The Best Plaster.

Dampen a piece of flannel with Chamberlain's Pain Balm and bind it over the seat of pain. It is better than any plaster. When the lungs are sore such an application on the chest and another on the back, between the shoulder blades will often prevent pneumonia.

If so your child never be without a bottle of Chamberlain's Cough Remedy. It is a certain cure for croup, and has never been known to fail. If given freely as soon as the croupy cough appears it will prevent the attack.

Peek Arrested.

Tuesday's Albany Democrat: The team of John Schmeier, taken by Frank Peek, was found near Wells station, Peek having become frightened and fearing arrest.

Mr. John Schmeier received a dispatch from Eugene that Peck had the horse hitched, had been arrested near the Summit beyond Philomath by Sheriff Osburn and assistants. He will be brought to Albany tomorrow, and will undoubtedly get another term in the penitentiary.

The Corvallis Times gives the following biographical sketch of Peck: Most people in this latitudinal, especially those of Elgin, remember Frank Peck, alias Frank Baxter. It was Mr. Elgin's team that Peck hired a few years ago, and he forgot to bring back. Officers chased him, but he took to the woods in Lane county, and eluded capture.

For some other offense, he served out a sentence in the Coos county jail, and when the doors opened for him to go free Peck was brought to Corvallis where he was tried, convicted and sentenced to the penitentiary of the Elgin team. His term in the penitentiary was for one year, but at the end of seven and one-half months he came back to Corvallis and gave out that he was a reformed man. The helping hand was tendered to him were pearls cast before swine, however, for like many things earthly, Peck's reform was only transitory.

Fire Department Drill.

Daily Guard, November 21. Chief Croner, of the Eugene Fire Department, called the various companies out for a drill last evening. The object of the drill was to see if all the apparatus was in good working order.

The old engine was worked and the Hook & Ladder Company put their ladders on J. H. McClung's store and extended them to the second story; the Oregon Hose company then carried their hose to the top of the building and the water was turned on.

The Rescue Hose company made an excellent run with the race by the fire, and created about as much excitement as a similar race would on the Fourth of July.

Two Papers for One Price—Subscribers Pleased.

A number of new and old subscribers to the weekly GUARD have already taken advantage of our offer to furnish the GUARD and Cincinnati semi-weekly ENQUIRER one year for \$2.00, and those who have had time to receive the eastern paper are well pleased with it.

We should be pleased if they will show the Enquirer to neighbors, and inform them of our liberal offer.

We have sample copies on hand, and will send them on application to any address.

We assure our readers that the Enquirer has more and better reading and news matter than either the New York World, or Tribune, St. Louis Republic, Chicago Times, San Francisco Examiner or Chronicle, or any other weekly or semi-weekly newspaper it has been our pleasure to examine.

It is not necessary to tell the people of Lane county the standing and esteem in which the GUARD is held as a local paper. And both for \$2.00 a year, strictly in advance.

Hop Intelligence.

Journal-Bulletin, Nov. 7.—Some dealers report better business with home brewers, on which the 12c was realized for exceptionally fine stock, and the parity of interior market rates accepted for other grades.

Export movement is comparatively light and orders from foreign markets, are few, with bids about 1 to 2 cents under selling views. From inland some markets there were advices of fair business at about the same prices but ruled last week.

Foreign reports were of stiff prices for high quality hops, but rather poor market for others.

The same paper of the 10: Some little export business was reported, chiefly at about the interior New York and 10 to 10 1/2 for choice Oregon hops.

There was not enough movement however, to have any effect upon the general market, since prime and lower grades were secured readily at about the prices that have ruled previously of late, and which were turned out to home brewers at very moderate advances on original cost.

Foreign market advances are somewhat conflicting. Foreign reports are not forcing values, but indicate there is a real firmness to prices except on particularly fine quality of goods. In this connection it may be noted that offers on some very fine samples (submitted by request of factors) were below reported values. Hop growers: The situation since our last report has remained in about the same condition, with however, an improving tendency. The demand seems to have fallen off somewhat, but this diminution of actual business does not appear to have affected values. Hops of low to medium quality are not easy to sell, but there is a growing conviction that choice samples will be difficult to find, therefore their value is not only firm, but is gradually hardening.

The result is the Southern growers are not forcing business, in the expectation (which seems to be well founded) that in the near future better prices will be obtained. Recent sales have realized for growers, \$4 10s for East Kent Goldings, and as our telegraph report from the Borough shows, even 6s for choice qualities have been given. Worcestersters have been sold at 4 1/2s, and generally speaking, there have been no signs of lower prices, but rather the reverse.

Kash is King. THE FAIR has moved to the Harris block, next to A. V. Peters and from this on will do a strictly cash business. We don't want our customers to pay any more of our bad debts created by the credit system, so you need not ask for credit for you will only be refused. Cash will buy.
