A WATER FAMILIE—McMinnville. "There is practically a water famine in this city, owing to the negligence of some one to have placed upon the suction pipe, of the water plant a proper filtering box. The water filling the main is direct from the river, and is very foul with dirt. In fact, it is practically mud, and it cannot be used for drinking, cooking or steaming purposes without being filtered, and that the consumer is not prepared to do. There is considerable kicking being done on the part of water-takers, and many will refuse to pay this month's water bill or request the city to shut off their water supply unless a change for the better occurs soon. The water committee investigated the matter yesterday, and hereafter water will be pumped from the well in the pit, three times a day, just before meal hours, in the hope of getting better water for house use, at least."

Geo W. Jenkins, editor of the Santa Maria, Cal. Times, in speaking of the various ailments of children, said: "When my children have cough there is only one patent medicine that I ever use, and that is Chamberlain's Cough Remedy. It possesses some medical properties that relieve the little sufferers immediately. It is, in my opinion, the best cough medicine in the market." If this remedy is freely given as soon as the cough appears it will prevent the attack. It is also an ideal remedy for whooping cough. There is no danger in giving it to children, as it contains nothing injurious. For sale by Osburn & DeLano.

"A Good Drugstore." Salem Post: Judge Hubbard recently took a trip to Woodburn. He was looking for a man who he was informed kept a saloon there. The fact is, however, that Woodburn has no saloons, rejecting in an ordinance prohibiting the same. As the judge was driving up to the stable, he accented a driver saying: "Hello! Where's the saloon—do you know?" "We ain't got no saloon," was the answer of the man, who had a red nose, "but we've got a rattlin' good drugstore."

A E Kilpatrick, of Filmore, Cal., had the misfortune to have his leg caught between a cart and a stone and badly bruised. Ordinarily he would have been laid up for two or three weeks, but says: "After using one bottle of Chamberlain's Pain Balm I began to improve and in three days was entirely well. The peculiar soothing qualities which Chamberlain's Pain Balm possesses I have never noticed in any other liniment. I take pleasure in recommending it." This liniment is also of great value for rheumatism and lameness. For sale by Osburn & DeLano.

Insurance No 100. I am now prepared to take up the policies of the State Insurance Co. of Salem, Oregon, and replace them with those of one of the largest companies in the world, allowing the unearned premium of the State as part pay on the new policy. F. A. RANKIN, Agent.

Parks' Tea clears the complexion. Mrs. N. Mayne, of Le Roy, N. Y., says: "I have used Parks' Tea and find it the best remedy I have ever tried." Sold by A. YERINGTON.

It clears the skin and removes pimples and that sallow, muddy look. Parks' Tea is used by thousands of ladies for the complexion. Without being a cathartic it cures constipation. Sold by A. YERINGTON.

Salem Statesman: Know all men by these presents that candidates for Mr. Heumann's seat are becoming more and more in evidence.

THURSDAY, DECEMBER 28.

New Year's is the next holiday. Dr. Finley, dentist, room 3, Dunn blk. Christmas was a lively day in Eugene.

A masquerade ball was given at Coburg last evening. Eugene's butchers cannot be beaten in getting up fine displays of meats.

A great many Eugene people ate Christmas turkey away from home yesterday. A marriage license was issued this morning to John L. Dennis and Susan F. Walker.

C. M. Young, of the Willamette market, will sell all his Christmas meats at cost. J. O. Rhinehart is loading a car with potatoes this afternoon for shipment to California.

Persons going to San Francisco on the Bay will now have to pay the David Linn's orchestra gave a ball last evening at Coburg hall, which was fairly well patronized.

The masque ball given at Springfield Christmas eve, was attended by about 36 couples and was a very pleasant affair. Ed Stoez stabled Tim Edmondson, perhaps seriously, in Wasco county Sunday evening, over a trivial matter.

Geo. Miles is visiting the South Atlantic coast to see how well protected we are from that source in case of hostilities. A notice of specifications for a new hospital building to be built at the soldiers' home at Roseburg appears in today's GUARD.

T. W. Smith, an old man living alone was assaulted by a supposed robber at Duxton Thursday evening. It is thought that he will not live. A foreclosure suit was begun in the circuit court today wherein The American Sunday School Union appears as plaintiff and Geo Milligan et al as defendants.

Prineville Review: Constable Linn Wood is earning quite a reputation as a detective. The way he captures his victims, would do credit to a Pinkerton.

Acts at once, never fails. One Minute Cough Cure. A remedy for asthma, and that feverish condition which accompanies a severe cold. The only harmless remedy that produces immediate results. OSBURN & DELANO.

