richard Brown, G. B. Hickson, James R. Parkerson, Wm. G. Parkerson, all of Eugene, Lane County, Oregon.

R. M. VEATCH, Register.

**C. C. GOLDSMITH & CO.**

**THE Eugene Loan and Savings BANK.**

Successor to the Eugene National Bank.

Incorporated with a Capital of \$60,000, with \$30,000 Paid Up.

Deposits received subject to check. Interest allowed on time deposits, and loans made on approved security.

President: J. C. CHURCH.  
Vice President: B. D. FAINE.  
Cashier: F. W. ORBURN.

The Eugene Loan and Savings Bank will conduct both a commercial and savings business, and your special attention is called to the savings features of it. It is not what you make, but what you save, that makes you rich. In all communities there are many persons of small holdings, which, if deposited in some bank or institution, will be spent in one way or another. It is difficult to loan small amounts, but they can be put in a savings bank and made to bring some return. Believing that the time has come for the successful operation of a savings bank in this community, we solicit your patronage in this matter.

**TUESDAY, SEPTEMBER 25.**

The town now daily presents a lively appearance.

Read the Mustang Liniment advertisement in today's paper.

James and Henry Hoffman of this city have attended every state fair for the past 20 years. This is quite a record.

The increased attendance at the state fair does not indicate much poverty. The receipts were considerably more than last year.

A married woman 28 years old eloped a few days ago from Palestine, Texas, with a sickly, feeble-minded and unimpressing youth only 17 years old. The vagaries of the female are a study for philosophers.

Portland Welcome: The morning paper remarked a few days ago that only "journalists" could find time to attend press associations, while editors had to stay home and work. But it seems that the "only" editor could get away to deliver an address on "the press" at the state fair.

Ashtand Tidings: Ex-Supreme Judge Strahan and his law partner, M. L. Pipes, were on today's train, south. Mr. Pipes goes to Visalia, as attorney in a suit between two factions of the United Brethren church. These suits, by the way, are arising in various parts of the United States, due to a split in the general conference of that church.

Roseburg Platdealer: The receipts of the recent fair lacked a little of equaling the expenditures, and hence it was necessary to scale down the prizes and expenses, warrants and sundries. At the meeting of the society Saturday, it was ascertained that there was money enough on hand to pay 55 cents on the dollar on all premiums, expenses and purses, and it was so ordered.

New students are still arriving. Eugene has the best schools in the state.

Time for the equinoctial storm. Will it come?

Business men report business improving, but not so plentiful as they were last year.

The street car line is now doing a good business.

And still word is arriving in Eugene in large quantities.

The State Agricultural College opened with 174 students.

A little child of W. H. Spangh died near Junction last night.

D. W. Coolidge has a fine display of grapes in J. H. McClung's show window.

Fisher & Watkins will ship a car load of calves to Portland tomorrow afternoon.

Albany has two revivals under way. Pretty good for this early in the winter season.

Harold Pilkington, a young Portland lawyer, has been found guilty of embezzlement.

Workmen are engaged putting new track in the Plains warehouse on the railroad company's grounds.

The Eugene cannery fruit dryer is now running right along. The prunes this year are of very fine quality.

The New York democrats are in session today. It looks a little like W. C. Whitney might be nominated for governor.

Mr. McCrady has shown us an ear of sweet corn that would be hard to beat in the world. It weighs a little over two pounds.

A good sign that we are not going to have an early winter. The wild geese have not yet commenced going southward.

Jennie Gredon, a Portland fallen woman, was shot in the abdomen by a man named Demaine last night, in that city. She will probably die.

The new election law of California prohibits a candidate from "treating" in a saloon or furnishing any kind of refreshment or drinks with the object of influencing votes.

The losses by the Portland fire last Sunday foot up to \$699,500; insurance, \$317,000. Three lives were lost: Chas. Anderson, Edward Murray and Frank Brown, employes in the elevator.

When a store is crowded with customers an impression is created that something is being sold there worth the buying. For this reason the crowd attracted to the store by advertising usually attracts another crowd.

The Congregational Association of Oregon is in session at Salem and will not adjourn until Thursday evening. Rev. Gilt, of this city, will speak tomorrow morning before the body on "The Pastor in Conversion and Training."

A doctor sends a remedy for sneezing: "Press firmly upon the upper lip." It now stands some preacher in hand to send in a remedy for sneezing: "Grab both lips firmly with both hands and get your tongue between your teeth."

La Grande Chronicle: W. M. Gilham and son Thomas have returned from the rich placer mining district of the John Day river in Grant county. Work, in chasing the glittering yellow metal, has been very active in that section for months, but now has begun to flag, and the miners are coming home. When Mr. Gilham and son left the mines there was six inches of the coldly "beautiful" on the ground.

