About The Fire.

Daily Guard, May 17. today on its return to Portland wit o The fire last evening started in the barn of W. W. Williams, and when first noticed the building was almost entirely enveloped in flames. In a very few minutes the barn of George Yoran was also enwrapped in the flames and when the fire department arrived both were nearly consumed, and attention was given to protecting adjoining property and putting out the fire in the hay. The wind was blow-ing from a wood saw engine, but a few feet from the barn, directly over the building, and there being a strong breeze at the time a spark was carried into the hay and was con fanned into a roaring flame. Mr. Williams had to a roaring flame. the final section came along the result was a collision. Conductor London and the engineer and fireman were an Francisco. es amounting to \$9.60. A CREMICAL ENGINE

The Council Will Buy One for the Engene Fire Department.

Daily Guard, May 18 A special meeting of the city council was held last evening for the popose of taking some action in regard to 2.00 improving the equipment of the Eu-gene fire department. The matter of purchasing new hose has been under consideration for some time, and also that of purchasing a chemical engine. A. G. Long, of Portland, coast ag for a Chicago manufacturing house submitted a proposition to sell a chemical engine, one cylinder, 100 gal-lons capacity, four wheeled vehicle, for \$1275, and will take the old hand engine now in the city's possession in part payment at \$400. His proposi-

tion was accepted.
The old hand engine now, and is seldom hauled to a fire, and never used. Much more effective work can be done in many places with a chemical engine than with water, and there is no damage to goods by the use of it, while with water the de-struction by the fire is often far less than that by the water used in ex-

tinguishing it.
The contract was duly signed this afternoon. The new machine will weigh 2250 pounds and will be wripped with all necessary apparatus. It will be delivered in about x week Mr. Long paying the freight charge estimated at \$125. It will be the estimated at \$125. It will be the Champion make, and is the same as are used in Portland. The fire commissioners of that city report that 90 1.00 per cent of the fires are extignished by chemicals.

The Willamette Survey.

The party of U. S. Engineers engaged in making a preliminary survey of the Willamette river are now at Sa-

The work of this board of engineers 1 00 on the river survey has consisted of making a complete map of the river, including shore lines, islands, bars, and the liepth of water, including flood lands. There is only \$0000 np ropri-ated for the survey from Eugene down. Mr. Cunningham thinks he can get to Portland at least with that. Theowork 1 50 is done with transits and levels, and then maps are made showing the me-anderings of the stream. No chain anderings of the stream. measuring is done. Two extra hairs in the transit instrument are set so as to cut exactly a 10t on a vernier rod at

ble and less crosive than eastern or southern streams. The heavy timber holds the soil together and protects the shore lines.

"Without a doubt the river is favorable to improvement clear to Eugene, says Capt, Cunningham, "and it would not take much money to make the river navigable the year around. It is an 1 00 easy stream to improve compared to such streams as De Missouri and the southern rivers.

"A few piling driven here and the to force the water into one channel would make it easily navigable the 1 00 year around. That is what is princi-pally needed. Therewis enough water to navigate the year around from Portland to Eugene, if it can be kept in one channel."

Datty Gulli, May 17. ENGINE Co. ELECTION.—At the reg-ular monthly business meeting last 1 50 evening Engine Co. Elected the following trustees to serve the ensuing year: H C Miller, T W Jenkins and Chas Goldsmith. Geo F Craw, 100 retired as secretary of the company, was tendered a vote of thanks for his long and efficient service. The company accepted the invitation of the G A K to march in the procession on Decoration Day, provided other companies of the city accept.

AD EUNDEM.—The Memorial day program: Veterans of the Indian program: Veterans of the Indian wars will be assigned a position on right column. After the Post and W R C return from the cemetery they will be dismissed, and reassemble again at 2 p m; march to Central school house, where they will act as escort to that school and march to 5th street where the teachers and pupils of the Geaty school will be met. Countermarch, returning to the Centralschool house where they will at-tend the Memorial day exercises pre-1 50 pared by the several schools

LAW ALUMNI TO MEET -- A meeting of the law alumni of the state university will be held in the United States court room at Portland tomorrow evening at 7:30 p. m. to consider the matter of the annual reunion. Making the graduation of the law class an event of more impertance, and also the subject of giving a more enthullastic reception to the graduating class, will be taken under consideration. Daily Guard, May 18.
