The battle for tariff re-form will have to go down to the foot and take a new start. The battle over the money issue will soon be upon us. We shall see if there is democracy enough left of the true-blue stripe to make a greatcost good against all weather, or whether we must still were a coat of many colors, covering not a homogenous party inspired by faith and trust, but a mero bundle of factions throw together by the up-heaval of the times."
