

# CASTORIA

for Infants and Children.

"Castoria is so adapted to children that I recommend it as superior to any prescription known to me." H. A. Acheson, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"The use of Castoria is so universal and its merits so well known that it seems a work of supererogation to endorse it. Few are the intelligent families who do not keep Castoria within easy reach." CARLOS MARTIN, D. D., New York City.

Castoria cures Colic, Constipation, Sour Stomach, Diarrhea, Eructation, Kills Worms, gives sleep, and promotes digestion. Without injurious medication.

"For several years I have recommended your 'Castoria,' and shall always continue to do so as it has invariably produced beneficial results." EDWIN F. PARSONS, M. D., 1212 1/2 Street and 7th Ave., New York City.

THE CASTORIA COMPANY, 71 MURRAY STREET, NEW YORK CITY

J. C. CHURCH, President. B. D. PAINE, Vice President. F. W. OSBURN, Cashier.

## THE Eugene Loan and Savings BANK, Of Eugene, Oregon.

## THE GREAT HUDYAN

This extraordinary rejuvenator is the most wonderful discovery of the age. It has been endorsed by the leading scientists of Europe and America. Hudyan is purely vegetable, and does not contain any of the poisonous elements of the old-fashioned Hudyans. It is the strongest vitality maker. It is very powerful, but harmless. Sold for \$1.00 a package or 20 packages for \$20.00 (plain sealed boxes). Written guarantee given for a cure. If you buy six boxes and are not entirely cured, six more will be sent to you free of all charges. Send for circular and testimonials. Address: HUDYAN MEDICAL INSTITUTE, Junction Stockton, Market & Ellis Sts., San Francisco, Cal.

Constipation, Diarrhea, Falling Spleen, Nervous twitching of the eye and other parts. Strengthens, invigorates and tones the entire system. Restores debility, nervousness, emaciation, and develops and restores weak organs. Pains in the back, loins, and other parts of the body.

It was estimated \$35,000,000 was spent for bicycles last year in the United States, and the output and cost promises to be far larger the coming season.

One of the practical civic questions in this country today is the question of reforming our Indian policy. There are two possible fates for the Indian—civilization or extermination.

The Kansas City Star narrows down the Ohio senatorial chances to Brice and his bar'l and Foraker and his mouth—not exactly what might be called an extensive collection from which to pick.

A young woman of Salem wrote an article telling how she wears bloomers. It was unnecessary. No one would suppose for a moment that she wore them on the bedpost or on her arms.

The engineer's estimate of the cost of the Nicaragua canal was \$64,000,000 in 1888 and \$90,000,000 in 1891. The commission just returned from a journey along the route placed the figures at \$110,000,000.

To evangelize the heathen Chinese in his own bright land it will be necessary to provide the missionaries with naval and military escorts. With the New Testament in one hand and the sword in the other the work of conversion to Christianity may have some chance.

The San Francisco Call is to have the most handsome building in that city. It is to be one hundred feet higher than the tallest in the place, and erected with a skill that exhausts the resources of architecture in strength, beauty and convenience. Claus Spreckels, the sugar king, is building it, and it is generally understood that he is the real owner of the Call.

Nebraska democrats will have a chance to test their strength on the financial question. The convention which met the other day was largely in favor of free silver coinage. The administration democrats, whatever kind that may be, seceded and will hold a separate convention. They have no chance to carry the state but it may result in finding out how the party stands.

Within the last ten years labor-saving machinery has retired a great many laborers. Statistics just published for Europe show that the number of carpenters has been reduced 15 per cent; button hole makers, 50 per cent; shirt makers, 33 per cent; bakers and confectioners, 20 per cent; cabinet makers, 35 per cent; typesetters, 41 per cent; type-founders, 50 per cent; silk band weavers 40 per cent and wood cutters, 42 per cent within that time.

The fake in advertising is not as successful as formerly, although a good deal of money is almost entirely wasted in that direction. Advertisers are coming to appreciate the fact that no money spent in advertising is so fruitful in results as judicious advertising in newspapers of known circulation and acknowledged respectability. The ad that is placed in a newspaper is seen and read, whereas announcements made in gutter-snipes, on dead wall posters and through sheets issued for gratuitous distribution are of doubtful utility. If you wish to advertise select a newspaper that you know is read. Then your announcement will be noticed and read.

