WINS A HIGH HONOR.

Clyde V Fogle, a U of O student, Wins Second Prize in a World Contest. Mr Clyde V Fogle, a member of the Sophomore class of the University of Oregon, has won the second prize offered by the American Institute of Sacred Literature at Chicago, for excellence in New Testament Greek.

Mr Fogle received notice of his success by letter yesterday. It was quite a surprise to him, as he was not expecting to win this year, and reflects credit upon himself and the institution which he represents. Following is the letter received by Mr Fogle from the principal of the institute:

CHICAGO, Feb. 21, 1896. MR. CLYDE V. FOGLE, University of Oregon: MY DEAR SIR:—It gives me much pleasure to announce to you on behalf of the American Institute of Sacred Literature, that you are the winner of the second prize in the New Testament Greek examination of 1895.

I congratulate you very heartily not only upon your winning of the prize but upon your ability to meet this test of scholarship. The examinations were apparently more difficult than the usual college or university examinations upon the same material. I am not authorized to send you to day the check for \$50 to which you are entitled. We shall make these payments April 1.

You will shortly receive the announcement of the next examinations, and trust that your own success will lead you to propagate the scheme in your institution, and to influence others to undertake the work. You realize that our object in offering these examinations is to stimulate an interest in Biblical study, both in the original languages and in the English Bible, among college men and women.

The winner of the first prize was Miss Edna White, University of New Brunswick, Canada. Very truly yours, WILLIAM R. HARPER, Principal of American Institute of Sacred Literature. A NARROW ESCAPE. W. B. Lawler and Alvy Stevens are Very Lucky in Escaping Injury.

BLUE RIVER, Feb 25, 1896. EDITOR GUARD: W. B. Lawler, the Linn county mining man, had a narrow escape while coming up the McKenzie yesterday. While crossing around the shell rock grade, just where the waterfall tumbles down the mountain side into the river, his horses became frightened at the falling water and plunged into the river. Mr Lawler had set out of the buggy before accident to pass the point. Had he remained in the buggy he and Alvy Stevens would have both gone into the McKenzie river. As it was, when the team left the grade, the driver, Mr Stevens made a successful jump for his life.

But the strangest feature of the whole matter was the horses keeping their feet and the buggy remaining right side up, plunged into the wild stream. The horses swam out into the river about 100 feet, then swimming down the stream about 100 yards, suddenly turned again and came to the bank, and walked out of the water, with everything intact. S. It is said, but the shakers because he can't help it is by no means a happy individual. No shaker is person troubled with child and the shaker because he can't help it is followed by no less a plague, namely, burning fever, which is followed by a sensation both that leaves the shaker as weak as a cat, a most unfortunate simile, by the way, as the cat, for its size, is a very weak animal. Alpha Items.

Feb. 24, 1896. Rev Jas Howard preached three excellent sermons here Saturday and Sunday. Miss Milla Howard is visiting relatives and friends here. She taught 41 months of school at the Alpha school house, district 112, last summer.

The la grippe has raged in these mountain settlements in a severe form this winter. But few families escaped. C A Potter has been laid up with it for five weeks. Some ranchers have turned their cattle out on the ranges as in some localities there is plenty of new feed.

We had a mild winter over here in a general way—one and one-half inches of snow. The coldest weather this winter was 21 degrees above zero on one morning only. Last winter 22, the winter before 24. There are a few claims on government land here on Deadwood yet to be taken. Men with families are wanted.

The railroad company had to stand in on their road tax last year for the first time in this district and on two assessments which almost broke the company, judging from the way they demurred. Also a few private individuals. Ye, all the money tax in lieu of work was about \$21. Wild flowers have been blooming here for a week.

Mrs C A Potter had crocuses, pansies and daisies blooming in the yard and unprotected on the 29th of January. Mrs Wm Austin returned from California last week. People here are planting out more orchards each year. They are beginning to see the need of spraying.

