A. W. and W. L. Wallace moved down to Creswell Tuesday where they have leased a piece of clay land on the S. O. Martin place for ten years for the purpose of manufacturing tile. They will move their machinery down as soon as possible and hope to get to making tile in June. They will erect a large shed under which to dry the tile, and before winter will build a shed 50 feet square over the machinery. Several carloads of tile are used here every season and the farmers are only beginning to tile, so the making of tile in the neighborhood will keep the money at home and save a large sum of freight money to the farmers. We understand the freight on six inch tile amounts to nine dollars per thousand from the nearest factory. That would get another thousand tile for every thousand bought.
