# OREGON SHORT

Receivership Contest.

If the Conditions Are Met, the Receiver Will Be Egan, Who Was Appointed by Gilbert.

St. Paul, May 17 .- Judge Sanborn, of the United States circuit court, handed down his decision in the receivership contest between the Union Pacific and Oregon Short Line railfor the petitioners for the appointment of a separate receiver for the Short Line, If the conditions are met, it is conceded that the receiver will be John M. Egan, who has already been appointed by Judge Gilbert, at Portland.

The matter came up ten days ago, the American Loan & Trust Company, of Boston, holders of the second mortgage of \$10,873,000, moving for a separate receivership. The Union Pacific receivership opposed the motion. The action proposed here is the sime as had already been taken in Judge Gilbert's court, as applied to the property in his

circuit. Under Judge Sanborn's order the receivers are directed to prepare a statement of money in their hands applicable to paying interest on the first mortgage of the Oregon Short Line. The order further provides for a hearing, at which will be determined the amount which will be necessary to pay into court to satisfy the interest of the first mortgage, and in case such an amount is paid, to arrange for turning the property over to the receiger appointed under this last bill of the second mortgage holders. The petitioner agreed to ceivership be granted, so that the separate receivership seems assured. As J. M. Egan has been appointed for a part of the road by Judge Gilbert, and as his appointment is desired by peti-tioners, he seems assured of the appointment as the receiver for the entire Oregon Short Line.

#### CO-OPERATIVE SCHEME.

O The New National Association Has Reen Given Life

San Francisco, May 17. - Articles of incorporation have been filed by the Co-operative Commonwealth, a operative association with the following directors: Mary E. Squires, George W. Sells, E. J. Hicks, Miss A. Swain room of the old St. Marcus church, to present the plans of the commonwealth.

The co - operative commonwealth was first organized in Scattle, Wash. It his attorneys secured a new trial, and British government positively refuses was first organized in Seattle, Wash. It his attorneys secured a new trial, and British government positively refuses is non-sectarian and draws no color he was discharged. King has been a to enact the regulations of last year. San Francisco, May 16.—The employ showed that the men's lives had pound; pickled hams, 8½c; boneless line. In an interview yesterday with pickpocket for thirty years. Miss Addie Swain, the secretary of the local branch, she explained that the main feature of the plan for co-operation is the reserve or development fund. This was her argument:

"On a basis of 500,000 men, 10 cents days, accumulates the marvelous sum of \$7,500,000, and in a year \$15,000,a national body, and has at its company will not employ them. How are the same advance to remains inegat, it is realized it will be road in the country. The Southern borie, who also snipped on the Maggie Pacific Company will not employ them. Ross, was met on a trestle, and his mand 500,000 men and \$15,000,000 of to stand at the present time. Today if arms can be freely carried. Scalers It is no asse, they claim, for them to so, bundle of clothes and bedding and hat 000. The society is now organized as capital. It can immediately set all of its members at work in its own employ. The savings of the people, now in the banks, amount to about \$3,000,000,000. This could be placed in the co-operative savings banks and a percentage used to establish new industries instead of being loaned at enormons rates of interest to serve as dragnets to gather in the land and its products for the benefit of a few commercial fishermen.

"This reserve fund could be invested in purchasing or constructing railroads to free the commonwealth from transportation companies.

For instance, with this reserve fund of, say \$15,000,000, a railroad could be constructed from Portland to San Francisco with branches to Stockton, San Jose, Los Angeles, Fresno, and all other important points on the coast, and the surplus could be replaced while Work of the Lick Trust Nearly Ended. Paris arbitration, and it would not be the work of construction was going on. Thousands of acres of mineral land could be developed and thousands of men employed who are now idle."

Mayor Sutro has promised to donate 200 acres of land in Round valley to the commonwealth. The Spring Valley Water Company gives water free to the community.

Famous I craita Crant Case Among Those to Come Up.

Santa Fe, N. M., May 17.-The United States court of private land claims has convened here for a sixty days' trial. Chief Justice J. R. Reed. of Iowa, presides, and a full bench is present. A very large docket has been arranged, and among the cases is the famous Peralta grant, in Arizona and Southwest New Mexico, which will come to trial in June.

This claim has been hanging over the best part of Arizona for thirty-five years. It has delayed settlement and development because of clouded title. United States Atorney M. G. Revnolds says he is prepared not only to defeat the right of the present claimants to the alleged grant, but to go even further and challenge the existence of such grant to the alleged Baron Peralta. In other words, the government investigation just concluded by Mr. Reynolds discloses that the claim to the property valued at \$75,000,000, and growing in value rapidly, rests upon nothing but a stupendous foundation of fraud. Mr. Reynolds believes that the government will be able to do more than this, as he has collected evi- this morning sentenced "Kid" Thomp- cocked, and compelled him to sign a maian Minister De Leon is ditsributing 4,000 today, and that 1,500 are exdence which will show the parties responsible for the manufacture of the bery, to be hanged. LITTLE ACCURATE NEWS.

Almost Impossible to Send Out Facts About Cuba's Revolution.

