A FLOURING MILL.

The Commercial Review Make Some Sarcastic Remarks About Eugene.

We publish the following from the Portland Commercial Review, so our business men and citizens can be informed as to what is floating around the state concerning our city. Of course a considerable portion of the article is unjust and uncalled for. Here it is:

"Mr. J. E. Drucks, of Los Angeles, Cal., who has had an eye for some time in this state with a view of establishing a flouring mill, was in Eugene last week looking over the situation. We understand the intention is to establish a steam mill; he should be offered all the encouragement necessary and the mill secured by Eugene if in any way possible. But from present appearances unless the Eugene citizens bestir themselves and give some solid and substantial encouragement to some one miller to go and locate there, they will get a flour mill neither this year or the next. The regular announcements coming from that town spaced seven days apart saying 'So-and-so from So-so is here looking over the situation,' reminds us of a certain burglar who once accidentally struck his travels last summer where the entire population started for the store in the morning staying there till midnight in the hopes of 'something turning up.' This is just a bit exaggerated, but the principle more than fits Eugene. If the citizens of Eugene would assist Mr. Drucks, who lost his will when he built there, they would have a mill to be proud of in short order; he has been in business there-to-for, knows his business, the people and the country. What in the devil else do they want in their mill?"

A Good Measure.

Senators Dawson's bill to fix the time when taxes become delinquent provides that:

The sheriff shall make returns of collections to the county court on or before the first Monday of October next, ensuring the date of the warrant issued by that court, and that if in less than one-half of the respective sum of taxes so charged on said roll is not paid prior to the first Monday in April next succeeding the date of the warrant said one-half shall be deemed delinquent and if the remaining half is not paid prior to the first Monday in October following, it shall also be deemed delinquent, and there shall be charged, collected and turned over by the sheriff a forfeiture of 1 per cent per month on all portions of said taxes that have been allowed to become delinquent, from the date of such delinquency until the same are paid; and, provided further, that, before entering on the duties of collection of taxes, such execute an additional bond in such sum as the county court of the county may direct. That is, taxes may be paid in two half-year installments.

A Good Recommendation.

LA FAYETTE, Ind.—A Mrs. James Fay, living near this city, claims to have been cured by the use of Simons Liver Regulator, after five or six of the best physicians had pronounced the case hopeless.—Albert A. Wells. Your druggists sell it either in powder or liquid. The powder is to be taken day or made into a tea.

New Circuit Court Cases.

Chas Kolin & Co., vs Chas Hadley: Action to recover \$150.50 and interest on promissory note.

Chas Kolin & Co. vs Chas and Mary E. Hadley: action to recover \$502.81 on promissory note.

Alice Johnson vs Wm. H. Johnson, suit for divorce. The couple were married in Umatilla county, Aug. 23, 1878. They have one daughter aged 13 yrs. Civil and infant treatment and neglect to support it alleged. An absolute divorce is asked.

Homesteads.

I know of a few good Homesteads on the Siuslaw river. Will locate on them for \$5,000.00 to \$7,000.00 of first-class timber; be sides some fine bottom land on same.

Rev. J. E. Snyder returned from Cottage Grove this morning.

Miss Ella Smith of Coyote, is visiting relatives and friends in Eugene.

The Hoffman House bar will open this evening for business.

Rev. I. D. Driver opened the house yesterday at Salem with prayer.

Attorney E. R. Skipworth was in Junction City today on legal business.

Commissioners Perkins and Callison are in town in attendance upon court.

Mrs. Geo. M. Millican was a passenger to Salem on this morning's local train.

Dr. A. Sharples left this afternoon to spend a day or two at his orchard near Goshen.

Mrs. R. A. Washburn, of Springfield, was in Eugene today visiting with friends.

James E. Noland and family have removed to the Noland farm near Creswell.

Albert Mathews and Geo. Waters, of Kelo, Wash., are in Eugene for a few days.

The civil case announced to have a hearing in the justice court has not come to trial yet. The State Insurance Company is party to the suit.

The morning paper gives the news of yesterday. The evening paper gives the news of today. If this is true in the day of Horace Greeley it is true today.

