

## Eugene City Guard.

SATURDAY, SEPTEMBER 25.

Mr. Pullman is interested to learn that the Japanese have nothing to arbitrate.

The nomination of Hill for governor of New York will compel Morton to open up another barrel.

It is not strange that the Chinese army at Ping-Yang suffered from nervous prostration. It was commanded by Generals Tso-Po-Kai, Wei-Lin-Wai, Nany-Kow-Eng, Sei-Kin-Lin and Tso-Fonk-Wai. Their defeat was pronounced if their names can't be.

The sugar planters of Louisiana have lost their heads. They are giving the country an object lesson of the reckless selfishness of bounty-fed interests, that may in the end return to plague them. There is no tenable middle ground between bounties for everybody and bounties for nobody.

La Grande Chronicle: Over in the state of Washington the mortgage indebtedness is a little over \$44,000,000. Oregon has a little over one-half as much, her records showing \$24,000,000. The population and assessment values in the two states are about equal. Oregon is a little bit slower than her neighbor, but is on a more solid basis.

The Eiffel tower is to be removed from Paris to Baltimore at a cost of \$500,000, and set up over the latter city as an ornament and speculative enterprise connected with the fair to be held there in 1897. It paid very well at the Paris exposition, of which it was one of the chief features, and it doubtless has a satisfactory financial future before it in the new location to which it is destined.

When Senator Jones of Nevada was a miner he came near being lynched because he was found in side of another man's trousers. He had appropriated them by mistake. They were stamped with the name "J. Owens" on their broadest part. He told those who wanted to hang him that that was Welsh for Jones and they believed it. He has always had a pretty and sometimes a vindictive wit. It was he who said of the sable emblems when Garfield died: "A mile of mourning to an inch of grief."

Paris has become second only to London in her devotion to cycling. The use of the wheel is so general there that the French academy of medicine has been seriously discussing the habit this week. There are more than 100,000 bicycles in Paris, and they are ridden by young and old, fat and thin. A prominent physician drew the attention of the academy to the death of three persons from heart disease recently while riding bicycles. He said that not less than 1 per cent of the riders are suffering from cardiac affections and are in danger of the same fate. He argued that no one should use the machine without submitting to medical tests.

Senator Hill is playing a desperate game in accepting the nomination of New York. If he can win in this off-year and during these hard times, when the ruling party is held responsible for the condition of the country by the unthinking, no power or combination will prevent his nomination and election to the presidency in 1896. David B. Hill is a magnetic man, and the nomination will result in an exciting and aggressive campaign in the Empire state before it promised to be a tame affair. The republican candidate, Levi P. Morton, ex-vice president, was nominated on account of his money, and to prevent the nomination of a presidential possibility. Hill is a poor man. It will be a contest of brains against money.

**Predicts Success in November.**  
SARATOGA Sept. 25.—Senator Murphy called the democratic state convention to order, at 1:30 p. m. Senator Hill was named for temporary chairman and enthusiastic enthusiasm. Miss Susan B. Anthony and other women suffragists are here to urge the adoption of a plank in favor of extending the ballot to women.

Hill said: The untimely democracy of the Empire state assembly today undimmed at the premature boasts and assumed confidence of our adversaries. We are not unaccustomed to their annual and moss-covered game of political bluff, renewed this year with extraordinary vehemence and unabashed effrontery. If vain boasts alone could bring victory their battle is indeed won before it is actually commenced, but we beg to remind them that there has not been a campaign in the last twelve years when they did not assume the carried it, when in truth, with a single exception during that whole period, victory has perched upon our banners on the first Tuesday in November of each year. We win our victories on election days, and not by exuberant bravado in convention halls. The unexpected victory of our opponents last fall has turned their heads and rendered them arrogant and opinionated. They fail to recall the fact that the total vote polled was nearly 300,000 short of the full vote of the state. The victory which they themselves did not anticipate surprised them, and astute leaders the next day after election humorously attributed it to divine providence and not to republican strength. With a united party and a united vote, New York is still democratic, and if we are true to ourselves will this year resume her rank in the democratic column. Our opponents by vigorous beating of logue political toms and inst-

ing upon petty and misleading local issues, seek to divert public attention from the unenviable record they made during the recent four years of control of the federal government. The people, however, have not forgotten it was the republican administration which in that ill-fated year, 1890, saddled the country with the unwise and vicious legislation which has since crippled its prosperity, endangered its finances and augmented its public burdens.

