

CITY AND COUNTY.

SATURDAY, DECEMBER 8.

The Hop Trade.

N. Y. Produce Currier, Nov. 24.

The market continues in pretty good shape. Exporters have drawn some new orders from London, and with the shipments from New York purchases and Pacific coast stores going forward on consignments the foreign business makes a fair showing this week. Drawings with houses have been on a large scale and the month of November promises to be the best for several years. Confidence is shown by the free operations, and there is still a willingness to buy when desirable samples are shown. The fact that the bulk of the stock both in this country and Europe is of a lower quality than was indicated at the opening of the season makes dealers as well as buyers think pretty well of choice hope. For a very high grade—rich, clean, bright and silky—12 is asked and occasionally obtained, but most of the stock classed as choices sells at 10c, and medium to prime grades range from 8 to 10c. More business has been done in yearling and best grades than in buying in the country was quite free during the early part of the week, but it has seemed to be a little quiet to ward off close prices; however, remain unchanged. London cables report no change in the condition of the English markets."

Work Well Done.

CEDAR RAPIDS, Iowa.—I suffered with dyspepsia and disordered liver and would frequently throw up bile. I procured a bottle of Simmon's Liver Regulator, and after using half of it was completely cured. One of my lady customers told me the other day that Simmon's Liver Regulator completely cured her of sick headache—D. Oids.

Out in a blizzard.

Mr. J. P. Blaize, an extensive real estate dealer in De Moines, Iowa, narrowly escaped one of the severest attacks of pneumonia while in the northern part of the state during a recent blizzard, says the Saturday Review. Mr. Blaize had occasion to drive several miles during the storm and was so thoroughly chilled that he was unable to get warm, and inside of an hour after his return he was threatened with a severe case of pneumonia or lung fever. Mr. Blaize sent to the nearest drug store and got a bottle of Chamberlain's Cough Remedy, of which he had often heard, and took a number of large doses. His effect was wonderful and in a short time he was breathing quite easily. He kept on taking the medicine and the next day was able to come to Des Moines. Mr. Blaize regards his cure as simply wonderful. For sale by OSBURN & DELANO.

Sore Throat.

For a sore throat there is nothing better than a flannel bandage dampened with Chamberlain's Pile Balm. It will nearly always effect a cure in one night's time. This remedy is also a favorite for rheumatism and has cured many severe cases. 50 cent bottles for sale by OSBURN & DELANO.

Cold Hill Nursery.

Call on or address T. N. Sagar, Eugene, for all kinds of nursery stock. Prunes on mandarin plum roots thus will not sprout, also on peach roots.

A Cure for Croup.

When on a visit to Iowa, Mr. K. Dalton, of Laramie, Russell county, Kansas, called at the laboratory of Chamberlain & Co., Des Moines, to show them his six year old boy, whose life had been saved by Chamberlain's Cough Remedy, it having cured him of a very severe attack of croup. Mr. Dalton is certain that he saved his boy's life and is enthusiastic in his praise of the Remedy. For sale by OSBURN & DELANO.

James Edmunds wife has been quite ill, was considerably improved yesterday morning.

J. F. Kenney's little boy was quite sick Monday night, necessitating the attendance of a physician. The little fellow is now improving nicely. W. D. Kenney's baby is also quite unwell and was taken to Eugene yesterday to see a doctor.

Miss Jamie Taylor's peapting to give a little entertainment at the close of her school.

James Hurdridge had the misfortune to lose a pocket book on the road between the east fork bridge and the Phaidon Hill postoffice. Friday evening, containing three \$2 bills, 25¢ postage stamps, several visiting cards, two letters addressed to himself and other contents that would give him a good sum. They ask for a clear, true description of the pocket book only when the factory has been investigated. They say it is a clear, true description of the pocket book only when the factory has been investigated.

Mr. Davis, of Hayden bridge, was buying calves Monday. Fred Overton of Brownsville, is now here on the same business.

Misses of this place who attended the Thanksgiving ball at Creswell Thanksgiving night reported having had a fine time.

Joe Smith removed the man to the Thurston poor farm Sunday, who fell from the south bound overland train Thanksgiving night. The man is in a serious condition.

Mr. Childs, of Brownsville, is here looking for young cattle. This is the third cattle buyer this week.

H. F. Childs, of Brownsville, is here looking for young cattle. This is the third cattle buyer this week.

compliment to Dr. Chapman.

The Salem Journal pays Dr. Chapman a very high compliment on his literary attainments and culture. It says in part:

"President Chapman is a young man who has devoted his life to literary culture. He is one of the distinctly literary men Oregon can boast of. He is a student, a hard worker, a growing man, a man not afraid to proclaim original ideas, and to state them in a forcible manner. He is a thinker and compels thought in others. He states what is in him warily, not fearing the consequences of being mistaken. He is always right, nor always graceful. He has life and enthusiasm. But he does not lack culture or courage.

He is a man who will bear watching. We should watch him grow as he goes with and grow him. He has the mental equipment for a great and grand man. He is a man rapidly growing towards a knowledge of humanity, his broad, warm, loving sympathetic faith. He is very near a made realistic of the Herbert Spencer school, or rather of the Herbert Spencer school when Spencer was a younger man.

The people of Oregon are to be congratulated upon having a man of culture and a man of strong clear mentality at the head of their State University. No man ever let his mind out freely in the fields of English literature who was not strengthened and broadened for usefulness to his fellowmen. The literary man is a man of ideas. He may not be practical entirely in worldly ways but his mind will not be impaired. It will not deviate from the truth very far upon important matters. A man of broad culture is generally a safe man.

