DELEGATES HERE.

The College Y. M. C. A. convenes at 8:00 Tonight.

Daily Guard, January 10.

A large number of delegates from different colleges of the state arrived here this afternoon to attend the 5th annual conference of the State College Young Men's Association, which convenes in Villard Hall at 8:00 o'clock tonight and will remain in session until Sunday night.

The delegates, who arrived this afternoon, were met at the depot by a committee from the university and conducted to Villard Hall, where they assembled in President Chapman's room and enrolled and were assigned to places of lodging while in the city. A special car was had out by the street car company to carry the delegates from the depot to the university.

After the delegates had been enrolled and assigned to their quarters they were shown about the grounds and through the different buildings and departments of the University; and seemed very much pleased with what they saw.

The delegates were cordially greeted and will be treated with the greatest of hospitality while they remain in this city.

For a Coast Telegraph Line.

Senator Mitchell of Oregon has introduced the following bill, which was read twice and referred to the committee on military affairs:

A bill to provide for the construction of a military and commercial telegraph line along the coast between Yaquina, on Yaquina bay, and Port Orford, to connect with Newport, on Yaquina bay, Astoria, Florence, on Siuslaw bay, Gardner, on the Umpqua river, Empire City and Marshfield, on Coos bay, in the state of Oregon.

Be it enacted in the senate and house of representatives of the United States of America in congress assembled, That the secretary of war be, and is hereby directed to construct and operate a military and commercial telegraph line along the Oregon coast, commencing at Yaquina City, on Yaquina bay, and extending to Port Orford, to connect with Newport, on Yaquina bay, Astoria, Florence, on Siuslaw bay, Gardner, on the Umpqua river, Empire City and Marshfield, on Coos bay; and for such purpose there is hereby appropriated, out of any money in the treasury not otherwise appropriated, a sum sufficient to build and equip the same, not exceeding fifty thousand dollars.

ELECTRIC LIGHTS.—Junction City Times: As will be seen by the ordinance published in this issue the city council has granted to Robert Clow and associates a 30 year franchise to erect and maintain an electric light plant. We understand that an agreement was entered into that the plant should be erected and in operation within a period of two years, but the franchise and also the minutes of the meeting fail to reveal this fact. We presume there is no objection whatever to granting a franchise for an enterprise so commendable, but some time should have been specified when this plant should be erected, and failing the franchise to become null and void. However, Mr. Clow is no trifler and if he fails to erect the plant within a reasonable length of time, he will not stand in the way of any other firm or individual from doing so during the entire life of his franchise.

BENEFICIARY PAID.—Mrs. Bettie E. Humphrey, widow of the late H. C. Humphrey, received today through Prof. B. J. Hawthorne from the A. O. U. W. order, \$2,000, the amount of the beneficiary.

STATE CONFERENCE.

The College Y. M. C. A. now in Session.

Daily Guard, January 11.

A representative number of citizens, students and delegates was at Villard Hall last evening to witness the first session of the fifth annual conference of the colleges of Oregon. Secretary Dummett was present and acted as presiding officer during the session. The time was taken up principally with addresses.

President Chapman of the University of Oregon delivered the address of welcome, and was responded to by Prof. Fred S. Dunn, of Willamette University at Salem. Rev. W. S. Gilbert of the First Presbyterian church spoke in behalf of the churches of the city and was responded to by Prof. C. F. Howland of Albany college. Will E. McClure, class of '96, spoke as representative of the University of Oregon, while E. E. Washburn of Portland university responded.

Secretary Dummett then gave a brief outline of today's work, and the session closed with prayer by Prof. Mark Bailey.

The session was interspersed throughout with music, and at its close a social session was held.

TODAY'S SESSION.

Today's session opened at 9 o'clock in Villard Hall with an excellent attendance. The convention promises to be the best ever held.

The first hour of the session was taken up with prayer and some helpful talks, led by C. C. Michener.

At 10 o'clock Secretary Dummett took the chair. E. D. Washburn of Portland was elected recording secretary and Will E. McClure, of the University of Oregon was elected press secretary.

Frank E. Brown of Willamette University spoke on "The National Equipment of the College Association." The paper was a very able production and showed some splendid argument, which lack of space will not permit to be produced here.

This was followed by an open discussion led by Mr. Michener, in which many valuable hints were brought out.

At 10:45 Oscar Cox, of Pacific College, presented a masterly exposition of personal work, what it is, and how best accomplished. This was followed by an open discussion, during which it was shown that the greater number of college men who become Christians, do so because of personal work. Those delegates who become Christians, because of personal work were asked to raise their hands and hands of nearly half of the men present went up. Three hindrances to personal work were mentioned; lack of proper knowledge of the bible, feeling of an inconsistent life, and a feeling of incapacity to do the work. It was shown that the last objection was one of the best aids in doing this work.

After a song the convention listened to a few remarks from W. T. Matlock, of the Polytechnic Institute, of Salem, upon the subject, "Interesting Religious Meetings." He spoke briefly and pointedly, giving great prominence to the earnestness with which Y. M. C. A. men should carry on their meetings.