New York, May 17 .- A special to the World from Santiago, Cuba, says: Investigating Turkish Out-It is almost impossible to get accurate news of the revolution to the United States. Information sent by mail

From news brought by men directly from interior provinces, it appears that Decision Handed Down in the all the eastern end of the island, with the exception of garrisoned towns, is at the mercy of bands of insurgents. They are prowling about within six miles of the city of Santiago and the Spanish VICTORY FOR THE PETITIONERS soldiers are afraid of them. The village of Cainey, only five miles from here, has been attacked by a band of rebels under the leadership of Victoriano Garcoono. The inhabitants fled

in terror. The government troops are now in close pursuit of Maceo, who is continually obliged to change his headquar-He has just camped on a coffee ters. plantation in the mountains between here and Guantanamo. He managed ways today. It is practically a victory to hold a conversation there with his first lieuwenant and the representatives of nearly 3,000 armed followers. He assigned them to duty at different parts of the province, but retained 2,-000 men to act under his own direction. Recruits are coming in faster than he can provide arms for them.

Maceo threatens to burn the towns of San Luis, Songola and Christo, because the Spaniards are using them as the base of supplies. He seems to be conducting his campaign in small towns along the line of the railways. In these guerilla skirmishes the Spanish have met with small losses so far. The soldiers fire persistent in their efforts to put down the rebellion.

# THE FARMERS

Useful Information Concerning Farm Work.

Money in Bare Crops-Early Pasturing-Fields Yielding No Profit-Poultry Notes.

By actual tests with the incubator, we have found that an egg fertilized and subjected to heat, says a writer, will show the transforming influence of the vital germ in a few hours, while an egg not fertilized may be placed in an incubator and subjected to 103 degrees of heat for ten or fifteen days, and then look, smell, taste and digest perfectly pure. These are sufficient tests, we think, and prove that infertile eggs will keep perfectly as against heat. Persons who have raised chickens all their lives, ask seriously: How long does it take the incubator to hatch a brood of chicks-and we are in earnest when we say that the male bird has no influence in the ovulation of the hen. Ound.
POTATOES-Weak; top quotations are Pardon the plain assertion, but it appears necessary for the majority of amateurs-if you wish to try my plan and desire to hold your eggs for the fall trade and prices, kill or remove every male bird on the place. Two weeks afterward begin to gather your eggs fresh every day. Take them directly to the celiar where you have previously placed some clean boxes or barrels, and OREGEN VEGETABLES—Cabbage, firm a barrel of salt. Cover the bottom of at 2'ec per pound; radishes, 10c per one of your boxes about an inch deep end down into the salt. When you have covered the surface with eggs bunch; California navels, cover again with salt, and so or until \$3.40@3.65 box; pineapples, Honoiuiu, full. In November your eggs will be \$3.60.83.60; sugar loaf, scarce at \$8.50. Figs, in very good condition. All the trou-Turkish, boxes, 14@16c; fancy large, 20 ble there will be is to carefully wash when they are ready for market or home consumption. There is one extra prezen; \$2.50 per crate; sweet pota- and no cracked shells. While we come toes, \$2.75@63 per crate; cucumbers, hot- to the conclusion that infertile eggs house, 75:ecs1.25; garie, 15c per pound; keep much the best, we should bear in as caragus, \$1.75:e2.00 per box; new potatoes, 214c per pound; rhubarb, 21y we want to place in our incubators under our biddies when we start out it

Money in Rare Crops.

There are a few branches of farming Eastern Oregon, 5(a7) ac.

Hors — Nomical at the following cents per pound. Then there is a greater demand for good sorghum than greater demand for good sorghum than there is a supply. Flax is very high when you want to buy; why n t raise some to feed? It will improve the Cabbage is hard to raise, but it pays to raise for the market.

There is money in cheese at 15 and 20 cents per pound. Stock your farms cents per pound and is scarce. Seed down your farms and pasture stock at 75 cents a month. Farm better what you do farm, raising the best. Read the papers and raise the crops that are scarce, for they always command a good price.-Farm and Home.

Early Pasturing.

Old hay answers an excellent purpose, even when the cows have an abundance of green food on the pasture. It is highly relished by them, and they should have a full ration of it at night. During the season when cows are first turned on grass they should have salt. Coffee -Costa Rica, 22 @23 ec; Rio, 20 and should any of them have the scours meal seasoned. Gillen grass is laxative, and the cows must not be allowed too much at the beginning of the past-

Fields Yielding No Profit. What to do with a profitless field is a matter of consideration by all farmers who are so un@rtunate as to have such fields. The majorit@use these lands as pastures, upon which they turn the stock, but it will pay to aim to grow Beef-Gross, top steers, \$3.00@3.50; green crops on the land to be turned years, and the land limited, it will be found that such method will restore fertility at a small cost compared with the increased value of the field.

> Mulching Current Bushes. After you have thoroughly worked about the current bushes in your home garden this spring and given them the necessary pruning, next give them a heavy mulch of stable manure. thick enough to keep the ground about them always moist and to prevent the growth of weeds. You will see how this trifling labor will pay when the fruit begins to ripen. Treat gooseberries in the same way.

> > Potatoes and Weeds.

Early potatoes should pay well as they are always in demand. A potato field should be kept clean from the time of planting to the harvesting of the crop. Many potato fields were al lowed to become so overrun with weeds as to make the cost of harvesting Bur- the season. Keep the weeds down from

> Poultry Notes. Broodiness is a disease. The ben becomes constipated, and is burning up

and the yield heavier.

with heat. It is a sad commentary upon our management when a hen surprises 25 with a flock of chicks from a hidden nest.

The poultry-keeper must help lag eggs. He must go into partnership with biddy and do his full share of the

We are asked if it would be profitable to breed peacocks? We should think not Besides, as a writer of one of our little letters once said, one peacock is choose for one farmer or one neighborhood.
