Since returning home from Pen dleton we have been asked many questions concerning the capital city of Umatilla county. #### RAISING A BREEZE.

We might wait and let November do it, but we don't propose to let even the weather "get a drop on us." pleasant days of fall will soon be but a memory. Shrill voiced wintry winds will soon press their lips to the cracks and cry "What were you doing all last summer?" The adage that "In time of peace prepare for war" is not more important that in the fall prepare for winter.

What old goods we had are buried beneath the flood of October stuff that has swept in upon us. The new goods are "Out of sight" in the new and festive phraseology that says so little and means so much. We don't expect to make our everlasting fortune this year, but we do expect to so increase our following that success will be ours in the terrestial bye-and-bye. Our stock is complete with the latest novelties and additions being made almost daily. Ladies jackets from a leading manufacturer of New York are just in and the values the lowest.