Miss Kate Hanson of Cottage Grove, came down for a short visit with relatives this morning.

Judge Willis, of Roseburg, will know in Lane county, has retired from the practice of law.

Darwin Bristow was a passenger home to Cottage Grove from Salem, where he has been looking in on our hawknappers.

L. G. Brown, of this city, is at Salem taking an examination before the state local office, and will undoubtedly secure a license.

Lewis Moorhouse, who was accidentally shot by his brother near Natron, Jan. 20th, is improving nicely, and hopes are strongly entertained of his recovery.

Rabbit drives are the latest form of social enjoyment among the people of Lake county. Drives take place regularly every week, and a great number of the animals are slaughtered.

A letter from Rev. Bonnell, received this morning, states that his daughter is improving rapidly, and he expects to be here in time to see her, his pastor of the Christian church by the 17th lot.

The civil service commissioner will hold an examination for applicants for government positions at Roseburg, April 25, 1895. Anyone wishing to become a railway mail clerk or hold any other government clerkship should remember the date.

The books of the Benton county treasury were in the safe of the grocery store that burned Monday morning. When the safe was pried open the records were found only slightly scorched on the backs of the books.

Hillsboro item: Rev. I. D. Driver, D. D., closed a two weeks' meeting at the M. E. church last evening, which has been the means of quite a number of accessions to the church. At each meeting there has been a crowded house of attentive listeners.

A. B. Seal, the old time drummer, passed through here on this morning's local train bound for northern points. He will visit Eugene in about two weeks. He is now division manager for Schilling & Co., of San Francisco.

Chas. Wallace is expected here in about a month. He has removed from Rock Springs, Wyoming, to Reno, Nevada, and while at the former place settling up his business became snow-bound, but expects to get through soon.

The house calendar has now been manipulated of interested parties is padded to eight pages and contains a clear grab of the state treasury of from three to four thousand dollars. The grabbing and stealing of the last legislature is being depicted in this matter and should be stopped.

A petition is said to be in circulation asking the legislature to reduce the salary of the county judge of Benton county to \$600 per annum. It is now \$900.

New York Sun: Probably the largest kitchen in the world is in the great Parisian stores, and contains employed 600 cooks and 100 assistants at the ranges. For omelets, 7800 eggs are used at once; 225 pounds of potatoes are baked in each dish; each roasted pan cooks 300 omelets; the largest kitchen of a capacity of 500 quarts in this great store 4000 employees are fed daily.

The engineers and firemen from one end of the S. P. system to the other are awaiting the decision of the grievance committee now conferring with railroad officials in San Francisco. All expect some definite news tomorrow or next day, and if a satisfactory settlement has not been reached, there will probably be one of the biggest strikes on record.

Tuesday's Salem Post: Alley always has the first shot, and he always throws good cheer into the hearts of the anti-Dolph men, by announcing in no uncertain tones, that he votes for Binger Hermann. Alley wanted to preface his vote this morning, with the Oregonian, but he had understood a telegram purporting to have come from Binger Hermann to him. Up to date he had neither seen nor heard of it, and as the story has come to him, the Oregonian message in it have been a fake, and designed to misrepresent.

He had, however, answered to inquiries, which read, "You know my sentiments, and can speak for me. Any promises made will be fulfilled." This was the only message he had received and for the eleventh time Alley was registered on the tally sheet as in favor of Hermann.

RAINFALL AT EUGENE.

The Record Kept by Prof. McVetter at the University and for three Years Before.

Through the kindness of Professor S. E. McVetter of the University of Oregon, who has charge of the government instruments at the university for the observation of the weather, we are today enabled to give the total number of inches of rainfall at this place since Oct., 1890. He also gives the means of three years at one month's observations taken from Sept. 1877, to Sept. 1890. Who the observer was at that time he has not been able to learn. The last column of figures gives the means of the 3-years observations mentioned:

