A Texas preacher threw a Bible at a deacon who started to run away with the collection, and knocked him down the front steps of the church, breaking his leg in two places.

been taken from many farmer, will have did well, and many farmers will get 400 bushels of potatoes to the acre. The fruit is now ripening fast and the trees are beavily laden with apples, peaches, pears, etc., and everybody is busy canning, drying and preserving their feult for market.

Such a development of wealth and

shows the remarkable growth of the Western statess. New York's rate of increase in population for 100 years was not quite 17 per land went to Eugene one day last week cent, while that of Illinois increased on business and reported the county and lived. nearly 311 per cent in 90 years. sent lively. The other Western states have done nearly as well.

A statistician of the German citizens, took out a load of fine porkers to Junction City this week. an investigation of the superstition regarding Friday as an unlucky day. He has given the world a book of queer tables and figures which prove that it is Monday, and not Friday, that is the most fatal and unfortunate day of the week.

Judge Teller, of Auburn, was named unanimously for judge of the court of apppeals. General Horatio King was named unanimously for secretary of the state; John B. Judson, of Fulton, was Chase, of Albany, was nominated by A. Yerington. by acclamation for attorney general; D. C. Dow, of Schoharie, was nominated by acclamation for state treasurer, and Russel Stuart, of Onodaga, was nominated for state engineer.

When dogs, cats and other ani-mals carried long distances on cars and steamers, sometimes confined in bags and baskets, can, without asking any questions, find their way home, and birds traveling thousands of miles come back year after year to the same nests, and carrier pigeons to their dovecotes, it is pretty sure that they know some things to a knowledge of which no human being has yet attained. There is a vast field of annimal intelligence to be studied, and the more we study the more we shall be filled with wonder and admiration.

It is said in Washington that the report of the commission sent by Congress to study the Nicaragua canal problem on the ground, is ready and is very favorable to the project in general. It is further said that the Menocal estimates as to the cost of the canal and the time required to build it in are not accepted by the commission, which puts the probably cost at from \$115,000,000 upward the time for building it at least six years, and the number of men to be constantly employed for that period about 20,000. This is an increase in the estimates of cost over those accepted by Senator Morgan in his speeches in the senate, of from \$15,000,000 to \$40,000,000, for Morgan was sure the canal could be built for from \$70,000,000 to \$100,000,000 probably for the smaller sum. Doubtless the commission is nearer right than the Senator, and the country would better expect to invest the largest sum mentioned, if not more than that if it goes into the canal busi-

"Mister, I say, I don't suppose you don't know of nobody what don't want to hire nobody to do nothing, don't you?" The answer was "Yes I don't know."—Ex.

complaint to-wit: For a judgment and de-cree of said Court, that the Defendants be forever barred of any right, or claim to, or interest in the following described premises the n ½ of the s ½ of sec. 12, tp 16, a s 4 west. In Lane county, State of Oregon, and that the Plaintiff be decreed the owner in fee simple of said land.

This summens is published in the EURESE Grand, a newspaper printed, published, and of general circulation in Lane county, Oregon, by order of the Circuit Court of the

The N Y Producers' Price-Current of Sept 15th says: This week about winds up the pick ing in this state and from all we can gather the crop is about 65 per cent of last year. In some sections farmers seem willing to sell at present prices, say 6 and 7, generally, but in other localities there is a disposition to hold for a while. We are just advised of a sale in the country to a shipper at loc, but this is very exceptional and we understand the quality was particular-ly fine. Very many of the samples that have come forward recently lack strength and were evidently picked prematurely; some other lots show dirty, rough picking which is exceed-ingly unfortunate at a time when prices are so low for good stock. Some growers have used care in harvesting their hops and we shall have some nice lots later. On the Pacific coast sooner or later as our land is rich and be given as yet. Samples from there the finest of water and timber until of the early pickings look nice, but are social progress in half a century social progress in half a century could take place nowhere except in this republic.

you can't rest.

Isiah Slayter, our postmaster, is fast filling up his store with a fine assortiet of freight rates from the coast this republic.

The rate of increase in population of several states of the Union shows the remarkable growth of 000 old duty. Germany is expected to have about two-thirds of last year's crop. Our local market is in a dull and somewhat nominal condition. But few hops are here as yet and these are held at 7@10c, as to quality, later extreme. Exporters begin to inquire for sample lots which is the only encouragement at present. Holders do not feel inclined to push sales, how-ever, particularly if it requires con-cessions in price to do business. No demand to speak of for 1894 hops, or older growth. older growths.

Otsego, N Y, Republican: There is nothing new to the hop market. A few hops have been bought but for the time of year the market is almost stagnant. Growers are not willing to accept the low prices prevailing and little is done. About 190 bales of the new crop have been purchased, 20 at 8c, 70 at 7½c, 84 at 7c, and 16 at 6c. Thirty-six bales of 94's have also been sold at 2 cents.

THE STEAM MOTOR.—Albany Herald: "A petition is being circulated and signed by many of the business men of Albany asking the city council to prohibit the running of the s'eam motor on the business street. It will probably come up at the next meeting of the city council. The petition recites that the steam motor frightens horses, drives much business area. horses, drives much business away from First street and is a great nuisance. There is no doubt that the steam motor is not the thing for business streets. Horse cars, if electric cars are too expensive for the present, would be much preferable."

ENTRY REFUSED.—Charles Wilson, a young Salem lad, returned from Cor allis yesterday. Mr Wilson was in Corvallis for the purpose of entering the State Agricultural cohege, but was not permitted to enter as he had not graduated from the public schools in accordance with the rules of that institution.
