They will visit the family of Dr. Oglesby at Junction City. Senator A J Johnson returned from Belknap Springs last night, and left for his home at Scio on this morning's early train. He was agreeably surprised to meet his family on the train returning home from a visit to Roseburg. Mrs Shaw and her daughter, Miss Alice, have gone to San Diego, Cal, to visit their son and brother, Victor E Shaw, a prominent attorney of that city. They expect to be gone about six weeks. Their many friends trust that they may have a very pleasant trip. Cottage Grove Items. Leader, Aug. 10. O B Kline, returned from Eugene Tuesday, where he had been working in the Postal telegraph office a few days, during the absence of Miss Mamie Knox, who was visiting her parents in Lemath. We regret to learn that Mrs Annie Millard, on account of illness for several weeks, could not make her visit to Eastern Oregon. She is now with her parents, Dr and Mrs W W Oglesby in Junction City, confined to her bed with serious illness. C M Skeels and family left for Bandon Friday morning in a hack. He has been running a racket store in Lemath several months, and expects to follow the business at Bandon. Wish him success. Andy Nelson and H Edwards, are showing some fine samples of ore that are lined with gold from their claim south of Bohemia. The samples were taken from within three feet of the surface, and the boys are sure they have it rich from grass roots down. Fire at Pendleton. PENDLETON, Or, Aug 8.—Fire last night consumed the Transfer hotel and several adjoining buildings on Main street, one block from the O. R. & N. depot. The loss is about \$15,000; the insurance half that amount. Four bodies have been recovered from the ruins, and one man besides is still missing. Frank Breeding and Old Wolf, an Indian, were two of those recovered. The others missing are G. Clacking, William Streunsen and J. D. Taylor. It is thought the fifth body may be found. The fire originated on the upper floor of the Transfer house, when a man dropped a match near some gasoline. There were 29 guests. The family of the landlord consisted of six persons. HAMMOND'S PLANS.—Articles of incorporation filed in Astoria Tuesday, taken together with statements said to have been made by Mr. Hammond, indicate a project of several dimensions. It is to build up a large city on grounds owned by the late Captain Flavel opposite Astoria, on the peninsula at the mouth of the entrance to the Columbia river. It is to be named Flavel, and is to have electric lights, water works, wharves, etc., and railroad connection. This would indicate that Mr. Hammond intends to have an extension of the O. C. & E. R. R. run to the mouth of the Columbia river.—Ex. LIGHT DRAUGHT.—The new light draught river steamer, the Gypsy, built by the O. R. & N. Co., especially for the upper Willamette traffic, will begin making regular trips between Corvallis and Salem next Monday, connecting at Salem with the Modoc for Portland, says the Albany Democrat. The Gypsy draws but 9 1/2 inches of water. She is provided with a steam capstan on her bow, and she can run in the shallowest water on her route. This boat is intended for the Eugene route. Daily Guard, August 9. RUNAWAY.—A horse attached to a dog cart belonging to Mrs Travis took a spin this afternoon, demolishing the vehicle. The horse escaped without injury.