The compositor and proof reader made us say in the last issue that there were about \$400,000 standard silver dollars in the United States treasury. It should have been \$400,000,000. This vast sum, which the treasury refuses to pay out on demands for which it is legal tender, together with \$346,000,000 greenbacks and \$150,000,000 treasury notes is supposed to be protected and rest upon a paltry \$100,000,000 of gold—at least that is what gold standard men wisely contend when they sagely talk about sound money. No wonder the government, under such a theory, must weakly submit to being robbed by New York and London money changers of ten million dollars on a fifty million dollar loan. In the meantime farmers, laborers and other producers must accept the lowest prices for their products, while gold steadily appreciates in value.

The Omaha Cultivator says an Oregon editor kicks because the judges of the supreme court of Nebraska are taking a junketing tour over the lines of the Union Pacific railroad in his country. Surely Oregon people ought to be able to stand a judicial railroad combine one day when Nebraska stands it all the time.

Cornelius Vanderbilt's Newport residence on Ochre point was opened Wednesday night. Four billion dollars worth of society came and the \$3,000,000 palace was dedicated in the very reddest ochre hues. Two hundred guests gathered around the \$50,000 fountain by the grand staircase.

The advocates of the gold standard rely upon assertions instead of argument, and the reason for this is that they do not wish the facts to become known. They cannot argue that it is for the interest of the public that every thing that is produced by labor should be sold cheap, while the money which they hold is being made dear, but they think that this is for their own interest. They inveigh against "cheap money," fifty-cent dollars, "the silver craze," and predict all manner of evil if silver should be readmitted to free coinage. Then the money changers count the profits on the last bond issue, and estimate those on the bond issues yet to come.

One can hardly excuse, yet may not condemn the lynchers who took four accused murderers from the Yreka jail early yesterday morning and hung them until dead. If it be murder, courts and judges are responsible. It has come to such a pass that appellate courts on most flimsy pretexts will grant new trials, splitting straws and considering all technicalities of the law. A condemned criminal, who has been given a fair trial, and found guilty by twelve citizens, who, if bias was possible, would exercise it in favor of the accused, appeals to the higher court, and is given a new trial on some supposed flaw in the conduct of the case which was not considered by the jury and would make no possible difference with the verdict. The new trial may result in disagreements, or a verdict for a lesser crime, in any event the accused generally escapes just punishment for his crimes. Laxity and delay of the courts in promptly enforcing our laws renders heroic treatment like that at Yreka at least partially excusable. It saves a couple of years wrangling in the courts, a large bill of costs, with probability in the end of inadequate punishment.

## ASTHMA, Distressing Cough, SORE JOINTS AND MUSCLES. Despaired OF RELIEF. CURED BY Ayer's Cherry Pectoral

"Some time since, I had a severe attack of asthma, accompanied with a distressing cough and a general soreness of the joints and muscles. I consulted physicians and tried various remedies, but without getting any relief, until I despaired of ever being well again. Finally, I took Ayer's Cherry Pectoral, and in a very short time, was entirely cured. I can, therefore, cordially and confidently recommend this medicine to all."—J. ROSELES, Victoria, Texas.

"My wife had a very troublesome cough. She used Ayer's Cherry Pectoral and procured immediate relief."—G. H. FOSTER, Humphreys, Ga.

## Griffin Hardware Co.

### GOLDEN WEST BAKING POWDER

3 REASONS WHY you should buy it.

1. It is made right here at home.
2. It is made of the very finest materials and is guaranteed in every respect equal or superior to the very best.
3. The makers guarantee every pound, and are authorized to return your money if it does not satisfy you.

CAN YOU ASK FOR MORE?

Closet & Devine, Portland, Or.

Winberry Items.  
August 26, 1895.  
M M Anderson has returned home from the Pine Openings with a sore toe.

Most every one here intends going to the valley to pick hops.  
Geo W Carter is engaged in making shingles for R C Edwards to cover his house with when remodeled.

A man of Fall Creek precinct was in this neighborhood not long ago and circulated the news that H R Hayes, in the county jail at Eugene, had taken strychnine and died. We have heard since that the news is false and we can't understand why so truthful and honorable a man should try to wrongly inform the minds of the Winberry people.