The people of this road district—No 89—although poor, with two exceptions, have done 650 days' gratis work on the roads in 1895. They left their homes and camped out to open up the road up by the lake on Lake creek. They did about or little more than \$500 worth of gratis work up there in district 78. The people of district 78 also gave a few days' work on that piece of road, as they claimed to have done enough on the Low Pass road above there. Many of these men have to go out in the valley to earn a grub stake for winter, and went into the winter without a dollar. Yet these same men have families, or over half of them have, and after working out two assessments or four days at the roads, put in an average of 20 days more work. Several went about 55 days. They have done a lot of blasting and have much more to do. They all say that we yet have no road, only a mere track. This district pays but a few dollars money tax; the people are too poor. Yet 25 men have paid about \$1000 at \$1.50 per day in road work. The commissioners' court should never refuse such men a little powder and drills to work with as has often been done. O. K.

\$100 Reward \$100. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure acts internally, setting directly upon the blood and mucous surfaces of the system, thereby destroying the cause of the disease, and restoring the patient strength by building up the constitution and assisting nature to do its work. The proprietor has so much faith in its curative powers, that he offers One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. F. J. CHENEY & CO., Toledo, O. THE TAX ROLL.

Sheriff Johnson Tells Why He Sent It Back to the Clerk for Correction. Daily Guard, February 27. Sheriff Johnson was seen today by a reporter and talked freely upon the tax roll question which, since being sent back to Clerk Jennings for correction, has caused so much comment. Mr Johnson refused to be interviewed on the matter as he did not wish to rush into the newspapers, thereby giving the matter already gained widespread publicity from other sources, out of justice to himself, he was willing to state just why he sent the rolls back to Mr Jennings and also to show that he had good reasons for doing so and in fact had no other alternative.

He stated that in making tax collections in volume No 1 of the tax roll (extended by W T Eakin) his deputies found 27 errors in 43 consecutive pages beginning with the first of the book. These errors ranged in amount from one cent to twenty dollars. In volume No 2 (extended by Miss Mattie Jennings), they found four errors in 11 consecutive pages, but not in the first part of the book. These errors ranged in amount from 19 cents to 94 cents.

In view of the fact that there was considerably over \$100,000 to collect for the county, Mr Johnson did not care to continue receiving for the county, using as the basis for his work books which were so full of errors. He had no desire to injure Mr Jennings or his deputies and wanted it distinctly understood that his action in this matter was no campaign mud slinging affair. He talked straight to the point and stated that none regretted the matter more than himself, but he thought the blame ought to rest where the mistakes were made and as that was in the county clerk's office and as Mr Jennings was the chief officer he had no alternative but to return the books to him. He thought owing to the great number of errors the books contained it would be impossible to continue tax collections until the corrections were made. People who came in to pay their taxes, should find no fault with an error in them, would attach the blame to the sheriff, and he did not care to be held responsible for so large a number of mistakes. Of course some mistakes were bound to appear in a work of that size and he was willing to overlook any reasonable number, but did not consider the number which he found within the bounds of reason.

Mr Johnson realized the injury that would be done to Mr Jennings and Mr Eakin were the matter given publicity and before returning the books to Mr Jennings went to Mr Eakin and informed him of what he intended to do. He had no desire to give the matter publicity and would have gladly kept it quiet had it been possible to do so. He stated that he simply did what he believed to be his duty under the circumstances. D W Coolidge is still at work on volume No. 1 of the tax roll, extended by Mr Eakin. The entire volume will have to be corrected, but will probably be finished by Monday, so that the sheriff can resume tax collections at that time. Mr Coolidge was seen today by a reporter and he declined to give the result of his work to reporters as he had received instructions otherwise.