Personal. Daily Guard, August 9. The West, August 9. A swarm of fishermen and Chinamen will arrive on the Bandorille for the Elmore cannery. The steamer will be here about the 20th. On the 27th the schooner Mayflower Capt Olsen, sailed for this port to load lumber. The bar at present is in a very fair condition and should the Mayflower have a successful trip, more vessels may reasonably be expected. In the justice court last Saturday the case of Heppie Masterson vs Marr Saffley was decided in favor of the plaintiff and costs were assessed on the defendants. By the decision the plaintiff receives judgment on a promissory note for \$75 and 90 days interest. Born, at Heeeta Light Station, Aug 8rd, to Mr and Mrs John Cowan, a seven pound boy. This is the first child born at Heeeta and will probably be named Farenholt, in honor of Inspector Farenholt of this district. Mr J L Wells, of Seymour, Baylor county, Texas arrived here Monday. He left that state on July 19th and is representing about 30 settlers, who wish to locate on some desirable land. They are now situated in an almost barren country in northwestern Texas, where it freezes for a couple of hours and then suddenly becomes insufferably hot. Mr Wells declares it is the most changeable country on earth. He left up the coast Tuesday morning and will go into the interior, examining all the unsettled land and will select the most desirable. He expressed himself as very well pleased with our country and may return. Decidedly Unfortunate. Florence West: About one year ago Messrs J A Pond, J W Carnaud, G W Masterson and C U Behnke purchased lots on the water front, between Hurst & Davenport's store and the Morris hotel from David Morse, Sr., who gave deeds with the usual title guarantee attached. The purchasers never suspected for a moment that everything was not all "hunky" until a few weeks ago when they received information from seemingly a reliable source that there was a mortgage on the property, but not stating the amount or any particulars. It now transpires that before he sold the property to the above mentioned gentlemen Morse executed a mortgage on these same lots to Elijah Smith, of the Southern Oregon company, who evidently holds the "cloak" strings. The only way out of the difficulty seems to be for the purchasers to pay off the claim, but they are rather bewildered at the sudden turn of affairs and have placed the matter in the hands of Attorney E E Benedict, with what result is not yet known. Messrs. Pond and Carman have erected buildings upon their respective lots. Junction City Items. Times, Aug 8. New wheat is coming in pretty lively. It seems that 35 cents will be the prevailing price for picking hops. Born—to the wife of Mr Charles Stohlberg, Monday, August 5, 1895, a son. Quite a number from here attended the circus in Eugene on Wednesday. They report a large crowd and a good show. Mr and Mrs James Howard, who have been the guests of Mr and Mrs Hanchett for some time, departed for their home in Illinois Wednesday. Mr and Mrs S Handsaker moved to Eugene yesterday in order to give their son John an opportunity to attend the university. Mr and Mrs Handsaker will be greatly missed by their many friends. FOOT RACE.—Brownsville Times: Tuesday afternoon a foot race was matched between Elsworth Cameron of this place and James Allen, of Lebanon, the race to take place in that city on Saturday afternoon August 17. The purse is \$150 and the distance 75 yards. This Allen is a stranger in Oregon and may be a fast man, and no doubt is, or else he would not have matched Cameron. Our boys are confident however and expect to double the contents of their exchequers. ELEVATOR PIPES.—The Eugene Mill and Elevator Co. have placed two 4 inch galvanized iron pipes, for carrying grain, between the mill and warehouse. One pipe runs from the bottom of the mill to the top of the warehouse to deliver grain to the latter as it is cleaned. The other takes the grain from the bottom of the warehouse and delivers it at the top of the mill for grinding purposes. The pipes are supported on three poles, and are wired securely to the buildings. Daily Guard, August 12. DIVORCE SUIT.—Suits were commenced in the Lane county circuit court this morning by A P Crow against her husband, F L Crow for absolute divorce. The couple were married July 1, 1885. Two children are the fruits of said marriage a girl 6 years of age and a boy two years of age. The complaint alleges that the defendant has accused the plaintiff of the crime of adultery which is alleged to be untrue; also of abusive conduct and has threatened the life of plaintiff. Daily Guard, August 10. FIRE ABOUT OUT.—The fire on Spencer's butte is now about out and is virtually confined to an old rattle-snake den on the south side of the mountain. E J Crow now thinks the fire has been a blessing instead of a harm. It has burned the under brush, which will permit of some grass growing on the land. Daily Guard, August 10. READY FOR WHEAT.—The Eugene flouring mill is now ready to receive wheat. The cleaners have been adjusted and about 100 bushels of grain were run through them. Monday many tons of grain will be received. The people of Eugene should see that this enterprise is made a paying one. Daily Guard, August 10. CAR OF FRUIT.—Humphrey & Seagraves will ship a car load of plums tomorrow morning. This car goes to Chicago.