Month	1880	1891	1892	1893	204	1891
January	4.69	3.58	2.47	7.23	6.87	8.74
February	3.97	1.71	4.41	3.00	5.23	5.72
March	2.06	2.25	3.85	2.85	3.02	3.57
April	2.31	3.25	4.80	2.14	2.27	2.64
May	3.00	6.79	2.07	1.11	1.11	2.24
June	3.66	3.00	3.00	2.00	2.00	2.00
July	0.18	0.08	0.01	0.01	0.04	0.04
August	0.20	0.00	0.00	0.00	0.00	0.00
September	1.18	3.83	2.41	4.54	4.36	2.97
October	0.23	4.31	4.10	7.36	1.77	2.26
Nov.	0.23	4.31	4.10	7.36	1.77	2.26
Dec.	2.76	10.28	7.59	8. E. McVetter.	4.11	4.11

The rainfall in this section has very seldom been published of late, but we shall endeavor to do so in the future. In view of the fact that in some counties in California the rainfall for a single month has been given at over 50 inches, or about four and one-half feet of solid water, we do not justly deserve the name of being such a rainy country as it has always been given credit for. While there has never been a drought here, yet by a perusal of these figures one can see that in no month can the rainfall be said to have been excessive.

REPORT IN EUGENE.

"Hoofed It" Across the Continent—is on His Way Around the World.

Daily Guard, February 7.

Julius Bappert, New York Tribune's correspondent, about around the world, reached Eugene at 6:25 o'clock last evening, registering at the Southern Pacific station.

Rappert is enthusiastic in his praise of the valley of the Willamette, asserting that it is all his journey from New York to Halifax and across the continent he has seen such country as this. Immigration literature he says while widely distributed throughout the East falls lamentably to portray the country as it is and the advantages to accrue from a residence within its boundaries.

Rappert's itinerary hence includes a visit to each and every telegraph station along the main line from Eugene to San Francisco. At that point he will ship probably as a deck hand on one of the Pacific Mail steamers to Hong Kong, China. Arriving in the Celestial Kingdom Rappert will again review his journey on foot, clear to Okessa, Russia, on the Mediterranean; thence to Gibraltar where steamer will be taken to Havre, France. There Rappert will begin a journey on foot to Calais, via Paris. At Calais vessel will be taken to Dover, England, and the journey thence to Liverpool on foot commenced. At Liverpool the first American built and named western steamer liner will be taken for New York.

The traveler has until July 4, 1896 in which to complete his journey and says if not forced to join the Chinese army, he beholds as a spy or arrested as a nihilist he will be home on time.

Rappert is the first man to undertake the novel if laborious task he has shouldered and has already won economies by breaking all records across the continent on foot. He still carries, carefully sewed in a purse, the specially milled ten cent piece hoarded him as his capital stock when he began his journey. He is allowed to accept nothing whatever and to ask no assistance. What he eats, drinks and wears and the requisite shelter, he obtains by virtue of services rendered for the same, for which he asks a voucher which is duly forwarded to New York. Here is a sample.

IMMIGRATION LOOKED FOR.

The Oregon Fever Has Struck Many Eastern People.

Daily Guard, February 7.

Messrs. P. Adrianson and G. H. Auldred and son of Alton, Iowa, who have been in this vicinity for some time looking over the country with a view to locating themselves, together with some thirty or forty of their neighbors, left for their home on this morning local, going via the O. R. & N. and the Union Pacific.

The gentlemen after visiting several parts of the state and looking over the field thoroughly, have expressed themselves as much better pleased with the country surrounding Eugene than any other section they visited. They have showed good judgment locked by hard common sense in expressing themselves thus, as anyone will admit, and it will be clearly shown in a few years hence.

They have been looking over the Meek farm with a view to the purchase of about 1,000 acres, paying from \$20 to \$25 per acre for the same. It is their intention to return here in the fall, and they will likely complete all arrangements for locating here by that time.

The gentlemen further state that through Iowa, Kansas and Nebraska the "Oregon fever" has a firm hold on the people and that a large immigration to this country from that section in the next few years. Oregon will be a prosperous country surely as soon as her rural sections are developed and to this end let us all work.

Trent Items.

There is some talk of resending the school house. Mr. Samuel Bristow has taken the matter in hand, so we might depend on Samuel pushing the "thing" through ere the spring term of school is commenced.

Prof. E. R. Parker, of Dexter will teach the school at Trent. The directors have been fortunate enough to secure good teachers of late, and we are assured that Prof. Parker is the right educator for Trent people as he has taught in various places in the county and we have yet to hear of any complaint against him.

