An Old Soldier's Recommendation.

In the late war I was a soldier in the First Maryland Volunteers, Company G. During my term of service I contracted chronic diarrhoea. Since then I have used a great amount of medicine, but when I found any that would give me relief it would injure my stomach, until Chamberlain's Colic, Cholera and Diarrhoea Remedy was brought to my notice. I used it and will say it is the only remedy that gave me relief and no bad results follow. I take pleasure in recommending this preparation to all of my old comrades, who, while giving their services to their country, contracted this dreadful disease as I did, from eating unwholesome and uncooked food. Yours truly, A. E. BENDING, Halsey Oregon. For sale by Osburn & DeLano.

Chamberlain's Cough Remedy is famous for its cures of bad colds. It opens the secretions, relieves the lungs and aids nature in restoring the system to a healthy condition. If freely used as soon as the cold has been contracted, and before it has become settled in the system, it greatly lessens the severity of the attack and has been cured in a single day what would have been a severe cold. TRIP DOWN TO HARRISBURG.

Daily Guard, January 10.

It was a happy party that met at the river bank this morning to accompany Major Post to Harrisburg on his way to Portland. The party consisted of Mayor S. H. Friendly, F. M. Wilkins, President of the Board of Trade, T. G. Hendricks, President of the First National Bank, Wm. Renshaw, wholesale and retail dealer in liquors, J. W. Kays of Linn & Kays, Morris Levenger, agricultural dealer, H. N. Cockerline, real estate dealer, and I. L. Campbell, editor of the GUARD, besides Captain Hatch and crew of the snag boat Corvallis. All had their breakfast excepting Mayor Friendly and he was furnished with an excellent meal on board of the boat. Wm. Renshaw had charge of the commissary stores and he dispensed with them in a liberal manner. The start was made at 8:10 o'clock and at 10 o'clock we tied up at the Harrisburg dock. One year ago we came down the river on the steamer Eugene at a ten foot stage, while today the water registered six feet. The river is greatly improved since last year and the channel is better defined and no difficulty whatever was encountered. The intelligent work done by Captain Hatch and his crew in keeping the channel clear of snags and drifts has certainly worked wonders. This is what is needed to give us a navigable river. Major Post is a most affable gentleman and will do all in his power to give us a navigable river. He is certainly the right person in the right place. What his report will be we cannot say, but we are satisfied he will make a favorable one. The delegation from Eugene desire to extend their hearty thanks to Major Post, Captain Hatch and his crew, and to the people of Harrisburg and especially to Mr. Sam May for courtesies received.

The party returned to Eugene on the afternoon local train in excellent humor and glad they took the trip.

MAJOR POST IS HERE.

With Representative Citizens He Will Go Down the River Tomorrow on the Snag Boat.

Daily Guard, January 9.

Mayor S. H. Friendly, President F. M. Wilkins, of the board of trade, and other prominent citizens met Major Post this afternoon at the local train and spent the afternoon with him, showing the gentleman over the city.

Several of our citizens will accompany the Major as far as Harrisburg tomorrow, coming back on the afternoon local. As is already known this personal inspection of the river is made by Major Post to enable him to determine more accurately the needs in improvement and aid him in making out his report. There are a few places between here and Harrisburg that our citizens wish to call his especial attention to, so that early efforts can be made to improve them. The snag boat will leave tomorrow morning at 8 o'clock with the party on board.

The Box and Basket Factory.

Daily Guard, January 9.

Mr. Dorcett arrived here on last night's overland train. The bond for deed and all necessary papers have already been sent to Tacoma for the company to sign, and will probably be returned in a few days. A special meeting of the council is called for tonight to meet Mr. Dorcett. He wishes to secure from them the right of way on Lincoln, Lawrence or some other street yet to be named for a switch from the factory yards to the S. P. line, and it is likely this will be about the final arrangements to be made.

The committee out today soliciting for the subsidy report that they are meeting with considerable encouragement.

Mr. Dorcett visited the site and expressed himself as well pleased with the same. He has also visited Marian's park and other points of interest today.

If our people realize what an impetus this will give our town no trouble will be experienced in raising the small subsidy. Hunt up the committee and put down your name for something.

A Narrow Escape.

Langley, the track-walker on the Southern Pacific railroad from this point to Walker's station, has had several close calls and exciting incidents, but one stormy night about a week ago he met with an accident on the long trestle near Judkins' point that was a little closer and came nearer proving disastrous than any of the others. He had started back on the last half of his run and was, when he had reached this point, running rather slow, as the rails were slippery and a heavy wind was blowing. When about 30 feet out on the trestle the wind blew the hind wheel of his velocipede off the track, on the outside of the rail, thus throwing him off the trestle backwards, with the machine to follow. As he fell he grabbed the rail with one hand and at the same time the handle of the machine caught one of his feet, thus leaving him partly across one rail and almost unable to help himself, with his red light out and the train due in a few moments. By almost superhuman effort he managed to extricate himself after a time and proceeded on his way to Eugene. By a fortunate chance the train was late that night or he might not have fared so fortunate. His is a task but few men would choose at all, and especially in the winter season.

