AN EXPLANATION. ELMIRA, Or., March 19, 1895. TO THE GUARD: I wish to correct a statement that appeared in the Register some time ago relative to the difficulty between Sam Tracer and his wife, who formerly resided a mile northwest of Junction City. He said his wife tried to poisen him by putting sirychnine on the meat. His wife des it and, furthermore, says she had no knowledge of there being any poison in the house, and if there was any on the meat he put it on himself to de-

ceive the public. . The reason she left was, he had told her if she was not out by Sunday morning, the 10th of February, he would put her clothes out and kick her out, so she thought she would save

ing her to Elmira. and think that the step she has taken in leaving him is for the best. He had ways possible, to heap abuse upon her. I want the people to know the truth instead of such an erroneous falsehood. Generally the innocent must suffer
