DISCOMFORTS OF ACTING.

Eack of Accommodations In the Greenroom and Rebind the Scenes. The jamiter has an important bearing

on the actor's condition, which finds its on the actor's condition, which made its
expression is his playing and possibly
on his nervous organization. He supplies the house and in most cases furnishes quarters for the actors such as no self respecting slave owner would in the old days have condemned a slave to Brands and Labels of the Famous Jesse

For the public nothing is too good. For the actor, on the other hand, anything is good enough. Instead of silken draperies, he finds only a tattered curfain at the window, if indeed he find. The recent arrest in Seattle, Wash., of possess a son, the son was to receive the a curtain at all, or even a window. Aaron Jaffe by a United States internal fortune. J. Hooker Hamersley was then

The washing appliances of the actor's room, if they are found at all, usually consist of a small basin with a tap of running water. Most people would expect that, as the winter is the theatrical factor of pect that, as the winter is the theatrical case goods; therefore detection was easy. season and the paints used by the actors are made with grease, hot water would be at hand. But this is rarely the case, and in many instances running water in the dressing rooms is unknown. It is not uncommon for actors to refrain from using the basins, preferring to remove the "make the make t move the "makeup" as well as possible with vaseline and to wait until the hotel is reached to complete this portion I the toilet. Tin busins and buckets are not the worst that I have seen "on the single claim be was correct. road." for once the water was in dirty. battered, old lard tins, and basins had to be bought by our manager. - Forum.

turned aside from rectifude? What have I been doing? What have I left undone embark in an illicit and fraudulent manuwhich I ought to have done? Begin thus facture.

THE BUSINESS MAN'S LUNCH.

Hard Work and Indigestion go Hand in Hand.

also true of hard physical labor.

When a five horse-power engine is made to do ten horse-power work something is going to break. Very often the hard-worked man coming from the field or the office will bolt his food in a few minutes which will take hours to digest. Then too, many foods are about as useful in the stomach as a keg of nails would be in a fire under a boiler. The all used stomach refuses to do its work without the proper stimulus which it gets from the blood and nerves. The nerves are weak and "ready to break," because they do not get the nourishment they require from the blood, finally the ill-used brain is morbidly wide awake when the overworked man at-

awake when the overworked man at-tempts to find rest in bed.

awake when the overworked man attempts to find rest in bed.

The application of common sense in the treatment of the stomach and the whole system brings to the busy man the full enjoyment of life and healthy aligestion when he takes Dr. Pierce's Pleasant Pellets to relieve a bilious stomach or after a too hearty meal, and Dr. Pierce's Golden Medical Discovery to purify, enrich and vitalize the blood. The "Pellets" are tiny sugar-coated pills made of highly concentrated vegetable ingredients which relieve the stomach of all offending matters easily and thoroughly. They need only be taken for a short time to cure the biliousness, constipation and slothfulness, or torpor, of the liver: then the "Medical Discovery" should be taken in teaspoonful doses to increase the blood and entrich it. It has a peculiar effect upon the lining membranes of the stomach and bowels, toning up and strengthening them for all time. The whole system feels the effect of the pure blood coursing through the body and the nerves are vitalized and strengthened, not deadened, or put to skeep as the to-called celery compounds and nerve mixtures do—but refreshed and fed on the food they need for health. If you suffer from indigestion dyspepsia, nervousness, and any of the ills which come from impure talood need for health. If you small start greation, dayshepsia, nervousaness, and any of the ills which come from junpure blood and disordered stomach, you can cover powered, with Dr. Pierce's Golden Medical Discovery which can be obtained at any

They Are Posted by the Flock or Mard to

Guard Against Surprise. too eager sportsman is often balked of a shot by the watchful sentinel posted to guard the flock or the herd against surprise. Posting a sentry is the most universal of the instincts which use organization as a means of defense. Chamois, ibex and other mountain antelopes always post a sentinel. Always when a herd of seals is sleeping on the rocks there is a watcher. This instinct, The Speciator informs us, survives even in animal captivity.

kept a sentinel on duty, although he seldom uttered his warning whistle, having learned probably that the visit-ors would not come inside the railings.

The prairie dogs at the Jardin d'Accli-matisation of Paris observe the same ery autumn, the water reappearing in the matisation of Paris observe the same precaution." As is well known, wild a week before it goes dry. goose are particularly wary in this respect. Mr. St. John says that "they seem to act in so organized and cautious a manner when feeding or roosting as sis. to defy all danger. When a flock of out having a thin cord with a running wild geese has fixed on a field of newly sown grain to feed in, before alighting horse sugar they make numerous circling flights. and the least suspicious object prevents them from pitching.

"Supposing that all is right and they do alight, the whole flock for a space of a minute or two remain motionless, with erect head and neck, reconnoitering the country around. They now appear to have made up their mind that all is safe and are contented to leave elevated part of the field or walks slowly with the rest-never, however, venturing to pick up a single grain of corn, sus interest to people who visit the church. watching. The most curious part has to

call, as of a bugle; rabbits and sheep stamp on the ground; wild ducks utter a low and cautious quack; elephants whistle; ibex and mountain sheep whistle -Red and Gun.

HAVE YOU INDIGESTION?

Story of Some Alling Chickens.

"Troubled with indigestion, are you?" Feel all puffed up, ch? Well, it's a pity that some one couldn't treat you the way my brother in law's wife treated far her chickens. That was when they lived out in Lewistown, Pa."

herring in the grass and hunting shad with a dog and gun, ain't you?"

slighting remark the Jerseyman went

"My brother in law's wife had a fine crop of chickens that summer. They were all hatched that spring and were growing well when one day the whole flock got at a hag of dry cornmeal and filled their crops full of it. The first thing my brother-in-law's wife knew of this was when the meal began to swell and turn sour, and the whole troop of chickens were waddling around in handsomely equipped househoats, and with crops twice their regular size and It has been said that "poor things are never imitated," which is a truism that even Jesse Moore & Co. and Moore, Hunt & Co. may accept with some small degree of satisfaction, and the fact that the Jesse Moore whiskies have become immensely equipped nonscious and the boats are quite common in Florida water ters. One of the most ambitious house drummer in a German band. You see the chickens either had got at water to soon or else didn't have gravel Moore whiskies have become immensely enough in their crops to grind up the meal, and it wouldn't digest and seemed likely to burst them.

"There was no one by to give help o wasn't going to lose that lot of more but society, said one young woman. "No," than 100 fine chickens if she could help society belonged to him." it, so she started right in to do the best she could. The children caught the chickens and brought them to her, and with her buttonhole acissors she out a slit in each one of their creps. She squeezed out the cornmest, washed their crops out and sewed them up again. The chickens seemed grateful. They were kept quiet for a couple of with what the doctors called DIABETES, days, fed lightly, and every one of them recovered. "-New York Sun.

Long Farms In Maine.

Mains probably has many oddly shaped farms, but we doubt if one can be found more possibler in form than that in the east part of Dexter, formerly owned by the pioneer blacksmith Elijah W. Sprague. This was eight rods wide and a half mile long, with the highway outling it at right angles into unequal portions. The inconvenience of so narrow a farm, with posturage and woodland at one end, is obvious to any one, but in this form it has continued from the days of the forefathers to the present time, in use as a farm all the time. A farm only 30 rods wide and about half a mile long was in use a great many years near Farmington Falls and finy be so used yet for all the writers to the property of the foreign of the f unequal portions. The inconvenience of er knows, but the Dexter farm beats is by nearly two-thirds for narrowness and general oddity. Farms of this shape are numerous to Canada -Lewiston Journal.