The subject was then thrown open to discussion by the delegates on from each college represented responding.

The remarks were summed up by Mr. Michener in a short talk in which he gave practical suggestions concerning the means of improving the religious meetings. The conference then adjourned to meet at 2 o'clock in the afternoon.

BIRTHDAY PARTY.—George Frazer yesterday having reached the 18th mile stone in the journey of life was tendered a birthday party by his friends at the family home on Fifth street, between Olive and Charnell, last evening. About 35 of his young friends were invited in, and each one being attired in masquerade costume. A great many different characters were represented and were well sustained. Some of the characters were very amusing and provoked great merriment on the part of the guests. A very nice lunch was served at 10 o'clock, and a portion of the evening was taken up with games and dancing. It was a very pleasant affair and will be long remembered as such by all who were there. Those present were: Clara Stone—school girl; Hattie Taylor—nun; Mabel Claire—blonde—girl; Jean Wold—winter; Annetta Burr—quack; B. Marlan Taylor—Swiss peasant girl; Rosetta Eastland—nun; Faythe Johnson—gypsy; Leta Luper—summer; Mabelle Miller—American; Irene Applegate—summer girl; Adah Hanson—Mother Hubbard; Eva Hyland—Ivy; Lulu Applegate—Red Riding Hood; Ermine Thompson—baby; Ruth Loveridge—Japanese woman; Jessie Livermore—domino; Ina Watkins—spectator; Norton McC Johnson—cow boy; Jesse Flint—clown; Sherwood Burr—"Romero"; Rhea Luper—"Juliet"; George F. Willoughby—Mexican; Clive Cheshire—Gen. Bunkum from Bunkumville; Archie Livermore—Japanese man; Earl Mount—civilian; Claire Willoughby—"the new woman"; Charles Griffin—"Starvation Army"; Coke Bilyeu—Pilgrim father; Arthur Frazer—Mexican; George Frazer—cow boy; spectators—Messrs. Haeger, Kuykendall, Wood, D. Willoughby, Vanduyne.

FEELING UNEASY.—The time for the leap year club dance is drawing nigh and as yet but very few of the boys have received invitations. As a result there are a great many young men in town just now who are feeling very uneasy. However, the disappointed ones have a scheme on foot which offer them some consolation. They have engaged "Deacon" Davis as chaperon and will attend the dance in a body. If the fair ones will only take pity on them and dance with them a few times the disconsolate ones will be happy again.

CORRECT.—Albany Democrat: If the next legislature does the will of the people it will abolish the railroad commission and board of equalization. Down on the commissioners any way. They only confuse and draw salaries. And that is one reason why they will be continued.

BORN.—To Mr. and Mrs. John Lewis at Mohawk, a son.

STEAMER ALBANY LAUNCHED.

She Will Take the Place of the N. S. Bentley, Now Belonging to the O. C. & E.

Salem Statesman: The launching yesterday of the O. C. & E. Co's steamer "Albany" at Steffen's yards Portland, was attended by a large crowd of people eager to see the new craft make her debut among the already numerous craft on the Willamette division. She is 150 feet in length, 32 feet beam, with depth of hold 4 feet and 6 inches, and built as near as speed as a light draught hull could be constructed. The house and machinery are from the steamer "N. S. Bentley," which was built in 1886 by the O. P. R. Co., making her first trial trip on December 13th of that year. Two weeks later she sank at Albany with 3,800 bushels of wheat on board. In 1887 she sank below Salem, damaging a large cargo. She had the reputation among river men of having a "Jonah" placed on her, as no matter under whose command she was placed, she never realized to her owners the enormous profits gained by her companions, the "Wm. M. Hong" and "Three Sisters." It is to be hoped that with a new start in life, a new name taken from one of the prosperous towns on her route and managed by a reorganized company of determined business men, she will prove a success.

This is the second boat christened the "Albany" that has navigated the Willamette, the first being built in 1868 at Canemah by the People's Transportation Company, composed principally of Salem business men her dimensions being somewhat less than the "Albany" of today. J. D. Miller and George A. Pease were her first captains. She operated on the Willamette until January, 1875. At that time she sank on the upper river at the mouth of the famous Long Tom river while in command of Captain Aaron Vickers, who met his death at Oregon City February 13th of the same year from the effects of exposure. At the time she was wrecked a portion of the old boat drifted down to Buena Vista, where it remained on an island for several years. In the spring of 1871 she made eighteen consecutive trips between Oregon City and Eugene, clearing from \$800 to \$1,600 a trip. At that time all freight rates on the river were high and steamboating was a very profitable business.

While the chances for the new boat to coin money are not as favorable as in the days of her namesake, she can be made a valuable feeder to the railroad to which she belongs.

FOSTER'S FORECASTS.

Storm Wave is About to Cross the Rockies.

Foster's last bulletin gave forecasts of the storm wave to cross the continent from the 8th to the 12th and the next he says will reach the Pacific coast about the 13th, cross the west of Rockies country by close of 14th, great central valleys 15th to 17th, eastern states 18th.

Accompanying this disturbance will be a large amount of precipitation and immediately following it the coldest part of the month.

