Florence Items.
The West, Dec. 7.
Mr. and Mrs. N. E. Herkrem, of the
life-saving station at Gardiner, came
up to our city last Saturday last, and
on Sunday started for Eugene, where
they go to consult physicians for Mrs.
Herkrem.
In the last issue of this paper men-
tion was made about Mrs. John Wisman
being prostrated by bleeding from the
nose. This was temporarily
checked, but commenced again Thurs-
day evening, Nov. 22, at 7 o'clock, and
continued until 1 o'clock the following
afternoon. From that time until
Thursday morning, December 6, 1894,
at 4:30 o'clock she gradually passed to
her final sleep. She died calmly and
peacefully without a struggle. Miss
Abbie Elizabeth Johnson was the eldest
daughter of Rev. J. Johnson, a
Methodist minister, and was born near
Bedford, Mass., on December 15, 1849.
Her father brought her to the West in
her early youth, and finally settled in
Watsonville, Santa Cruz county, Cali-
fornia, where she was married to John
S. Wisman on July 24, 1887. A few
years later Mr. and Mrs. Wisman came
to Oregon and settled on a farm ad-
joining Lake creek in the Siuslaw val-
ley, where they have almost contin-
uously resided until removing to Euge-
ne in August last past, and where she
died as before stated. The deceased
leaves a husband, two married
daughters, Mrs. Anna H. Taylor and
Mrs. Daisy D. Neely, and Cora, an
unmarried daughter, and two sons, Wil-
liam and Francis to mourn her loss.

Treasury Instead of Silver Notes.
A gentleman well posted in the
banking business writes us:
Eugene, Dec. 10, 1894.
TO THE EDITOR:—Referring to the
statement in your paper of today, that
"if the treasury should pay out silver
as it has a right to do, when the Wall
street capitalists present their silver
notes for payment, the run on the gold
reserve would cease at once."
Permit me to suggest that the treasury
does pay out silver—and silver
only—upon silver notes, whether pre-
sented by the "Wall street capitalists,"
or others.
The only notes issued by the govern-
ment payable specially in silver—are
simply warehouse receipts for silver
dollars, and the amount outstanding
of the former, represents at all times,
exactly the amount of the latter, held
in reserve by their redemption.
VISITOR.
We stand corrected. By an over-
sight of the proof reader the word
silver was substituted for treasury. But
the principle is the same. The treas-
ury department pays out gold exclu-
sively to the "Wall street capitalists,"
and the same principle is presented,
which it has the option in redeeming
with silver. The banks are eager for
interest bearing bonds, as witness a
subscription of over three times the
amount when \$50,000,000 in gold was
asked for. The treasury is no sooner
silled with gold than the process of
draining it out commences again, and
unless some change is made bond is-
sues will continue indefinitely. Pay
the notes presented with silver, and
this financial jugglery will cease at
once.

In Good Condition.—An exchange
boasts that the city of Florence, after
making many improvements was only
\$19 in debt. The Brownsville Times
makes this a very poor showing, com-
pared with that city. The Times
says: "The above is a very good
record we admit, but it sinks into utter
oblivion when compared to the record
made by the prosperous little city of
Brownsville. The streets have been
improved, no assessments have been
levied, the city does not owe a dollar
and has upwards of some \$600 out
on interest. Brownsville is all O. K."

Jeff by Odds.—The Dalles Chroni-
cle. The matter of selecting a state
flower is again being agitated. At
Hood river some two years ago the
state horticultural society selected the
Oregon grape as being peculiarly fitted
for this place of honor, but now some
of the estate want something else. If
it is absolutely necessary that the state
have a flower of its own, we suggest
that it stick by the Oregon grape, unless
Jeff Myers can be persuaded to
accept the position.

A WONDERFUL DIFFERENCE.
The following should make Oregonians
think they are in the paradise of low
taxes: Washington raises \$7 of state
taxes where Oregon raises \$1, and
Spokane county raises proportionately
\$40 where Multnomah county raises
\$1 of taxes for county purposes. At
first it would seem that this wide dif-
ference would be almost impossible in
states lying side by side, with resour-
ces almost identical. An intelligent
idea of this difference, however, can be
had from a study of the governments
and statutes of the two states. Geo. W.
Belt formerly district attorney of Al-
bany district said on the subject: "Our
taxes are something stupendous and
something must be done for relief.
All means for relief are being tried.
We can't stand the present condition
of affairs much longer. When taxes
get to be five per cent of the real value
of our property we will either have to
reduce them or leave the state."

