

INDIANS ARE CITIZENS.

One of the most important decisions ever rendered in the Oregon courts was that in the circuit court of Umatilla county Saturday when Judge James A. Fee declared the Indians citizens of the United States.

Washington Post: "I take it that the silver question will be one of the chief issues in your country in the next national election," said Sir Charles Hunt, of England, to a reporter at the Arlington.

"I have studied the money question in India, in Europe, and in America, and though I haven't the slightest interest in silver as a producer or owner, I believe that its demonization has been the cause of the great depression that exists in trade in every civilized country today.

The Portland wall about high taxes and paying an undue amount is without any justice or reason. The improved property of Portland is not assessed at over one-third of its value, or income producing capabilities, in ordinary times, or at present, while the desirable farming lands of the state are assessed at three quarters of actual worth.

ST. JOHN'S, N. F., March 13.—Governor Sir Terrance O'Brien has received complete returns from all available sources in regard to the suffering in St. John's as a result of the typhoid fever epidemic.

PARKS' SURE CURE IS A POSITIVE SPECIFIC in all diseases of the Liver and Kidneys. By removing the uric acid in the blood it cures Rheumatism, Gout, Sciatica, etc.

THE DETRACTORS OF SILVER announce the silver dollar as dishonest. But none of them will attempt to explain why silver commanded three per cent. premium over gold, when by a conspiracy it was demonetized in 1873, and then began to decline in value throughout the world.

THE SOUTHERN STATES set a splendid example in reference to indebtedness. The people there owe very little compared to northern people; particularly in mortgage indebtedness.

After reading all the exchanges, one cannot but be of the opinion that Senator McBride is a gold bug silver fanatic bimetallic monometallicist.

Of course, Mrs. Chard of New Jersey, who is now in her 107th year, is a "great smoker." Tobacco is the king of germ killers and fell disease, that made havoc among her relations, fled from her conquering pipe.

Another illustration of the ability of newspaper men to do the proper thing at the proper time was afforded by the correspondents at Washington in greeting the adjournment of congress by singing, "Praise God from whom all blessings flow."

Dr. Talmage recently concluded prayer in this language: "We thank thee that the congress of this nation has departed; that many of those who represented the people in public office will no more represent them. We pray that you will forgive them for the damage they have done this nation."

A contemporary explains the difference between a journalist and a newspaper man by saying a journalist is somebody who keeps a journal, while a newspaper man is a person who writes for a newspaper. There is a saying in the trade that a newspaper man is a person who can sharpen his pencil with a pair of scissors, while a journalist has to have his pencils sharpened for him.

SAYS AN EXCHANGER: Clara Louise Kellogg, whose sweet voice once charmed two continents, is living in New York in comparative poverty. Once she was worth nearly \$1,000,000, but it has all been swept away by unfortunate business ventures.

Senators Jones, Teller and Daniel, and Congressman Crisp, Hill and Culberson form the American commissioners appointed by congress to attend the proposed international monetary conference which is expected to be called ere long to consider the silver question.

"I have studied the money question in India, in Europe, and in America, and though I haven't the slightest interest in silver as a producer or owner, I believe that its demonization has been the cause of the great depression that exists in trade in every civilized country today.

WASHINGTON, March 13.—Secretary Smith has rendered a decision in the case of the East Chance Mining Company vs. the Tyler Mining Company, being a claim made by the former for the Tyler lode in the Coeur d'Alenes, Idaho.

NO TROUBLE IN EUROPE. The Indians intend any disturbance, they are contending their plans with diabolical cunning, and are consummate actors, for so far they appear as innocent of any violent tendencies as the bands of cattle and horses they herd on the luxuriant ranges of their reservation.

ST. JOHN'S, N. F., March 13.—Governor Sir Terrance O'Brien has received complete returns from all available sources in regard to the suffering in St. John's as a result of the typhoid fever epidemic.

AN ACCIDENT.—About three o'clock last night four of the wooden cogs in the water wheel that runs the electric arc light broke off. The wheel was shut down at once and no further damage resulted.

A COOS BAY DISPATCH of the 12th says: "The Arctica sailed today with Captain Brown on board and his log boat in tow. He wanted to be towed to sea in his boat, but Captain Cousins would not do that, so the rigging was taken off and the boat will arrive in San Francisco behind the Arctica."

PARKS' TEA clears the complexion Mrs. N. Meyette, of La Roy, N. Y., says: "I have used Parks' Tea and find it the best remedy I have ever tried." Sold by A. YERGENSON.

There is a half a mile of road between the line of Cogswell or Highland place and R. Easton to the Hendricks line which is a model piece of road and it did not cost the county or taxpayers a cent, for the whole expense was borne by the supervisor.

ONLY ONE NIGHTWATCH.—Albany Democrat: Albany has only one nightwatch, Mr. Hale, who is also engineer. The city marshal is also engineer. This will leave the outside districts without anyone. Being unable to elect anyone it was suggested at the meeting of the council last night that the office be dispensed with.

A SMALL SUM.—The amount of the check sent Governor Lord for the maintenance of soldier inmates of the soldier's home \$23.53, seems quite a small stipend. This is at the rate of \$100 per year and is allowances made from December 4, 1894 to December 31, 1894.

DR. McINTURFF AGAIN.—Spokane Chronicle: There was quite an excited and animated crowd around the spur landing to the Washington Mill and Lumber Company's establishment yesterday.