Corvallis Gazette: It is reported that Herron brothers have received an offer of two cents per pound for a car load of Italian prunes, green. The fruit was for eastern shipment and the offer was made by the Portland Fruit Union. As the crop had already been contracted to H. M. Stone the Portland proposal was not accepted. This is the first season the orchard has borne, and the crop will net the boys \$80 per acre.

**Accidentally Shot Himself.**

FRESNO, Cal., Sept. 24.—M. Traprain, an Armenian tailor of this town, had a narrow escape from death last night. He was changing the cartridge of a revolver, and, as is the general rule in such cases, had the muzzle pointed toward himself. The charge exploded and the bullet struck Traprain one inch below the heart and to the left of the left nipple. But instead of penetrating the cavity of the chest and inflicting a mortal wound, the bullet followed the rib clear outward, lodging beneath the skin covering the left shoulder blade, almost exactly opposite the place where it entered. It was easily cut out this morning. Traprain lost a large quantity of blood at the time of the shooting but is now out of danger.

**An Ilwaco Banker Missing.**

ASTORIA, Or., Sept. 24.—J. B. Morrison, a banker of Ilwaco, who was supposed to have left Portland last evening to attend the republican convention at Spokane, has been missing since that time, and much uneasiness is felt at his disappearance. It is thought that he has been foully dealt with. Every effort is being made to trace him.

**Japan Has a Fresh Army.**

LOS ANGELES, Sept. 24.—The Daily News, commenting upon the dispatch stating Japan had a fresh army of 80,000 men ready for the field, says it is probable the Japanese contemplate a dash on Peking.

The Times, commenting upon Japanese victories, says Japan has already done enough to convince intelligent men the world over that they must reckon with a new power. Referring to the alleged desire on the part of Russia to secure an open harbor on the Pacific, that paper says such a possibility would be a menace to England and Japan, who are likely to be found standing side by side on the same important point, should the powers intervene in the present dispute. The Times says another battle between the Japanese and Chinese landed on the Korean bank of the Yalu river may be expected soon.

**Eight Between School Teachers.**

LITTLE ROCK, Ark., Sept. 24.—Yesterday morning at Little Rock, G. L. Bryant, president of the Texarkana interstate normal and business college, shot and mortally wounded Prof. Geo. F. Ellis, a former teacher in the college and at present principal of a private school. The trouble grew out of a rivalry between the two schools.

**Wagon Wreck and Guttery.**

SYRACUSE, Sept. 24.—The jury in the case of Charles F. Wilson, on trial for the murder of Detective Harvey in this city in June, 1893, returned a verdict of guilty of murder in the first degree. Wilson is a brother of Dink Wilson, who was electrocuted at Auburn May 24. Both men were desperate characters, and were engaged in train robbing and burglary for many years in the West.

**There is no Cure to the Assassins.**

VIENNA, Sept. 24.—A terrible double tragedy of "Jack the Ripper" order is reported from America, not far from Tussock. Friday a young and pretty waitress of America went away from her employers residence to witness a religious procession. On returning home she was murdered, and the only clue to her assassin is the knife picked up near the body. Near the spot where the waitress was killed the body of another woman was found, naked and slashed with a knife, today. In addition another woman belonging to the same neighborhood is missing. A strong attachment of gendarmes and two companies of riflemen are scouring the country around America, but all efforts to arrest the murder have proved unsuccessful.

**Hotterhead of an Engine Blown Out.**

SACRAMENTO, Sept. 24.—The boilerhead of a locomotive on an east-bound train blew out yesterday while the train was passing through the snow sheds near Blue canyon, injuring Charles Warren Goddard and Fireman Charles Lipscomb. The latter died a few hours after the accident. He was blown clear over the tender, and shot headlong through one of the openings in the side of the snowshed, left to admit the light, striking his head against the bent. He was badly scalded besides. The men were brought here by an engine and caboose to the railroad hospital. Lipscomb died about 5 p. m. Goddard is not seriously injured.

**Drank Poisoned Coffee.**

MEMPHIS, Sept. 24.—Miss Mattie Osborne, her four children and W. E. Hunt, were poisoned this morning by arsenic in the coffee, which Mrs. Osborne had prepared. Mrs. Osborne, her son Willie and daughter Mattie and Mr. Hunt are in a critical condition. There is no clue to the mystery.

**Killed by His Schoolmate.**

SAN DIEGO, Sept. 24.—Charles Ross, a 17-year-old boy, living with an uncle of the same name in this city, was shot yesterday by a 22-calibre bullet from a rifle in the hands of his schoolmate, John Miller. The wound is dangerous and will probably prove fatal. The shooting was accidental.