Camp Agua Caliente. FOLEY SPRINGS, Aug. 9, 1895. The "Three Sisters" party are enjoying themselves immensely at this beautiful resort. The first notable occurrence on the journey was the summersault of the white pony and the narrow escapade of the rider, Tribby, (H. L. C.) while rounding a corner. The red headed girl then mounting, the trick pony maintained his equilibrium the rest of the way. The advance guard consisting of two of the "new women", mounted in accordance with their ideas, preceded the party and selected a camping site on the clover terrace, shaded by mountain cedars and hemlocks, where we find ourselves very delightfully located. After a most refreshing bath we climbed to the head of the spring and on finding we had forgotten an egg to toast the heat of the water, Jarman kindly slid into the spring and from the disappearance of axle grease since and the needed bandages, the temperature of the water was found sufficient to par-boil human flesh at least. A concert was held last evening which all attended. The repertoire consisted of darkey melodies, breakdown Sweet Marie, Nut Brown Maiden, etc. The boys have proven themselves not ignorant of the art of angling by securing in a short time ninety-four speckled beauties of Horse creek. The greatest number of points was scored today by Jarman who returned to camp with three noble bucks which gave him the credit of honor at our banqueting board. A trip is contemplated Saturday to Willilada falls. If all survive further particulars will reach you later. A MEMBER OF THE PARTY. Octogenarians. Oregon must be a healthy country. Nearly every day in the week you may see walking around town Dr. Patterson, aged 83, and Hon. H. G. Hadley about the same age, and Eben Stewart in the same notch, and Rev. Jacob Gillespie 85, says the Broad-Axe. "Uncle Jake Gillespie," as he is familiarly called, lives some three or four miles from Eugene in the "Forks" on his 42 donation place, located where he is, 32 years ago. It has been his custom for years to come to town several days in the week, and he keeps up the practice yet. We met him the other morning on the street at about 8 o'clock, and taking us by the hand said: "You people in town are a rather lazy set. I got up this morning at 6 o'clock and had my breakfast at the usual hour at 6 o'clock, and hitched up my 'critter' and drove to town and went up — street to see a man at his residence. I knocked at the front door and could raise no one. Thinking they might be in the back part of the building at breakfast, I went to the rear door and knocked. I raised my man but he had just got out of bed and had not dressed yet, much less being at breakfast. Curious how easy people take things nowadays," and he remarked, "there goes a man I want to see," and he hustled off after him. AN ADMIRABLE INSTITUTION.—Pendleton Tribune: The University of Oregon, at Eugene, free tuition to all students. Young men can obtain board, lodging, heat and light in the dormitory for \$2.50 per week. Young women are provided with board in private families at \$3 per week. The institution affords superior advantages for young people seeking an education. The faculty is composed of educators of known ability and long experience, and all the modern facilities are available. IT IS POSSIBLE.—Sunday's Salem Statesman: The presence of Col F V Drake in the city yesterday gave rise to a rumor that he was here to file a motion for the rehearing in the supreme court of the railroad commissioners' salary case, but up to a late hour last night, the motion had not materialized, though it is a step likely to be taken at any time soon, in behalf of the secretary of state. AT THE SEASIDE.—Newport Record: Hon. H H Gilfry, the reading clerk of the United States senate, accompanied by his wife and daughters, arrived recently and will spend several weeks in our city. Mr. Gilfry has many warm friends among our residents and visitors who will take great pleasure in making it pleasant for himself and family during their stay among us. AT JUNCTION.—In the Junction Times' account of the council proceedings at that place we find the following: "A committee of ladies were present and entered their protest as to the non-enforcement of city laws in regard to drinking and gambling. No other business appearing, the council adjourned." DECISION MADE.—Judge Fullerton handed down the following decision in the circuit court and the same has been filed with the county clerk: D M Osburn & Co vs Chas E Byers, Lucy E Byers, A D Hurlburt, A N Hurlburt and Chas Lauer. Decision of foreclosure, after costs paid the first money to be applied to the claim of A D Hurlburt. Daily Guard, August 12. DEER KILLED.—Ray Crow yesterday killed a fine five point buck just back of Spencer's butte. The young man was out hunting squirrels, and the deer came in a few feet of him, when he slew the fine animal with a barrel of small shot. A Judge Dead. NASHVILLE, Tenn., Aug. 8.—Justice Jackson, of the United States supreme court, died this afternoon. Judge Jackson, although a democrat, was appointed to the supreme bench by President Harrison. He had been ill for several months. HOP CONTRACTS.—G W Hubbard has made the following contracts in Salem: C D and H Hartman, 10,000 lbs of hops at 8 cents; Thos Hunt 6,000 lbs, 8 cents; Christenson, 7,000 lbs, 8 cents; James Down, 10,000 lbs, 8 cents; John Kirk, 10,000 lbs, 8 cents; J W McGrath, 71. BUILDING SELECTED.—The Divinity School will be located in the building formerly owned by Chas. Davis on Twelfth street near the University. It is now the property of Judge J. J. Walton. GOOD WORK.—The Yates-Towall steam threshing crew threshed 6000 bushels of grain last week in two and one-half days.