We cordially invite all honest people who are in search of homes to come to the beautiful land of Winberry. There is quite a lot of good vacant land here that will be settled in a few years and we hope by good honest working men.

We wonder what is keeping Joseph Black away so long. That little old log cabin on the hill looks pretty lonesome. Joe, please do come home soon, as a certain young lady here is grieving quite badly for you.  
NIX COM A ROUSE.

Florence Items.  
The West, August 23.  
Every available building in town is occupied by housing fishermen.

On his North Fork farm, Walter McCormack has cut and put in the barn 125 tons of hay this season.

The little steamer Mink has been leased by the Rose Hill cannery and will carry fish this season. Captain Neely will be at the wheel.

Florence was a busy port Sunday. It was a red letter day in the history of Siuslaw's shipping. Three steamers entered and one departed.

At a meeting of the Glendora school district Saturday the directors were authorized to issue bonds for \$50,000 to erect a new building, which will be put up at once. The estimations are to be \$25,000 and but one room will be finished.

Milburn Springs.  
August 27, 1895.  
John Hamilton returned to the Springs today.

Dr Canada, of Long Tom, visited here this week.

Mr Trout and two little boys left for Harrisburg yesterday.

Miss Edie Blanton and sister left for their home Sunday.

Mr Thomas Brown, of Nebraska, is at the springs. He will leave for Seattle tomorrow.

Messrs Charlie and Frank Blanton returned to their homes Sunday. Mr Blanton will return in a few days to practice medicine at this place.

Eleven Jurors Chosen.  
The Trial of Durrant Will Now Proceed in Order.  
SAN FRANCISCO, Aug. 26.—In the trial of Durrant this afternoon two veniremen were passed by both sides and sworn in, making eleven jurors and sworn to try the case. The two now secured to try the case, David Brooks, liverman, and J H Babbitt, wagonmaker. As soon as one more juror can be obtained the actual trial of the case will begin.

NESTUCA MILLS BURNED.  
The Loss About \$25,000.—There is no insurance.  
MCMINVILLE, Or., Aug. 27.—The Nestucca mills, 20 miles west of here, owned by Jones & Adams, was burned this morning. The mill, lumber and all buildings near burned. The loss is \$25,000. The adjoining forest, containing some of the finest timber on the coast, is burning, and from ten to twenty miles feet will be destroyed. The origin of the fire is unknown. There is no insurance. This place feels the loss keenly. From 20 to 30 men will be thrown out of employment.

What Campbell Said.  
MILLSVILLE, O., Aug. 26.—Ex-Governor Campbell was asked today to harmonize his expressed willingness to stand on a free-silver platform three years ago and his candidacy this year on a gold-standard platform. He met the question by saying that he was at Hamilton, as follows:  
"I did not favor free coinage by the United States alone four years ago, nor do I now, although I am an international bimetallist. What I said four years ago was that I would take the chances of election upon the platform as I found it."

A Long-Buried Treasure.  
CINCINNATI, Aug. 26.—John Cleg-horn and Patrick Mears, two shanty boatmen, dug up \$20,000 of gold United States gold the other day on the Kentucky side, not far from Cincinnati. Last Monday the men went on shore to dig a "beat pot." After digging about a foot into the sand Mears saw a gleam of something and found it to be an American eagle. Further digging revealed gold and silver coins to the amount of \$60,000. Fearful the money might be counterfeit, Mears had the coins examined. On Mears' return he found his partner and all the members of both families had taken shovels, scoops, pans and all available implements and dug trenches in the sand in all directions, finally uncovering two iron-bound boxes which contained in all over \$20,000. The coins are all dated from 1825 to 1833, and it is supposed the money was buried by river pirates who infested the Ohio river many years ago.

An Undecided Judge.  
TAOUMA, Aug. 26.—Judge W H Pritchard, who resigned the Pierce county superior judgeship recently, Judge F L Stiles being appointed his successor, late on Saturday withdrew his resignation. Stiles' appointment was cancelled. Today Pritchard declares that after further consideration of the matter he may possibly resign again. The bar of the county hopes he will not, as the governor failed to appoint its nominee before.

