A GOOD SHOWING.—At the meeting of the board of regents of the University of Oregon at Portland yesterday, President Chapman reported an attendance of 320 students in the college classes, which shows an increase of 15 per cent over last year's attendance. The entering class numbers 193, while last year it was only 80. There are 10 different cities and towns represented by students at the university, and every county in the state is represented except Lake and Walla. Among the students are graduates from every school in the state where branches above the eighth grade is taught.

AT HALF MAST.—The death of Hon. J. P. Sturgis has cast a gloom in University circles. The flag on the University campus has been placed at half mast in respect to his memory, as soon as the date of his funeral can be ordered. A holiday. Appreciation remarks were made by Prof. Condon in the assembly this morning. Sturgis was known as a warm friend and staunch supporter of the university and his loss is deeply felt.

Th-Tyranny of the Desk.

We will suppose that your occupation is sedentary—that you are chained, so to speak, to the desk in some counting house, or perhaps to the loom in some vast mill where you are compelled to labor from morning till night. Sunday is your only day of recreation. You return home every evening wearied mentally and bodily. Your health and strength begin to fail. What will electrically regenerate your vital energy? The weight of excessive points so on other conclusion than that Hostetter's Stomach Bitters is your safest, most reliable sheet anchor. Use it persistently, and your system will soon regain its pristine vigor. Every function will receive a healthful impulse. There is no remedy to equal the Bitters for nervousness and want of sleep, dyspepsia, constipation and biliousness. It acts and remedies all forms of malerial disease, and is a preventative of rheumatism and neuritis.

THE OREGON FRUIT UNION under recent date sends out a circular letter giving the exact fruit situation at Eastern points as found by its agent, Willis Brown. At Denver he found Walla Walla dried prunes selling at 51 cents, while the Oregon fruit had been selling at 61 to 7 cents, on a basis of 40-50 sizes. Small sizes were selling for 60 cents a bushel, and not in Chicago—market quiet and not in good condition. One firm is quoting Oregon prunes at 51 cents, which allows no encouragement to ship there. At Cleveland, Ohio, Oregon prunes were moving fairly well, at low prices, 6 to 7 cents. At Philadelphia, the market was dull and unsatisfactory. Of New York he says: "New York has had but eight cars this season against 45 last year, and I think some mistake has been made by the shippers who forwarded the fruit here last year, and thus having introduced their prunes, and not following up with shipments this season. A few cars were shipped here from Salem, some very fine blue prunes from J R Shepard and prices on same were 7 cents though the market now is no better than surrounding markets. The Italian prune is still new and I find it has to be sold at less price than the California, in order to introduce it." He closes by saying: "Generally the dried fruit outlook is not encouraging."

## A SUIT FOR DAMAGES.

Dr. L. W. Brown Made Defendant in a Damage Suit.

Daily Guard, February 4.

A complaint was entered in the circuit court this afternoon wherein W H Pool is the plaintiff and Dr L W Brown the defendant. The plaintiff for cause of action alleges:

That on September 18, 1895, defendant unlawfully assaulted and beat plaintiff over the head with a heavy club. From the effects of said beating plaintiff was stunned and his scalp was cut open to the skull in various places, aggregating about 24 inches in length and from one-fourth to three-quarters of an inch in width. That from the effects of said wounds plaintiff suffered greatly in body and mind to his damage in the sum of \$3000. Plaintiff alleges further that by reason of the beating of plaintiff by the defendant as above set forth plaintiff was compelled to incur expenses for medical services and medicines and attention. That such expenses are of the reasonable value of \$75, and plaintiff is specially damaged in said sum of \$75 thereby. Wherefore plaintiff demands judgment against defendant for the sum of \$3075 and for costs and disbursements of action.

Daily Guard, February 4.

AT ASSEMBLY.—This morning at assembly at the university President Chapman addressed the students briefly on the life and character of the late S P Sturgis, of Pendleton. He was not a graduate of any college, but of one of the old-fashioned New England academies. In his business career he was eminently successful. In the city in which he resided he was looked to for counsel in all public affairs and enterprises. He was a friend to everything that was good, and the soul of his home city and of Eastern Oregon, always on the side of right and of true integrity. On receiving the appointment of regent of the university of Oregon, he came to this city and spent a week here looking into the affairs of the institution, acquainting himself with its management and its needs, and went home with a fixed determination to perform his duty well and do all in his power to build up the university and place it in the front ranks of institutions of learning. He was planning great things for us when summoned by a mysterious providence to the world beyond. He was a man who never sought political office, but always did his part as a citizen.

It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Henderson & Linn.

THE MARKETS.—There is no material change in the local markets during the past week. Wheat is still quoted at 51 or 52 cents per bushel, and oats at 29 cents. Good hay is being offered at \$5 per ton. Potatoes remain at 18 cents per bushel. Eggs are down, and quoted at 10 cents per dozen. Quotations on meat are: Beef, on foot, 2c; pork dressed, 3c; mutton \$1.25 to \$2.25 per head; veal dressed, ham 7c; sides 6c; shoulders 5c. There is nothing new in the hop business, there being no market.

It not only is so, it must be so. One Minute Cough Cure acts quickly, and that's what makes it go.

## SUGAR BEET INDUSTRY.

An Effort Making to Establish it in Lane County.

The matter of establishing the sugar beet industry in Lane county has been discussed a number of times. Mr E C Smith, in order to learn what might be accomplished in the way of securing a beet sugar factory, recently addressed a letter to the Western Beet Sugar Company, of San Francisco, setting forth the fact that Eugene is a desirable location for such a factory, that there is plenty of good land available, and that he believed the people here would lend the proper encouragement to such an enterprise, and willingly enter into a five year contract to grow beets for such a factory.

In reply he has received the following letter, which has a good business ring, and from which we can and will hope for something definite in the matter. No time should be lost in doing what we can now to secure this enterprise, and the necessary tests should be made this summer. Following is the reply received from the Western Beet Sugar Company:

SAN FRANCISCO, Feb. 3, 1896. E. C. SMITH, Esq., Eugene, Oregon: DEAR SIR:—In reply to your letter to Mr Claus Spreckels he instructs me to state that before considering the question of establishing a beet sugar factory in any locality he must be satisfied of two things, viz:

1st. That there are 30,000 acres of good, available beet land in the immediate vicinity of the proposed factory. This, in order that 10,000 acres may be planted to beets each year. The land, after raising beets, has to be planted to other crops for two successive years, in order to recuperate.

2nd. That he must have samples of beets, grown from seed imported by us, for testing the machinery from quarter-acre patches here and there all over these 30,000 acres, to assure him that there will be no lack of material on which to work.

We can furnish you seed at 15 cents per pound, the price it costs us to import it from Germany, and the same kind we use at our Watsonville factory.

I enclose you printed instructions for raising beets and will be glad to hear from you again.

Yours Truly,  
E. H. SHILDEN.