**A Storm in Cuba.**

HAVANA, Sept. 24.—A terrible storm prevails throughout the length and breadth of the island of Cuba. Many houses have been blown down, trees uprooted, etc. No loss of life is reported.

**The Results of Caraboneras.**

VIENNA, Sept. 24.—The her majesty's ship Arthur was the scene of a distressing accident last evening. Two midshipmen who had been hunting, and sent their guns aboard by a messenger boy for the local office, foolishly failing to extract the charges. The messenger boy took the guns to the ship, and in the gun-room one of them was discharged, instantly killing Gunroom Steward Reece. The case is being kept quiet by the naval officers, pending a hearing tomorrow.

**Shot by a Baseball.**

SACRAMENTO, Sept. 24.—A young man named Shields, who was playing right field in the game between the Gilt Edge club and the State Printing Office club at Snowflake Park yesterday, was knocked senseless by a ball thrown by the pitcher, which struck him on the head. Blood gushed from his ears, mouth and nose, and it was a long time before he regained consciousness. His condition is regarded as serious.

**COMPANY INSPECTION.**—Lieut. F. L. Chambers, inspector of the C. & N. W. Railway, inspected the boys presented a very creditable appearance.

**Good Cooking**  
is essential to  
**Good Digestion**

in poetry you cannot have either without a good short-cutting. Good cooking is essential to good digestion, causing indigestion and many other dietetic troubles. Science has come to the assistance of the cook, and of weak stomachs, with the new shortening,

**Cottolene**

It is composed of the choicest beef tallow and highly refined vegetable oil, in many respects as good as the finest imported olive oil. Physicians endorse it, cooking experts recommend it, and thousands are now using it in preference to any other shortening. Refer to all substitutes.

Made only by  
**N. K. FAIRBANK & CO.,**  
ST. LOUIS AND  
CHICAGO, NEW YORK, BOSTON.

**SHIPPING HOPS.**—E. C. Smith went to Harrisburg today to superintend the loading of three cars of hops. Two cars have been shipped already and this makes a total of five cars shipped from the large Davis' yard so far. Smith & Beadle, the lessees of the yard, are consigning the hops direct to London and expect in this manner to come the nearest to securing a price that will cover the expense of raising and marketing them.

**OREGON REPORTS.**—The 24th volume of the Oregon supreme court reports have passed through the press of the state printer and is now being bound. It is expected that the reporter of the court will soon turn over to the state printer his first installment of copy of the 24th volume, which will be taken in hand forthwith.

**MOVING A TOWN.**—The town of Gold Beach, in Curry county, is being moved across the river. A large bar formed in front of the town and boats were unable to get anywhere near the town, hence the necessity of moving the town to the boats. In regard to the matter the Gazette of that place says: "This week will see all the buildings to be moved safely across the river. The Edison house, adjoining the Gazette office, went Tuesday night, and the building adjoining the hotel, known as the old printing office, went over Wednesday night, and the hotel is now being loaded on the scows. It will take some time yet to place the buildings permanently in their new locations, but already the other side of the river shows up as a town, the whole water front and buildings showing plainly from this side."

**SOME BOARDS.**—Tuesday's Salem Journal: Six carloads of lumber were yesterday received by the Goodale yards, from their mills at Coburg.

**Good Cooking**  
is essential to

**A YOUNG GIRL'S FORTUNE.**

AN INTERESTING SKETCH.

Nothing appeals so strongly to a mother's affection as her daughter just budding into womanhood. Following is an instance of a daughter, now 15 years of age, but who has been severely afflicted with nervousness, and had lost the control of her right arm. She was in such a condition that we had to keep her from school and from her usual avocations. In fact, we feared she would die. We tried all the best medical and surgical treatments, but she never improved. When we learned of Dr. Williams' Pink Pills for Pale People, we bought a bottle and gave it to her. She had not taken more than a few bottles of this medicine when she was able to get up and walk. She is now a healthy, happy girl, and her mother is very glad to see her so well. Dr. Williams' Pink Pills for Pale People is sold by all druggists and is a positive guaranty of cure. It is a positive guaranty of cure. It is a positive guaranty of cure.

**GOLDEN WEST BAKING POWDER**

3 REASONS WHY IT IS THE BEST

1. It is made right here at home.
2. It is made of the very finest materials and is guaranteed in every respect equal or superior to the very best.
3. The makers guarantee every tin and every grocery is authorized to return your money if it is not satisfactory.

**CAN YOU ASK FOR MORE?**

CHAS. H. DAVIS, Portland, Or.