Paris Talking of Eustis' Recall.  
PARIS, Aug. 25.—There is a general expression of doubt as to the authenticity of the rumor regarding the approaching recall of United States Ambassador Eustis, owing to his slow progress in investigating the case of Waller.

Defending Dr Gibson.  
SAN FRANCISCO, Aug. 24.—Captain of Detectives Lees this morning stated that the story connecting Rev. J. George Gibson with the murder of a Baptist church, London, because of improper intimacy with girls in his London church, was improbable. When the Emanuel church murders first came to light, Lees looked up Pastor Gibson's record, both in America and Great Britain. He traced his career at Edinburgh and Edinburgh found that there he had a classmate named Jesse Gibson, whom Lees believes to have been the immoral London pastor. Lees says in Gibson's whole career from the cradle up to the present time there is no blot. The Scotland Yard detectives in London helped him in the investigation, and Lees says this story trying to connect Gibson with his namesake in London is a scheme of the defense of Durrant to throw suspicion off Durrant long enough to secure his acquittal before it can be proved that the pastor of Emanuel church was never accused of immorality in London.

New York's Hop Crop in Danger.  
NEW YORK, August 25.—The World will say: The hop crop of this state is in danger of ruin because of the refusal of hop pickers to work for the prices which the growers are willing to pay. It is reported that the growers expect to have their crops harvested on the same basis as the wages of last year, and the hop pickers have organized a union to enforce their demands, and if these demands are not granted at once, they will strike.

The hop pickers in the counties of Madison and Oneida, in this state, claim they are having a hard time of it. Last year they supposed they would receive \$1 a day and board. When settling, they claim they were paid instead of \$1 a day, only 30 cents a basket. It was a good worker could fill more than two baskets a day.

Tragedy at Astoria.  
ASTORIA, Or., Aug. 27.—About 5 o'clock this morning, Francis Feakes, the keeper of a small huckster shop in the lower portion of town, without known cause or provocation, and while in a temporary fit of insanity it is supposed, fired two shots out of a revolver at his wife, and then deliberately placed the revolver at his temple and blew the whole top of his skull off. The attention of neighbors was attracted by the children of the couple, six in number, who escaped from the house by jumping out of the windows. When the house was reached Feakes was found dead on the floor, and his wife was unconscious from the effects of two wounds in the head. The woman has been removed to the hospital, but physicians say she cannot recover.

A Lively Fire.—Last Monday Will Withers, who resides above Springfield, set fire to some slabs which he had in the Wilamette bottom. The flames spread very rapidly and soon threatened to burn over a large part of country and do considerable damage to property. All the neighbors around were summoned and after not a little excitement and lots of hard fighting they got the fire under control, but not until it had destroyed considerable fencing.

FATHER DEAD.—A C Auten has received the sorrowful news of the death of his father, which occurred at Kellogg, Iowa, August 17th. The old gentleman was 82 years of age, and his death was expected.

—MANUFACTURERS OF THE—  
"WHITE ROSE"  
FLOUR.  
GUARANTEED  
BEST QUALITY.

The most popular flour in the market. Sold by all leading grocers.

A WONDERFUL SOIL.—The Willamette valley is possessed of a most remarkable soil. James Hoffmann has a field, a few miles northwest of this city, that has been farmed continuously since 1854, and this year it produced twenty-two bushels of wheat per acre of first-class quality. In the past lands that have been farmed a few years must be doctored up right along with expensive fertilizers. It is hard to tell how long our lands will bear up under crop after crop.

Hops.—A dispatch from Salem says: The estimated cost of raising and putting hops in the bale is 61 to 67 cents per pound. The price being offered by dealers is 8 cents per pound, so the pickers will share a large part of the profits with the producers this year. A few five year contracts have been made at 10 cents, and some three year contracts at 8, 10 and 12 cents.

Last Tuesday lightning struck the house of James Lindsay, about six miles from Klamath Falls, but did not damage it. It struck the terra cotta chimney and passed down through the floor, killing two dogs which were under the house. A baby lying in its cradle near the stove, near the path of the bolt, was unharmed, but James Shrieves, who was outside leaning against the house, was knocked down by the shock, but quickly recovered.
