A correspondent living on the northern boundary of the county writes: The order from the Lane county court to widen the road from the Linn county line to Coburg seems to be somewhat slow in going into effect, as nothing has been done to the road yet. The harbor committee of this city held a meeting this afternoon and accepted the statistical report presented and it was decided that all the members of the committee would attend the meeting at Newport Saturday.

Hon Jasper Wilkins, of Coburg, has recently purchased some new apparatus for cheese making and begun making cheese on a more extensive scale than he has in former years. He makes an excellent quality and has heretofore found a ready market for it. Henry Blackman, collector of internal revenue for Oregon and Washington, has been called down very hard by the treasury department and it is understood if he does not heed the instructions of the department he will lose his official head. The principal charge against him seems to be that he has appointed his wife to a position where she draws a princely salary, but performs no services. Albert Wallace turned his big yellow horse in the yard to get some grass Wednesday and these being an old well there with some rotten boards over it, the horse soon found his way to the bottom of it. Luckily there was no water in it, being partially filled up. Help was called and a slug of rope passed around him and an attempt made to hoist him out with a team by a pulley in a tree overhead. This failing, a windlass was rigged up and the horse brought out safe and able to eat and drink.