Joel Ware, who has been making an investigation of volume No. 2 of the tax roll, this morning returned that book to County Clerk Jennings, not considering it necessary to make further investigation of the book. The following certificate accompanied the book: EUGENE, Or., Feb 27, 1896. I Joel Ware do hereby certify that I have thoroughly examined 70 pages, being about one third of Volume 2 of Lane county tax roll for the year 1895, and have calculated the extensions made thereon, by Mattie Jennings, and have discovered but few minor errors, not of sufficient importance in my opinion, to justify further examination of said roll; and I consider said roll to be reasonably correct. I found errors against the county \$3.12; in favor of the county \$3.20. JOEL WARE.

DIED.—Roy Vaughan, son of Levi Vaughan, at Ivison, Feb 22, 1896. The little fellow had been bothered with his head for some time, and about a month ago he began to grow worse, and the last week of his life was one of intense pain and misery. He leaves his father and three brothers to mourn his death. They have the sympathy of the entire neighborhood in this, their sad loss. Little Roy was a bright and obedient boy liked by all who knew him. He will be greatly missed at home and school by his playmates among whom he was a great favorite. A FRIEND.

Daily Guard, February 27. DIED.—Mrs. F M Smith, the widow lady of Coburg who has been suffering with diptheria, died yesterday evening from the effects of that disease. Daily Guard, February 27. BURGLARY AT IRVING. The Store of A. Bond & Son Entered Last Night and \$200 Taken. Daily Guard, February 27. The general merchandise store of A Bond & Son at Irving was broken into to some time during last night and \$200 in money taken from the safe and a pair of shoes from the stock of goods.

Three suspicious characters were seen at Irving last evening and Engineer Jack Evans remarked to Mr Bond that if "any robberies are committed tonight they can be laid to these individuals." Acting upon this suggestion Mr Bond did not fasten the combination of his safe, as he felt confident that should expert burglars enter the store and find the safe locked they would break it open, while an amateur would suppose the safe to be locked. Mr Bond was evidently right in his surmises, for the burglars had come prepared to break open the safe, having armed themselves with all the necessary tools, which they had procured from an adjoining blacksmith shop.

The burglar or burglars effected an entrance to the store by prying open the front door. They then proceeded to the safe and opening it took out \$200, all it contained. Of the money \$15 was in silver coin, — in green backs and the balance gold coin. Besides the money a No 38 black, square cut coat and a pair of No 8 congress shoes were taken. The shoes contained a horsehair brand on the sole made by driving tacks into the sole.

The three suspicious looking characters seen last night are suspected of having committed the robbery. They belong to a class of hobos who are traveling north. Constable Linton of this city went down today and will do what he can toward getting a clue to the robbers. THE GYPSY. She is On Her Way to Eugene. M Svarverud, local agent of the steamer Gypsy at 3:59 o'clock this afternoon received the following dispatch: HANSENBERG, Feb. 27, 3:52 p m.—The steamer Gypsy leaves here at 4 o'clock today with 40 tons of freight for Eugene, and will return as soon as unloaded on arrival, and bring up balance of freight here. Daily Guard, February 27. AT THE CANNERY.—Nine men and three women are employed at cannery today packing prunes. Yesterday 16,000 pounds were packed in 50 and 25 pound boxes, most of them being in the latter size. The average all day yesterday was one box per minute. All the work is performed at the cannery. The lumber for the boxes is white fir and is furnished sawed ready to be nailed into boxes, by the Eugene Lumber Company. The boxes are nailed together by men, after which the women fill them with the dried fruit, which is then tightly pressed into the boxes by means of a hand press, and the lids nailed on. The boxes are neatly labeled and are then ready for shipment. Eight thousand pounds of prunes have just been purchased from Mr. Weider by Messrs. Hall & Son and will be packed and shipped. This will make a total of over 70,000 pounds. The work of packing will last for several days yet. J W Pierce, Republic, Ia, says: "I have used One Minute Cough Cure in my family and for myself, with results so entirely satisfactory that I can hardly find words to express myself as to its merit. I will never fail to recommend it to others, on every occasion that presents itself." OSBURN & DELANO.