Wm. Miller will teach the spring term of school at Cloverdale.

Quite a number of people from Trent attended the dance Friday night at J. K. McKinley's.

A. J. Titus has made considerable improvement on his farm in the way of shingling.

Al Park, of the Dexter Mill Co., is making regular trips to Eugene with flour. Their flour has been pronounced first class by the bakeries.

Thomas Hollow is doing some fencing on the Dunn farm contracted for by Frank Dunn of Eugene.

We have been informed that the citizens of Dexter will give a free exhibition at that place the 22 of this month.

It seems as if there is a chicken pest around the cook stores of this vicinity. Set your trap and your are likely to catch the vermin in the shape of old Adam.

Henry James went to his mountain ranch today, only moving a portion of his household goods.

J. Wheeler and wife were visiting at Lester Wheeler's in Last Valley last Sunday.

Mrs. Ora Gartin has been seriously ill for some time. She is now slowly improving.

WOOD WANTED.

Blak for furnishing the Eugene Water Co. 200 cords of Body Red or Yellow Fir Wood, on or before Sept. 1st, 1895, will be received until February 15th, 1895. The company reserves the right to reject any or all bids.

Information and forms for bids can be procured of Superintendent, J. F. ROBINSON.

Notice to Hop Growers.

Be sure and see F. E. Dunn before you contract for burlap or you will pay too much. It will be cheap.

TO LOAN.—Money to loan on improved farm property.

SHEAWEW BERR, Eugene, Or.

POTATOES WANTED.—Ax Billy is buying Barank potatoes. Call and see him.

Teachers' Examination.

Notice is hereby given that the next quarterly examination for teachers' certificates will be held at the court house in Eugene commencing at one o'clock, Wednesday, Feb. 13th, 1895. Teachers entitled to state certificates or diplomas will please apply at that time. J. G. STEVENSON, Co. Supt.

\$100 Reward, \$100

The reader of this paper will be pleased to learn that there is at least one disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure known to the medical faculty. Catarrh being a constitutional disease, requires constitutional treatment. Hall's Catarrh Cure is taken internally, acts directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution, and sending nature to do its work. The proprietor has much faith in his curative powers that they will cure the Harsh Catarrh of any case that it falls under. Send for full of testimonials.

Marvelous Results.

From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were always marvelous in the case of my wife. While I was pastor of the Baptist church at Rives Junction she was brought down with pneumonia succeeding a grippe. Terrible paroxysms of coughing would last for hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at Henderson & Linn's drug store. Regular size 50c and \$1.00.

REBARKS AT HOME.

The Rebarkas of this city will be at home to all their friends at their hall, I. O. O. F. building Saturday evening. To be invited to accept the hospitality of this order is indeed a treat and this will be the social success of the season.

ON GOOD TERMS.—The Portland Sun, in writing about the coolness of Senator Dolph has this: "Representative Moorhead, who has so heroically battled for the senator's cause, was greeted by Dolph with 'Hello there, Moorhead,' and actually shook hands with him. Two or three others were recognized with smiles, but the senator hadn't time to shake hands with anyone else."

FASHION AND FABRIC.—S. H. Friendly has shown a commendable enterprise in offering a fashion magazine FREE to the ladies of this section. The popularity of his store caused by the excellent selection of goods and reasonable prices enables him to do this. Read his coupon ad in this issue. He is the only merchant making such an offer.

VERY USEFUL.—Geo. F. Craw this morning received a Smith Premier type writer for the Eugene Abstract Company, with special characters put in for abstract writing. This is a handsomely made machine and will prove as useful as to be indispensable in this work.

You Don't Have to Swear Off

says the St. Louis Journal of Agriculture in an editorial about No-To-Bac the famous tobacco habit cure. "We know of many cases cured by No-To-Bac, one prominent St. Louis architect, smoked and chewed for twenty years; two boxes cured him so that even the smell of tobacco makes him sick." No-To-Bac sold and guaranteed by OSBURN & DELANO. No cure no pay. Book free. Sterling Remedy Co., New York or Chicago.