## HILL WAS NOMINATED.

David B. Hill has accepted the nomination for governor.

Lockwood was nominated for lieutenant-governor and Judge Gaynor received the nomination for the court of appeals. The convention after giving three cheers for the ticket adjourned.

Cleveland "Not in Touch."

BUZZARD'S BAY, Mass., Sept. 25.—A representative of the press was the first to notify the president of the result of the democratic state convention in Saratoga early this evening. Mr. Cleveland was asked if he had anything to say as to the nomination of David B. Hill for governor. He replied: "I am not in touch with the political situation in New York, but no doubt the convention has done the best thing possible."

## Dexter Items.

Sept. 27.

Equinoctial days.  
Mrs. Bruce Mayo will teach our fall term of school.

The road is extensively patronized nowadays by travelers and people doing their fall milking.

The flour mill is running day and night to supply the demand for the "Mt. June" flour. Get in and join the big procession and eat good bread this winter.

A number of people of this vicinity have been rusticated in the mountains during the past few weeks. Big stories are rampant.

Clem Parker has leased his ranch near Dexter to Lester Wheeler and is preparing to move to his mountain ranch. Mr. Wheeler expects to engage in the hop business extensively.

A little daughter of Edward Chandler is dangerously ill.

Dr. Thompson has sold his Trout farm to Mr. James, of Creswell. He will give possession immediately.

John Parker, of Creswell, was shaking hands with friends here Monday. He intends spending the winter in Yamhill county.

A cousin of Mr. Chandler, Mr. Ridgway, and also a brother, arrived from Palouse a few days ago to make Webfoot their home. They have leased Weoley Neel's place.

J. A. Briggs took his camera with him on his mountain trip and took a number of views of camp and popular mountain scenery. Come and see them.

A good portion of the hops here have been harvested. A. D. Hyland left several acres of fine hops on the poles.

At Parker is erecting a commodious dwelling on the mill corner. Mr. Fenton is the architect.

Mrs. Blakeley, of Middle Fork, has leased her farm to Mr. Gilles, of Creswell, and is preparing to move to Antelope, Wasco county.

There is a prospect of a revival meeting being held here soon by Rev. Armstrong. May the effort succeed, is the wish of

REGULAR.

## Dr. Price's Cream Baking Powder

World's Fair Highest Medal and Diploma.

## Creswell Casualties.

The Creswell school started this week with sixty pupils, with Miss Gertrude Groubeck, principal and Miss Sallie B. Mast assistant.

School at Union school house began Monday with twenty pupils, with Miss Laura Sears, teacher.

Mr. H. C. Hunter is sinking a well near his new building.

W. H. Williams left for Turner Wednesday to remain all winter. He left his strawberry patch looking fine, and his melons in charge of Harvey Scott for another week.

Married.—September 25, at the residence of Geo. Petty, Geo. W. McCoy and Mary Eaton, all of Marion county. Justice G. S. Miller officiated. The couple left on this morning's train for Turner. The bride is a sister of Mrs. Geo. Petty. The groom has been very ill while visiting here the past month.

A long, slim sardine from Cottage Grove was down this way last week, preserving the peace in and about Ruggies' circus at the hop yard. He pompously informed the small boys that he was an "officer of the law" and also privately informing a stranger that he was a "deputy sheriff" on a salary of \$600 a year, and made himself very important generally.

One of Goshen's officials was acting rather strangely in this neighborhood one evening last week. He was driving rather aimlessly about inquiring about prunes, when all the spare prunes from here go to the dryer near his home. He was nearing the place where a wedding was to take place that evening, evidently hoping to best Squire Miller out of a few. When learning he was too late, he bought a nickel muskmelon and started for home. We don't want to get fined for contempt of court, but he had best carry himself straight the next time he comes this way.

## Dr. Price's Cream Baking Powder

World's Fair Highest Award.

MAD.—You can't make a Chinaman in town believe the Japs are getting the best of the war. We told a Mongolian here the other day, the outline of the dispatches received here by the American press, giving an account of the victories of the Japs on land and sea. The Chinaman wouldn't have it that way. He said "Mellian paper no say; heep talkie d-a-n lie. China paper alle lie; he say Jap not in it. Whatta Malla? Cise! China soldier he do 'em up—out o' sight; see?"