Strayed.

From March Island, nine miles north of Eugene, about the 1st of June, one gray mare, 7 years old, headed to right shoulder, and her tail cut off about 10 feet back from the root.

Tearing the tail off, all the tail glands are swollen and the tail is very tender.

They had to have a special pitcher and mitigated the animal's tendency to get money to pay his bill.

We haven't heard of anything quite so bad in Oregon yet.

BOX AND BASKET FACTORY.

Dec. 6, 1894.

Estimator stands a Show to Get a First Class Factory Located There.

The most proposition to be considered by our citizens is for a box and basket factory to be located at Estacada. The proposition made is certainly one of the most reasonable and businesslike made to the people here for some time. They propose to erect a box and basket factory, with yards, dry kilns, warehouses, etc., and erects a power of 1000 horse power. They ask for a clear, open space, with a capacity of about 100,000 feet square.

A. W. Morse made a trip to his ranch on How river last Sunday, after his household furniture which he intends to use at the Stone place. The Stone boys have got him a nice seat, and shanty to live in while he is working his traps.

Roy Blagg returned from Polk county last Thursday evening.

The unexpected tall at Hunter's mill was interrupted by a large crowd. The spectators crowded in until there was scarcely standing room. Those that were not present missed the grand sight of their lives. Quite a number of citizens and Springfield folks were there.

Mr. Gittings had a piece of meat stolen from his woodshed the other night, and Mr. Harrelson lost some wood. It seems that the thief got away with his meat.

There will be an exhibition at the school house Friday evening, Dec. 11.

Mr. Ben Zehner, of Portland, is visiting friends here this week.

Miss Mollie Black has returned to Eugene where she will stay some time to learn the dressmaking trade.

There is strong talk of Xmas trees to be given at this Hill.

Book.—To the wife of Wili Fisher, Nov. 24, 1894, a 12 pound boy. Mother and child doing well, and papa is all smile.

The V.P.S. C. E. of this place was elected Sunday, but will meet again the 20th of January, 1895, to elect new officers.

Fred Welch is visiting friends at Long Tom this week.

Mrs. Ella Freez and boys have gone to California on a visit. Thus poor Dick has to tail.

SC. 18.

ASSESSMENT ELEVATED.—Although notified, the Southern Pacific Railroad Co. failed to appear and show cause why their assessment should not be raised. Therefore the county commissioners court has increased their assessment on the main line of their track in Lane county, 49.65 miles, from \$3,500 per mile as assessed, to \$4,000. This will increase the total assessable property of the county \$20,375. Last year the company paid on the track at the rate of \$4,400 per mile.

CHERRIES.—An exchange says: Why the world don't some one plant out a large orchard of our large, ripe cherries. There is nothing that a man could put out at this day and age, that would pay as well. Dried cherries are always worth from 35 to 40 cents per pound, and the supply is so limited that most of the dried cherries used in this country come from Germany, while the demand is always good.

PLEASANT MEETING.—The ladies' aid society of the Presbyterian church, met with Mrs. S. E. Brown, at the Hotel Eugene, yesterday afternoon. They were arranged Monday and fined \$10 each to help the Y.M.C.A. which they paid. After words Gilmore had Maxwell arrested for assault with a knife—a deadly instrument—and he was tried at Irving this afternoon on the charge.

MISSING.—M. H. Hearst, proprietor of the paper, has agreed to turn over the whole newspaper plant to them and they are going to wire every line of the paper, manage the business department, edit the telegraph news, collect the local news, solicit the advertisements and, in fact, do everything in preparing the paper for publication up to the time it goes to the composing and press rooms.

The entire proceeds of the Christmas edition will be turned over to the ladies to be used for the support of the Children's hospital. The ladies are very enthusiastic over the scheme and promise to leave a paper that will be a revelation to Mr. Hearst's corps of men writers.

WILL PROBABLY WIN.

Wednesday's Albany Democrat: Mr. Ed. City of Portland, has been in the city in the interest of Hammond & Bonner, the railroad men, who have just made a contract for a railroad from Astoria to Gold Beach to connect with a Portland road. Mr. Stone has been investigating the O. P. in their interest for nearly six months. To the Man About Town, who met him today, he spoke in highest terms of the proposition and believes the road when extended will mean much in the way of Pacific coast traffic. It has been generally thought up to this time that the road would not run through the O. P. Mr. Stone did not make any definite statement on this point. Another railroad man, though informs us that they will bid. They want the road, other bids may be looked for according to the present prospect.

LOOKING AT OREGON.—Portland Telegraph: Mr. S. J. Skeels of the New York Life Insurance Company, received a letter this morning stating that about 20 well-made men of Syracuse, N. Y., will leave there between the 15th and 20th inst. for this city to look into the fruit land and other agricultural opportunities offered in this state, with a view to investment and permanent location. If all is favorable to their way of thinking, they will be the proprietors of a large colony from central New York, all of whom will bring ample means with them to pay ready cash for all they buy. Mr. Skeels was East about 20 years ago, when he planned to those people the great advantages Oregon presented to men with money, and he believes that the colonists will be pleased with the country. He suggests that upon the arrival of the colonists from Syracuse, an association of 20 men will be formed to represent the interests of the colony and the course they may take.