A heavy storm prevailed at Astoria December 24. A storm also prevailed on the Sound. All boats had not yet been heard from at last accounts.

John, the 10-year-old son of H. O. Inshap, accidentally shot himself at Beaver Creek, near Oregon City, yesterday, and will probably die.

Wells, Fargo & Co's office was closed yesterday afternoon, hence a large number of Christmas presents were not received until today.

Mr. G. W. Crowell is packing his stock of jewelry, show cases for shipment to California, to which place he is removing on account of the health of his family.

It is a truth in medicine that the smallest dose that performs a cure is the best. De Witt's Little Early Risers are the smallest pills, will perform a cure and are the best. OSBURN & DELANO.

The porker exhibited at C. M. Young's market yesterday was one of the largest ever brought to Eugene. It was a little less than three years of age, and weighed 633 pounds dressed. It was raised by Frank Campbell at Camp Creek.

There are many good reasons why you should use One Minute Cough Cure. There are no reasons why you should not, if in need of help. The only harmless remedy that produces immediate results. OSBURN & DELANO.

Instructions have been issued to the postmasters at Ashland and Klamath Falls to advertise for bids for contracts for a mail service seven times a week between those places over the Cascade road. This assures the establishment of the route.

Sheriff Johnson was at Coburg today and took 25,500 feet of lumber which had been attacked by W. M. Vandynor. The judgment was for \$103.75 and the lumber was bid in at \$100.75.

Dr. Finley, dentist, room 3, Dunn blk. There are two reasonable things which everybody should do: take good care of one's health; and if not, regain it quickly, and to this ever, body will agree. And there are a great multitude of people who are agreed that for both purposes Simmons Liver Regulator is the best helper. "I am troubled with torpid liver and nothing gives relief so quick like Simmons Liver Regulator."—R. R. Strange Lake City, Pa.

A G Bartley, of Magic, Pa, writes: I feel it a duty of mine to inform you and the public that DeWitt's Witch Hazel Salve cured me of a very bad case of eczema. It also cured my boy of a running sore on his leg. OSBURN & DELANO.

The popularity of Chamberlain's Cough Remedy and the highest esteem in which it is held leads us to believe it to be an article of great worth and merit. We have the pleasure of giving the experience of three prominent citizens of Redondo Beach, Cal., in the use of the remedy. Mr. A. V. Trudell says: "I have always received prompt relief when I used Chamberlain's Cough Remedy." Mr. James Orchard says: "I am satisfied that Chamberlain's Cough Remedy cured my cold." Mr. M. Uxias gift, Mr Editor. The rain today is disagreeable to those attending meeting. Maek Holbrook is working in Ridge-way's saw mill at Dexter. The missionary society gave an entertainment here yesterday evening and a number of articles were sold. We did not learn how much money was secured. M E Edwards intends going to Philomath in a few days to attend school at that place. TRACK IMPROVEMENTS.—The S P Co has been experimenting with their track bed in this vicinity and at other points along their lines for several months past. A sample of the new style track may be found at the Henderson depot. A ridge of gravel is thrown up in the middle of the track. This ridge makes an excellent foot path for pedestrians, and also serves to shed water from the track. On either side of the track the gravel slopes gradually down for two or three feet to rows of larger rocks, which have been placed there to prevent the fine gravel from slipping down over the sides of the grade. This method of grading makes a very fancy track. It is a very expensive method but the company is so well satisfied with the result that it is extending the work quite extensively in places.

DEAFNESS CANNOT BE CURED by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure it—Dr. J. C. Cheney's method. Deafness is caused by an inflammation of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Cases often cured by our method, which is nothing but an inflamed condition of the mucous surface. TRACK IMPROVEMENTS.—The S P Co has been experimenting with their track bed in this vicinity and at other points along their lines for several months past. A sample of the new style track may be found at the Henderson depot. A ridge of gravel is thrown up in the middle of the track. This ridge makes an excellent foot path for pedestrians, and also serves to shed water from the track. On either side of the track the gravel slopes gradually down for two or three feet to rows of larger rocks, which have been placed there to prevent the fine gravel from slipping down over the sides of the grade. This method of grading makes a very fancy track. It is a very expensive method but the company is so well satisfied with the result that it is extending the work quite extensively in places.

DEAFNESS CANNOT BE CURED by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure it—Dr. J. C. Cheney's method. Deafness is caused by an inflammation of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Cases often cured by our method, which is nothing but an inflamed condition of the mucous surface. We will give one Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars. Dr. J. C. CHENEY & CO., Toledo, O.