The Dam in Good Shape.

Daily Guard, January 9.

Considerable interest has been taken by the owners of the water power here, during the recent high water, as to the effect it would have on the race and dam. With the exception of a small part at the upper end of the dam, it has stood the test well and is in fine shape. That part is now being repaired, so as to be as solid as the rest of the dam. Mr. Edris informs us that the race and dam both are now in better condition than they have ever been. This is most encouraging to them and the town as well, for every one seems to feel assured that it will not be long until some kind of a mill proposition will reach a material condition; and the good condition of the water power will now add a fresh impetus to it.

Daily Guard, January 9.

ADJUDGED INSANE.—Thomas Mulkey, an old pioneer, who resides a few miles north of Eugene, was examined this forenoon, before Medical Examiners, Drs. T. W. Harris and W. M. Kirkendall and adjudged insane. This is his first attack and the cause is given by the physicians as being cerebral embolism. He talks considerable about suicide. He has also suffered from rheumatism and heart disease. His age is 69 years. It is hoped by his many friends that he will speedily regain his mental faculties. Sheriff Johnson will take the unfortunate man to the asylum at Salem tomorrow morning.

It is rumored that Rev. O. B. Green, who disappeared from Lane county last summer, is preaching in California. He left a number of unpaid bills at different points, it is stated.

Monday's Roseburg Review: Hon. J. Hall, of Myrtle creek, was in town today. He says he has one carload of prunes yet to ship east. He will realize about 5 cents a pound net—far better than wheat, he thinks.

The following from the Roseburg Plaindealer is a very meaty item: "It is surprising how many people there are who want to buy the Oregon Pacific immediately after each and every sale."

Roseburg Review: A patent issued by the government to the O. & C. railroad company, embracing 227,049 acres of land in this district, was received at the land office in this city last week.

Ernest Bross, formerly a resident of Lane county, will represent the Portland Oregonian at the coming session of the legislature. He is peculiarly fitted for this important assignment and is a first-class writer. Besides he is a general favorite with the newspaper fraternity generally.

The girls in Cromwell, Iowa, have formed an organization, pledging themselves never to marry a man who is not intelligent, honest and industrious, good natured, cleanly in person and apparel, healthy, sober, a church member and a total abstainer from liquor, tobacco and profanity. What a crop of old maids there will be in that town, if the organization don't "bust."

About the best reputation any young man can get is that of paying his debts, living within his means, whatever they are. There is always an opening for such young men, men who will do their duty as quickly and well on a small salary as on a big one. They are the ones who "get there" in the long run.

James D. Fay had the misfortune to run his right hand between the cylinder of the new printing press at the Albuquerque Times office Tuesday night, and as a result of his indiscretion he has a badly lacerated hand which he now carries in a sling. Mr. Fay for a time attended the university here, and is the son of the one time well known politician and lawyer, Jim Fay.

Albany Democrat: Mr. and Mrs. Al F. Reid were formally united in marriage yesterday by Justice G. W. Harris. Mrs. Reid is a half-breed Indian, and as such recently came into possession of 80 acres of fine land and her child the same amount. In order for the child to hold the land it was necessary for a formal marriage, hence the ceremony. It is understood they will reside on their new farm.

MORE ABOUT NEBRASKA.

A G. A. R. Man Relates Plain Statements of Facts.

Daily Guard, January 10.

Mr. E. F. Chapman, a prominent G. A. R. man of this city, received a letter this morning from R. B. Lombard, commander of John A. Logan Post, No. 26, department of Nebraska, located at Grant, Perkins county, and it is a plain statement of the conditions existing there and is made without fear or favor.

He states that many of the land and loan and investment companies have tried to create false impressions about the existing conditions, and to represent that each county is able to keep itself. There object in doing so is to create an impression that the country is all right, and enable them to sell their lands. Nevertheless Mr. Lombard states that it is not so. He states that owing to the continued failure of crops, the people have been unable to pay taxes and merchants are now refusing to take county warrants, as they are worthless; and many are, also, on the point of bankruptcy.

Many would sell their stock if they could, but they cannot, and at the same time have no money to buy hay. Fortunately, he states, the winter so far has been rather mild, and has enabled the stock to remain on pasture, else it would have been bad beyond comparison.

Many families will have to get assistance until the returns from their next crop are in. Some papers have been stating that that the people are afflicted with scurvy, starving to death, etc. This, Mr. Lombard states, is not so, and that while they are in a bad fix, it has not come to that yet. The supplies that are being sent in are being distributed to the most needy as can be ascertained each time.

Several Nebraska newspapers, he says, are under the influence of the land companies and are making statements that they know are not so. From the tenor of his letter all the way through, it is very evident no mistake can be made in sending relief to these unfortunate people, who are the victims of misfortune that they cannot get around at present.

