SATURDAY, MARCH 21.

Goshen Items.

Jack Eaton, of Creswell, started from Goshen Tuesday, for Kent, Sherman county, Oregon.

J. C. Wilson received yesterday from New York, a cream separator which he had ordered some time ago.

A. J. Keeney is spending a few days visiting relatives and friends in the vicinity of Creswell.

Johnny Green spent last night in this section. He is on his way to Creswell to see his friend Jim Nolan, to whom he looks with hopes of a job.

Beu Eby is quite seriously ill at E. W. Dillard's, with inflammatory rheumatism. He is indeed in a critical condition, being unable to help himself in the least.

Mrs. Edmanson is spending a few days on her farm.

Our hop growers have been busy in their yards plowing, planting, etc. There are about 60 acres in hops in this precinct.

Our school board has elected its third teacher for the spring term of school. On the 11th of March Miss Jennie Taylor was re-employed, but she soon informed the directors that her certificate would expire immediately and she therefore would have to decline.

On the 15th another board meeting was called and Miss Dell Brunley was chosen teacher within a half hour after her application was received, but the next day she reported having already secured a school elsewhere and thus a third meeting was occasioned on the 18th, which resulted in the election of Miss Laura Brunley.

Hampton Bros. have now purchased about 1,500 head of cattle in the valley during the winter for themselves and others.

Several persons have had cows poisoned by eating larkspur which they get in the river bottoms.

FEATHERWEIGHT.

An Expedition.

ELMIRA, Or., March 19, 1895.

TO THE GUARD: I wish to correct a statement that appeared in the Register some time ago relative to the difficulty between Sam Trauer and his wife, who formerly resided a mile northwest of Junction City. He said his wife tried to poison him by putting strychnine on the meat. His wife denies it and, furthermore, says she had no knowledge of there being any poison in the house, and if there was any on the meat he put it on himself to deceive the public.

The reason she left, was he had told her if she was not out by Sunday morning, the 10th of February, he would put her clothes out and kick her out, so she thought she would save him the trouble by leaving for home the day before. She left during his absence so she could take her two small children with her, as she did not want to leave them with him to starve and abuse.

His brother, Fred Trauer, helped her to get away. He was kind enough to go to Junction and engage a livery team owned by the constable and get a man to bring her to her parents near Elmira. She paid the man for bringing her to Elmira.

All her neighbors who knew her sympathize with her and take her part; and think that the step she has taken in leaving him is for the best. He had no moral principle about him, would not provide for her, and tried, in all ways possible, to heap abuse upon her. I want the people to know the truth instead of such an erroneous statement. Generally the innocent must suffer and it has been so in this case.

J. F. Holbrook is busy constructing a new dwelling on his place.

Miss Mary Cox, of Fall Creek, visited friends here a couple of days the first of the week.

For a couple of weeks this school district has been distracted by discussion pro and con as to the advisability of dividing the same and forming a new district in the lower end. Every subterfuge has been made use of to gain advantage. When Saturday morning the upper portion thought they had secured a majority Mrs. Nell Miller presented them with a handsome young voter but the lower county was not to be outdone and the same day Mrs. E. R. Parker presented them with a young man who at once raised his voice in favor of secession and school privileges to all. Who'll score best?

Marvelous Results.

From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist church at Rives Junction she was brought down with pneumonia succeeding in grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results. Trial bottles free at Henderson & Libby's drug stores."

Bids for Wood.

The board of directors of school district No. 4, Lane county, Oregon, will receive bids until April 10, 1895, for fifty (50) cords good body red fir and fifty (50) cords second growth white oak wood, to be delivered at the school houses in Eugene, on or before August 1, 1895; oak to be not less than three (3) inches in diameter. A good and sufficient bond will be required for the faithful performance of the contract. Right reserved to reject any or all bids. By order of the board.

At this time the question of taxes of Susan Lowell on lots in Fairmount was considered as follows: On the 10th of March, 1895, the tax on the lot owned by E. D. Lowell, her agent, and represents certain lands included in the assessment of Geo. M. Miller for the year 1895 are held by Susan Lowell by mortgage and said Susan Lowell requests and petitions that an order be made allowing the segregation of said lands so that the tax on said mortgaged land for the year 1895 may be paid; it is therefore ordered by the court that Sheriff A.