Henry A Gray, who has been visiting in Eugene, left for Portland this morning. W D Campbell and child, of Los Angeles, Cal., arrived in Eugene this morning. Mrs. Nellie Hanson, of Fairhaven, Wash., is visiting with her parents, C W Young and wife, near this city. Miss Estella Learned instead of going to Newport yesterday left for San Francisco, going via the Yaquina route. Miss Shipley, who has been visiting her uncle, J H Goodman, in this city, went to Monmouth on this morning's local train. Miss Laura Burnett is attending the millinery store of the Misses Walton while Miss Osie Walton is absent at San Francisco. S. H. Handsaker and wife have moved here from Junction in order to give their son John an opportunity to attend the U of O. Rev. P. R. Burnett went to Lorane today to fill one of his regular appointments tomorrow. His daughter, Miss Edna, accompanied him. Albany Herald: Fred and Edward, little sons of Dr O C Awbrey, have returned from a visit of several days with their grandfather at Eugene. Sam'l Newsome will leave tomorrow morning for his home at Prineville. He goes by the McKenzie road. His son will remain and attend the university. Henry and Edna Hubbard, T N Fletcher, Daisy Fuller, and T H Hubbard and family, all of Salem, left here for the McKenzie hot springs this morning. Dallas Observer: P. J. Mulkey, of Perrydale, a brother of County Clerk Mulkey, visited in Dallas Sunday. He will attend the State University again next year. Harry W. Welder, the affable clerk in Osburn & DeLano's drug store, has gone on his wheel to spend his vacation at Salem, Albany, Corvallis, Independence and other valley towns. Dell Johnson is filling his place in the store. Misses Birdie Swayne and Grace Converse, of Portland, arrived in Eugene this afternoon. While here they visited the paper mill and called on friends, and altogether must have walked fifteen miles on that day. Prineville Review: Every one returning home from Belknap Springs, speak words of praise for the treatment received at the hands of the proprietor, Mr. Ostrander. Under his management this is getting to be a favorite summer resort for our people. A peculiar case exists in Corvallis. Rev. Gould bought a suit of clothes. He was entitled to tickets in a drawing for a bicycle, but refused to accept them, not believing in anything of the nature of a lottery. The stubs had already been put in, and when the drawing came off, in and behold Rev. Gould got the bicycle and concluded to accept it. Rev E G Wheeler, a well-known Sunday School evangelist of the Baptist church, well known in Eugene, having been here a good many times, was recently killed in a rail road accident in New Mexico. He was a man of enterprise and sterling worth. Albany Democrat: The Governor, Secretary of State and State Treasurer have passed resolutions commending a cry of the retiring superintendent of the asylum, Dr. Rowland, who deserves them. They are a farce, though, for this same board by a vote of 2 to 1 ousted Dr Rowland for another man. Sometimes silence is really golden, and it would have been in this case. It is a very peculiar board who will kick out a faithful employe whose administration has been characterized by ability, integrity, economy and humane purposes. HOPS.—Owego, N. Y., Farmer: The weather continues favorable to the growing crop, and there is no new evidence on which to base an estimate as to the yield. We, therefore, still adhere to our former figures of one-third to one-half short. Daily Guard, August 9. KICKED BY A HORSE.—Mrs. Wm. Mayer was kicked by her horse Wednesday afternoon in the side quite severely but not seriously. Since that time the lady has been compelled to remain in her room. MAKING FLOUR.—Simmons Bros. have completed the Jasper flouring mill, owned by Mr. Sylvester. The mill is now running and making flour. GOOD WORK.—The Yates-Towall steam threshing crew threshed 6000 bushels of grain last week in two and one-half days.