THE NORMALS.—The Portland Sun
says: The normal school boys have
been doing some hard practicing lately,
and fully expect to down Eugene in
the last game of the season. From all
appearances this will be one of the
closest contests of the season and will
doubtless be largely attended, as Eu-
gene has developed into quite a foot-
ball community.
FOR VAGRANCY.—The trial of
Strood Pollock for vagrancy, is being
held at the city hall before Recorder
Dorris. City Attorney Skipworth ap-
pears for the city, while Bilyeu &
Young are attorneys for the defendant.
The case is being tried before the fol-
lowing jury: Ashley Stevens, A. S.
McClure, B. Claffey, A. K. McPherson,
Jack Morris and Chas. Davis. At the
time of going to press the examination
of witnesses was going on. A large
crowd is in attendance.

THE PEOPLE OF THE SOUTHERN END
of Benton county want the Long Tom
navigated by river steamers as far up
as Monroe, and are holding mass
meetings with a view to petitioning
congress for aid to clear out obstruc-
tions in the channel of the stream. It
is six miles from the mouth of the
stream to Monroe, and light draught
boats it is said have some times made
the trip. It is figured out that \$20,000
of the work plan would clear out
the channel so that it could be
navigated several months in the
year.

The team of the Drain normal
school will meet the second team of

promised lovers of the game.
NO GAME.
We learn that, owing to the fact that
the U. of O. first team did not make
expenses at their Thanksgiving game,
and feeling confident that another
game would result the same finan-
cially, the game with the Monmouth

BOARD OF TRADE.
A Meeting Will be Held Saturday to
Discuss an Important
Proposition.
The board was called to order by
President Wilkins Tuesday evening.
After reading of minutes by secre-
tary, and other preliminary business,
an invitation from the Manufacturers'
Association, E. P. Wilson, secretary,
was read, inviting this body to a
meeting to be held at Clatskanie, O.,
Jan. 22, 1895. The objects of this meet-
ing, as stated in the invitation, are to
discuss any and all plans for the fur-
therance of the manufacturers' inter-
ests, legislation, etc.
Mr. Stevens, representing the firm of
Baker & Hamilton, San Francisco,
made a proposition, showed plans, etc.,
for building and operating a butter and
cheese factory in Eugene. In view of
the benefits of such an industry a pub-
lic meeting is hereby called to meet at
the court house in this city on Satur-
day, Dec. 15, at 1 p. m., to discuss the
proposition. Farmers are especially
requested to be present.
A communication from Caldwell
Bros., Portland, was read in regard to
the outlook for the building and oper-
ating of a basket manufactory and
packing factory.
Richard Bowen and Jas. N. Randall
appeared before the board and asked
for a recommendation and guarantee
to assist them in procuring the lease
of a boat to ply on the upper Willam-
ette. As far as it lies in the power of
the board to do so, a recommendation
was ordered given them and the secre-
tary was ordered to write such docu-
ment.
After this business was transacted
general discussion was indulged in on
various subjects of interest. The board
is in a prosperous condition and are
daily receiving letters from business
men and home seekers.

Class in Economics.
Daily Guard, December 11.
The people who attend the weekly
meetings of the class in economics of
the Eugene Advancement Club are
among those who take the most inter-
est in all the leading questions of the
day. The study of finance, which the
class has taken up will be continued
for some time. The paper at the meet-
ing last night, on "The Currency of
our Government," by attorney E. O.
Potter, was well written and statisti-
cally of much value. It tended also
to show the confidence of the people
in the ability of the government to
pay by showing the larger amount of
paper money out as compared with
the gold reserve or redemption fund.
"The Currency of our National
Bank" was handled in a very able
manner by Hon. F. M. Wilkins. He
reviewed the history of national
banks, how they came to be organized,
the authority placed in them for the
issuance of bank currency and also
spoke of the advantages and disadvan-
tages of the system. After each
paper general discussion was indulged
in and helpful remarks were made by
H. B. Miller class teacher, Dr. C. H. Chap-
man, Prof. Condon, S. M. Yoran and
others. Next Monday evening a most
interesting meeting is looked for.
The subject to be discussed is, "What
Economic Law Regulates Value."
