If the New York criminal who wants to be tried in this county, Oregon, could get a change of venue to Judge Miller's court in Crescent, he would get a just trial in short order and that without any expense to the county if possible. Judge Miller has turned something like \$50 to the school fund and without making the county any cost whatever for trying cases. Too many of our justice courts are expensive fixtures.

Crescent Sunday school elected the following delegates to attend the county Sunday school convention at Eugene, May 1st and 2nd: Anna B. W. Linn, Scott, Henry Parsons and Albert Telford, regular delegates and W. A. Linn, F. A. Linn and S. M. Morse alternate.

Reciprocity With Hawaii

WASHINGTON, April 24.—Reciprocity between the United States and Hawaii to shipping regulations has recently been brought about by the action of the treasury department in giving Hawaiian merchant vessels the same advantages enjoyed by American ships. The Hawaiian government has already placed the United States ships on the same terms as its own flagging, the Hawaiian cargo duties being very low, and the Hawaiian ports are being very satisfactory to shippers of both countries.

Thomas Hoies has sold his place and acre crop for three town lots some where near Portland. The trade was made with a man by the name of Carson who lives near Cloverdale.

We have said heretofore that we expected to defend Trent and her people when imposed upon by any writer. The correspondent from Pleasant Hill stated in last week's issue that a couple of young people (boy and girl) were traveling the road, the young man building the lady in the cart. He alluded to one couple from Trent. We do not deny the charge, for it was plain as a case. But we will enter a plea of apology for the young man. He says the road was very rough, the cart seat narrow, the lady weakly only weighing 150 pounds, and he was the first time he had ever rode with a girl in a cart. We will excuse him.

The truth about the "Spontaneous Couple" mentioned in last week's Guard did not give them away as to where they lived, but some guessing innocent persons of this place and elsewhere, said that the couple had taken pains to be pretty noisy on the matter, which is the people to know that Pleasant Hill does not get on such things on the public highways, until they have had the "square" at home. Honest says this story is all right any way. These parties belong to Trent, Oregon.

LARGE POPULATION.—Assessor Burton and his deputies have completed the assessments and census of Natron, Hill, Creek and Pleasant Hill precincts. In these precincts the average population was 21 to every square mile. Figuring on this basis there will be between five and six thousand inhabitants in the county, which at an average of 31 will make the population between eighteen and twenty thousand. He has not consulted with Attorney General Edleman in the matter and does not know how he stands on the question.

He is liable to be in this neighborhood. Better polish up your guns and go out for him. If you catch him you are rich.