**FOES OF THE APHIS.**

An exchange says: The first installment of the "lady bird," so long expected from the state horticultural society of California, arrived at the rooms of the Oregon board at Portland on Tuesday in good condition. They are not of the "twice stabbed" variety, but a shipment of these will be due in a day or two. These lady birds are the deadly foes of the aphis, which has of late been causing so much trouble to Oregon orchardists, and a number of fruitgrowers have been anxiously awaiting their arrival. They will be distributed, to be colonized in the orchards of people who will look after them and try and protect them in order that they may spread over the country.

When the aphis begins to prey upon the trees, it will be grim satisfaction to the owners to see the lady birds coming to the front in swarms to prey upon the aphis and exterminate them. Speaking of the number of insect pests and diseases which now render life a burden to the fruitgrower, Mr. Settlement, the veteran nurseryman of Woodburn, said they came naturally with the increase of orchards. "In early days," he said, "when there were only a few people and a few orchards in the state, there was no disease among either of them. People lived till they died of old age, and one could go through orchards and see hundreds of bushels of apples lying on the ground and not find a scabby or a wormy one among them. As the people and orchards became more numerous the diseases came, calling for more care and the use of preventive measures, which in early days were not necessary and were unheard of."

"Baby" McKee is now a bright boy of 7 in knickerbockers.

The best proof of the really serious illness of the czar is found in his expressed wish for peace with all the world.

Chief of Police Hunt of Portland will be retired to give place to a political hack whose only record is that of office holding.

The kaiser may have a divine right to rule, but it will be observed that he continues to review and maneuver his troops and keeps his gun carriages well oiled.

The members of the M. E. conference which closed its labors yesterday compliment Eugene on the hospitality bestowed, and the interest displayed in the meetings.

The Chinese emperor soles himself on the occasion of a defeat of the Chinese army by taking a decoration from his viceroy, Li Hung Chang. That worthy will probably be satisfied so long as they do not deprive him of his head.

A representative of the sugar best incorporation in Portland claims that there are localities offering a bonus of \$150,000 and land besides for the establishment of one of their plants, which are to cost \$500,000 each. To use an expression that is common in cultivated circles now-a-days, there is ample ground for the belief that this representative is talking through his hat.

If a cheap coat makes a cheap man, cheap sugar must exert a similar effect. The sugar trust ought, therefore, to have 300 per cent protection. Benjamin Harrison is slated for a few speeches this fall and everybody would like to listen to his views on cheap sugar as a destroyer of high-priced manhood.

Although the loss was heavy at the recent fire in Portland, it is not a disastrous one to the city. The property destroyed was mainly owned by wealthy corporations, and was insured at a large percentage of its value. Business men dealing in large properties take no chances by allowing their possessions to go uninsured.

**Shot Dead From Behind.**

SALT LAKE, Sept. 24.—Morano Guisippi was shot and killed yesterday in Potter's Canyon, near this city, by Joseph Moorst. The men had engaged in a dispute over a mine. Moorst approached Guisippi from behind and shot him dead.

**Shot His Wife's Admirer.**

WEST BERKELEY, Cal., Sept. 24.—James Clark, an iron moulder, during a quarrel was shot and fatally wounded by Frank Dunning at this place last evening. The quarrel was the outcome of ill blood which had existed between the two men owing to the intimacy of Dunning's wife with Clark. Clark first struck Dunning, knocking him down and beating him. Dunning then procured a pistol and fired two shots at Clark, one passing through the left lung and the other entering the left side just below the heart.

**Japan Parliament.**

YOKOHAMA, Sept. 24.—A receipt has been issued convoking an extra session of the Japanese parliament on Hiroshima, October 15. It is seven days, to discuss matters requiring the sanction of parliament. A letter from Tieu-Tzu says the Chinese fleet landed 7,000 troops on the banks of the Yalu, in spite of the attack of the Japanese squadron. In the attack the Chinese ships engaged in the battle of Yalu were short of ammunition. They were ordered by Col. Von Hencken to ram the Japanese vessels, but the order was too late, as the Japanese were already retiring.

**A Murder Mystery.**

ALLEGAN, Mich., Sept. 24.—The coroner's jury is holding a secret inquest upon the remains of Ira Hurd, shot by his wife, as she claims, through an accident, Saturday night. The revolver with which she claims to have fired the fatal shot, it transpires, had not been discharged at all, but was actually had been extracted. It is believed that the shot was fired by another person who was with Mrs. Hurd at the time.

**Memphis, Sept. 24.**—Miss Mattie Osborne, her four children and W. E. Hunt, were poisoned this morning by arsenic in the coffee, which Mrs. Osborne had prepared. Mrs. Osborne, her son Willie and daughter Mattie and Mr. Hunt are in a critical condition. There is no clue to the mystery.

**Killed by His Schoolmate.**
