This year—'96—is right side up whichever way you turn it. Upside down and bottom side up it is still '96. As we will have no year like it for a century, when few of us will be here, this must be the year for a boom.

The closing of the abattoir at Linn-

ton is another slap at the horse. Living or dead, in cans or packages of fertilizer, he is without a place in the estimation of man. There seems nothing to do but for the horse to retire from business and consider his usefulness over.

The sale of the realty in the Job bank concern, at Corvallis, has been confirmed and the result will place it, it is said, about \$25,000 in the receiver's hands, which will be distributed about the 10th of March, and will amount to about a 12 1/2 per cent dividend upon the claims.

If there is any truth in the old adage that when March comes in like a lion it goes out like a lamb, we may look for some fine weather a little later on. March came in this time with a fall of dry snow and freezing weather that savored of genuine winter. The previous warm weather was starting fruit blossoms very rapidly, but few if any varieties of fruit trees are far enough advanced in budding to be damaged. A few peach trees may suffer somewhat.

The ladies under whose auspices the recent benefit for the Free Reading Room was given desire to express their sincere thanks and appreciation to Prof. Bright, Miss DeLamunt, Mrs Linn, Miss Condon and Miss Vezler for the excellent and successful programme rendered; to those who so kindly took part in the programme; to the editors of both daily papers; the orchestra, and to all other who so cheerfully assisted in every way possible to make the benefit a success.

The Chinese Lily which has filled with perfume so many of our residences is just going out of bloom, and many ladies will want to know what to do with them. Mrs A J Goodman, of Independence, writes to the West Side, who is an authority on flower culture in that section, says to plant them in the garden and the bulbs will multiply, and two years from now the new bulbs will bloom. Thus our flower lovers can have their own bulbs without buying them.

The public spirited people of Eugene have again manifested their loyalty to the Free Reading Room. Eight or ten years ago the W C T U, realizing the need of such a place, furnished and opened to the public a room that soon emerged into the pleasant and comfortable rooms that are now in the Conser block.

There is no doubt that comparatively few of the people of Eugene realize the magnitude of this work; but few know that the average daily attendance is from 40 to 45 persons. Yet they know that this is worthy and that a free reading room is essential to the moral and intellectual improvement of every town, and whenever called upon either individually or collectively to assist financially or otherwise they respond.

The ladies are pleased and gratified to announce that the net gain from the recent benefit is \$76.90. They consider it an expression of the interest and appreciation the people have in the reading room cause.

The demerit system has been repealed. Of course it is not reasonable to suppose from this that class marks have been abolished, it simply means that students when absent from recitation or account of sickness will not be marked zero.

The defeat sustained in the state oratorical contest only inspires the students with added determination to win next time.

A DOUBLE ALLEY.—H H Stickey has leased the room in the Christian building on Ninth and Willamette streets and will open up a bowling alley. He intends to put in a double alley and expects to have it completed in two or three weeks. AN OREGON STUDENT.—Albany Democrat: Eugene and the State University have reason to be proud of the success of Clyde Fogle, of that city, in winning the second prize of the American Institute of Sacred Literature for excellence in New Testament Greek, against many competitors. The wonderful success of Oregon students has been commented upon by the Demo-

crat.

The farmer of Umatilla county are suffering from a squirrel pest. The East Oregonian says: Squirrel destruction has gone on for many weeks and the farmers have succeeded in killing countless thousands of the pests. The weather has been favorable to the farmers but extremely fatal for the squirrel. The early opening of spring and the consequent coming out of the squirrels when the cold snap came and now the snow, which fell Friday night, has, no doubt, done away with a great many others. In case vigilance is exercised from this time on, at least in part of the county, the crops can be saved from any damage of consequence.