The warm wave will cross the west of Rockies country about 13th, great central valleys 15th, eastern states 17th. Cool wave will cross the west of Rockies country about 16th, great central valleys 18th, eastern states 20th.

The cold wave following this disturbance will increase in severity as it moves eastward and will be most severe in the Atlantic states about 20th.

Months ago these bulletins contained an important forecast to the effect that rain and snow would largely increase over the United States before the close of December. It was also stated that our atmosphere was greatly expanded from the effects of excessive and long evaporation and would collapse by precipitation by the beginning of 1896.

Apply the laws of magnetism to the position of the planets and the reason for this important and successful forecast will readily be seen as also the causes for the April and May drouths of 1896.

TEMPERANCE MEETING.—Thursday evening's special gospel temperance service held in the U. B. church, conducted entirely by Rev. D. Leppert and wife, was attended by a large audience with manifest interest, and many went away from the service determined to join their hearts and influence to rid our city, as well as our land, from the nefarious traffic. Rev. Leppert has no compromise to make with the whisky traffic, nor any of the sins or vices of society today, whether popular or otherwise. The interest manifested in these services both by the Christian people and the public were never more intense than now; and they bid fair to result in lasting good, as many already have confessed Christ and committed their lives to his service. These meetings will continue indefinitely.

DRUMMER EJECTED.—Yesterday's Albany Democrat: A drummer named Hart was ejected from the overland last night because it was claimed he was not the man represented on the ticket. Considerable force was used in getting him off the train and Dr. Davis was called to the St. Charles to attend him. He says he is the man, and that he had his beard shaved after reaching Portland, as he had a right to. He will probably sue the road, and if he was unjustly ejected the S. P. Co. will have a big bill to foot. On the other hand it is said Mr. Hart's eyes are of a different color from those described, and that there are several other differences in description. The case is an interesting one.

WORKING SUCCESSFULLY.—The proprietor of the Cottage Grove-Lemati electric light plant writes that the machinery is running smoothly and satisfactorily. The works were erected by James F. Robinson and C. S. Williams, of the Eugene light works. They are not high priced experts but thoroughly understand the business in every detail. Eugene is to be congratulated to have such men in charge of her plant. The plant at our sister city started in with 30 lights and now they have over 100.

University Items.

Daily Guard, January 11.

Students seem pleased to be back.

Leap year class parties are being discussed.

Several new students have entered this term.

Harry Templeton talked on "Football" at assembly yesterday. As this subject is always interesting to students his remarks were greatly enjoyed.

The business department has been removed to the auditorium and the room formerly occupied by it given to Prof. Barlett.

The opera "Patience" under the direction of Mrs. Linn, will be repeated sometime in March for the benefit of the Athletic club.

Junior Day is approaching and the members of this class are consequently becoming very busy. The program on account of the large number in the class will be different from what it has been heretofore, as but a few orations will be delivered.

Next week the Judges of the local oratorical contest will be chosen and the several orations submitted to them. Rehearsals will also begin and the next four weeks will be exceedingly busy ones for the five orators.

Lloyd Montgomery's Case.

ALBANY, OR., Jan. 9.—Action has been taken by Lloyd Montgomery's attorney, which will, no doubt, prevent his execution the 31st inst. The time had expired in which a bill of exceptions could be filed, but Prosecuting Attorney McCain today signed stipulations extending the time until January 20 for perfecting an appeal. The case will then be appealed to the supreme court and Montgomery's attorney expects a stay of execution until the appeal for a new trial can be heard. The main point upon which the defense will rely in the appeal will be the claim that the court erred in admitting evidence Montgomery's confession before the grand jury.

No credence is placed in the conflicting stories of the murderer for his statement that he only killed McKecher and not his parents. The general impression is that the appeal, if allowed, will only postpone the day of execution.

Teaching Literature.

Salem Journal: A writer in the Willamette Collegian suggests that Oregon is but little represented in the literature of our country and "man point out no one who has gained a national reputation either in prose or poetry." At most Oregon can claim Samuel L. Simpson as the author of "The Beautiful Willamette," a classic of the school readers and found in many collections of verse. It is more than likely Oregon can claim to be the home of Bret Harte and Joaquin Miller quite as well as California.

The offering of a \$500 prize to stimulate some one to produce a meritorious literary work, as is suggested, would not hasten the ripening of any literary fruit on the tree of letters. The study of English literature as such will alone produce men and women of literary tastes and ability. At present the subject is little more than trifled with in our schools and colleges. The subject is worthy of more attention, and aside from Presidents Hawley, of the Willamette, and Chapman, of Eugene, Oregon can scarcely boast of a person capable of even lecturing on the subject.

Patriotic.

Daily Guard January 11.

The New York World has sent dispatches, at its own expense, to every bank in the United States asking these institutions to subscribe to the bond issue asked from the people.

Each of the three banks in Eugene received the following dispatch this forenoon:

NEW YORK, January 11.—Will you kindly telegraph whether as a matter of patriotism you will invest in the new government loan, and to what extent.

THE WORLD.