For Sale!

The Eugene Iron Works. Enquire of G. N. FRAZER, at the Works.

Daily Guard, September 27.

FOR CALIFORNIA.—Chas. Henderson left on this morning's freight train for Watsonville, California. He takes Dr. Watters' horses, consisting of four head, which have been here since the doctor removed.

## Governor Aligned After Pullman.

SPRINGFIELD, Ill., Sept. 25.—Governor Altgeld today addressed the state board of equalization on the assessment of the Pullman Palace Car Company's property. He showed many figures and facts concerning the company's manner of escaping taxation in this and other states, and in Canada. The company, for instance, gave in \$35,000,000 as its capital stock, when it should be \$61,000,000. The governor begged the board to make a proper and just assessment of this property, in justice to the people of the state.

## A PRIVATE SNAP.—Salem Journal.

Railway Commissioners A. I. Marcus, J. B. Eddy and H. Compton, attended by Clerk Lydial Baker and Capt. Jones, aide-de-camp of General Compton, arrived in the city last night on a special train composed of two Pullman cars. One car was the private car of Superintendent Fields, of the Southern Pacific, who attended the commission with several officials of the road. The second car was a richly furnished Pullman sleeper. Five colored waiters attended the functionaries on wheels. The party visited the state fair and maces. In the evening the train pulled down town and the party took a stroll for exercise. The commission are very well groomed and appear contented with their lot.

## Contains Thirty Thousand Men.

WASHINGTON, Sept. 25.—Today's advices from Tokio that the second Japanese army of 30,000 men sailed from Hiroshima yesterday, regarded in official circles here as a first move in the advance on the Chinese capital, Peking. The Gulf of Pe-chih-li, which the dispatches give as the probable destination of the army, is the entrance to the river leading to Peking. It is said the forts at the entrance to the river are practically impregnable, owing to a stretch of mud flats around them. It is not believed, therefore, any advance on Peking would be made up the river, but 30,000 men will be landed at some other port whence a short overland march would take them to the walls of Peking. A circuit of the forts is the strategic move advised by a United States officer of high rank who has made a study of the proposed invasion of China.

## TAKE HEART.

If you're a suffering woman. The chronic weakness, painful disorders, and delicate derangements that come to woman only have a positive remedy in Dr. Price's Favorite Prescription. If you'll faithfully use it, every disturbance and irregularity can be permanently cured. It's a legitimate medicine for woman, carefully adapted to her delicate organization. It builds up and invigorates the entire system, regulates and promotes all the proper functions, and restores health and strength.

"Favorite Prescription" is the only remedy for woman's ills that's guaranteed. If it fails to benefit or cure, you have your money back.

Which is the best to try, if you have Catarrh—a medicine that claims to have cured others, or a medicine that is backed by money to cure you? The proprietors of Dr. Price's Catarrh Remedy agree to cure your Catarrh, perfectly and permanently, or they'll pay you \$500 in cash.

SEND FOR PRICE LIST.

## THE BEST WAY.

When the inquisitive owner of the camel asked that patient animal, "Would you rather go up hill or down?" the camel was Yankee enough to answer the question by asking another. "Pray, Master, is the level way across the plain shut up?" So with us. We travel no devious way to popularity. Straight bargains, straight prices and straight methods are good enough for us.

## THE BEST FOUNDATION.

Transient trade is all right for a superstructure, but steady custom is the foundation of a business. That's what we are working for. We propose to not only give prices that will attract you, but treatment that will hold you. By doing this we disprove the statement that "There's no friendship in trade," because a man had better have no customers than be without friends.

## A POPULAR ERROR.

We do not believe "the American people like to be humbugged." To say that we, as a nation, enjoy being humbugged is to insult our intelligence; to attempt it will bring swift and terrible punishment. We not only know a good thing when we see it, but we appreciate merit when we meet it.

Believing this we invite an examination of our stock which is complete and much larger than usual and prices the lowest. If you fail to buy, it is possible we may call in question your judgment, but you will have discharged a duty you owe yourself and family and we shall have done our best to please you.

Yours very truly,

J. H. McCLUNG.
