Some Views From Hon. Binger Her-mann on the Upper Willamette River and the Siuslaw Harbor.

Hon Binger Hermann, representa-tive in congress from the first district, came down from Roseburg this morn-ing and today has been shaking hands with his numerous Eugene friends.
When questioned, Air Hermann
stated that he was not here for any
political purposes; he said he had no
axe to grind, but was on the watch to see what the people wanted. He was not making any promises but was listening to learn all that would be ex-pected of him.

pected of him.

He is deeply interested in the Willamette river and Siuslaw bay improvements. He fully realizes the unlimited advantages offered by deep water communication, and speaks in very flattering terms of the improvements now under process of construction which directly effects this county. He is fostering the improvements of the upper river and hopes to get appropriations for a more elaborate system of improvements. One that will make the improvements that will make the improvements more lasting when completed and place the river in condition for navigation this far up at all seasons of the year. From the report of the govern-ment engineers he believes this can be done. He believes that improvements done. He believes that improvements of the Willamette should be carried on in conjunction with those of other rivers of the state.

He recently visited the Siuslaw bay and personally inspected the govern-ment improvements made there, going out over the bay andtaking soundings himself that he may be prepared to more favorably present the interests of the Siuslaw when congress shall again meet. He is highly pleased with the meet. He is highly pleased with the good that has been accomplished by the improvements already made there, and believes that all the improvements needed can be made for one half the cost estimated. The development of this harbor is something which directly affects us, as it is the only harbor we have. At present we are not directly connected with it, but Mr Hermann considers it only a question of time nutly we shall be connect.

Mr Hermann also speaks favorably of being able to secure an appropriation for the improvement of the Mc-Kenzie and Military wagon roads inside the limits of the Cascade reserve.

Mr Hermann is very enthusiastic over Oregon's interests and prospects and will go back to congress full of vigor to prosecute her claims. He will remain in the city tonight and will return to his home at Roseburg on the early train tomorrow morning.

A NARROW ESCAPE.

A Drunken Man is Knocked From Railroad Crossing by a Passing Train.

Henry Walker, who resides at Fall Creek, while attempting to cross the railroad track at the crossing on Sixth and Ferry streets, this morning, was struck by the 3:09 overland train and knocked from the track, sustaining serious injuries.

Walker had been in town until a

late hour and was trying to make his way, while under the influence of liquor, to where his family is at present camped, near the Eugene flouring mills

He was too drunk to realize what he was doing and stepped upon the track just as the train was approaching. The engineer saw him and applied the Walker was struck by the engine while upon one side of the track and knocked forward. His head struck on the rail and he rolled off to one side. The train stopped as quickly as possi-ble and backed up and the injured man was taken on board and brought into the depot.

The railroad officials at Portland

were notified of the accident and immediately telegraphed instructions to have Walker taken to a hotel and medical assistance summoned to attend to his wounds.

Walker was conscious a part of the time and with the assistance of two men was able to walk to the Minne-sota hotel near the depot. Dr T W Harris was summoned and upon examination found that his right arm was broken, two ribs on the right side were broken and that his forehead was badly cut upon the right side where he fell upon the rail. He also received internal injuries, but the physician is unable to say yet just how serious they will prove to be. How-ever, it is believed that he will recover

some extensive improvements are being made at the Eugene tannery in the eastern part of the city by W W Haines, proprietor.

Mr Haines now has a pile-driving crew at work driving piling for a break-water, which is being built a distance of 300 feet along the river bank at a point opposite the tannery. Since the river has cut out the channel the river has cut out the channel through there the waters of each succeeding winter have been wearing away the south bank of the stream away the south bank of the stream and gradually approaching the tannery. It has threatened to take away a considerable scope of ground, on which the tannery and some other buildings now stand, and to eventually cut in next to the S P railroad track. Mr Haines is now attempting to check this washing of the river by putting in a break-water, and in doing so is forming a protection which will directly benefit the S P railroad and the city of Eugene.

The assailant departed and returned, when Mrs. Holman made an attack with a club, followed by a retreat, but not until recognized as Mrs. Hannah. Mrs. Hiatt fell insensible and never regained consciousness. She is probably dead at this writing. Mrs. Hannah admitted her identity and declared that she had no regrets for the act. The cause given is that Mrs. Hiatt and Mr. Hannah had been too intimate and Mrs. Hannah took this way to stop it.