Nebraska Relief Meeting

Daily Guard, January 8.

TO THE PUBLIC.—An adjourned meeting was held at the court house Monday evening in Eugene, to take action looking towards sending relief to the drought-stricken section of Nebraska. Letters and telegrams from reliable sources, that had been received by our citizens in answer to inquiries sent were read, showing the destitution was greater than heretofore shown, and that aid would be needed in some twenty counties from now until a crop is again raised. The information given shows that the Central and Western portion of the state has raised no full crops of any kind since 1888, except about one-half of a crop in 1892; and that the official report of the State Relief Commission appointed by the governor shows 2205 families will have to receive aid and support until crops is again grown while others need aid to assist them through the winter besides a large number will require seed wheat and corn, or other seeds to again make a start. The state legislature, now in session, of that state has appointed a committee to take such action as lies in its power, but letters received shows that the condition of the state for so long a time under drought, is practicably unable to meet the requirements for such a length of time. The most destitution exists back on the prairies from railroads and streams of water, where no fuel exists. In most sections there are no subsistence for stock, except the wild grass and this has little or no nourishment. It most localities all stock has been disposed of, and nearly all the suffering people live in sod houses and have no means, otherwise than their land and must depend upon a charitable public for aid and support until they can grow another crop. The information presented is of that reliable character to warrant and enlist all to give what they can, in shape of wheat or flour, bacon, clothing for old or young, or anything in fact that would add to their comfort and sustain life. F. M. Wilkins, president of the board of trade, was selected chairman of the committee and will appoint additional members of the committee throughout the county to assist in securing aid. He is now ready to receive all offerings that a charitably disposed public feel like giving. County papers please copy.

Mr. Wheeler has relatives near here and formerly resided in Benton county. Under the present system it is impossible to tell who is pardoned except by outside means, and the Salem papers, though rustlers, miss some of them.

Dykeman, druggist, Catskill, N. Y., says that Dr. King's New Discovery is undoubtedly the best cough remedy; that he has used it in his family for eight years, and it has never failed to do all that is claimed for it. Why not try a remedy so long tried and tested? Trial bottles free at Henderson & Linn's drug store. Regular size 50c. and $1.00.

Creswell Casualties.

Everett Miller is getting along as well as could be expected. He was pretty thoroughly peppered with shot.

George Petty is not so well and it is feared that another abcess is forming.

There are about a thousand bushels of choice Burbank potatoes in this immediate vicinity, and farmers are beginning to feel them to stock, having no hope of selling them.

We notice with great alarm that there is a "wild cougar" roaming the plains of Pleasant Hill. Better kill it, and let only tame ones run at large.

Rev. C. H. Wallace is holding protracted meetings in Lynx Hollow.

The revival meetings at this place will likely close this week. Much good has been done and many converts made.

Rev. E. Gittens still suffers at times from the bruised shoulder where his horse kicked him last spring. It was a more serious matter than anyone thought at the time.

We learn from a private source that a Portland man who came to Creswell some time ago looking for a mercantile location, went away greatly disgusted with our town and our solid men, declaring that he wouldn't engage in business in such a place giving as his reason that "the men played marbles in the streets like boys." Oh, dear! What shall we do? We'll never get to be a city unless we become more dignified. An invoice of plug hats and walking sticks might help.

The subscription school began Monday, the 7th, by Miss Grousbeck. It started off with 29 pupils, which is a good showing these hard times.

Surely this part of Oregon has by far the best climate in the state. Cars from the north and south have passed here with from four to six inches of snow on top of them, while we have not had over an inch of snow altogether and stock have had access to grass all winter so far.

The Demorest medal contest which took place here last Saturday night was an affair not soon to be forgotten. There were eight contestants, Misses Lena Stockwell, Gertrude Grousbeck, Lillie Scott, Olive McDaniel and Anna Howe, and Messrs. Amherst Howe, Eugene Skinner and W. A. Teutsch. The judges were John Stone, C. F. Moore and S. B. Mores. The program included a duet by Misses Lillie Scott and Grace Hunter and a solo by Miss Hunter accompanied by R. F. Scott with guitar. The selections were so well rendered as to secure hearty applause even from those unable to endorse the sentiments. Miss Olive McDaniel was awarded the medal. Another contest will be arranged soon.

STILL IN SESSION. — The Everett land contest case from Cedar Flat which was started before Referee E. R. Skipworth last week, is being heard again today. The outcome will be awaited with interest by many around there. If this case is lost by Mr. Everett the probability is that several more claims in that section will meet the same fate.

SOLICITING COMMITTEE.—The committee that is out soliciting for the small subsidy for the box and basket factory are getting along very nicely, but, gentle reader, they probably won't be able to make up the entire amount until you hunt them up and subscribe something. Do you see the point?
