

Eugene City Guard.

SATURDAY, MARCH 14.

GLASS.

There was once a time when glass was used only for window panes and mirrors, but since then it has developed into many different fields.

Glass rails are also produced by this same toughening process. It is, therefore possible to have a complete glass railway.

An enterprising manufacturer of glass at Liverpool has succeeded in advertising his business in a very clever manner. He built a factory of glass bricks, and laid it with a heavy glass floor.

One of the very latest uses for glass is in filling teeth. This method is said to be particularly effective with the front teeth, where it is less conspicuous than gold.

ENGLISH.

English has changed more than any other language. Regarded merely as Teutonic language. It is farthest removed from the parent stock.

Greek has changed least. Any one who wishes to satisfy himself of the truth of this statement need only take down four authors, like Herodotus, Plutarch, Anna Comnena and Trikupl.

BLACK RAIN.

The meteorological records of the world chronicle several instances of this phenomenon. One would always like to see these things for oneself, however, before accepting them as gospel truth.

Sheriff Johnson claimed that the tax roll was a mass of errors, and refused to proceed with the collection of taxes until it was "expedited and corrected."

- Girl a wheel, Bloomer girl, Struck snag, Took whirl, Bloomers tore, Girl flushed, Men laughed, She blushed, Wise man, Knew what, Husted 'round, Barrel got, In barrel, Got she, Walked home, Te, he!

One Minute Cough Cure touches the right spot. It also touches the right time if you take it when you have a cough or cold.

Notice of Primary Election.

Notice is hereby given that on the 21st day of March, 1896, between the hours of 1 o'clock p m and 6 p m of said day a primary election will be held in South Eugene No 1, South Eugene No 2, North Eugene No 1, and North Eugene No 2, for the purpose of electing delegates to the Democratic County Convention to be held in Eugene on Tuesday, April 7, 1896.

The polling place in South Eugene precinct No 1, will be at the Rowland shop on Eleventh street, in said South Eugene precinct No 2, and H D Norton, Sydney Scott, and J P Ramsey will be the judges of said election.

The polling place in South Eugene No 2, will be in Coleman's building, corner 8th and Olive streets, upstairs, and the judges will be Ashley Stevens, Edris Matlock and Wid McGee.

The polling place in North Eugene precinct No 1 will be in the City Hall and J W Cherry, G W Kinsey and George Croner will be the judges of said election.

The polling place in North Eugene precinct No 2 will be the McFarland building on the North side of 8th street, between Charnelton and Olive streets and the judges will be Geo A Dorris, W B Andrews and M S Wallis.

The number of delegates to be elected at each primary election as fixed by the county central committee is as follows: South Eugene No 1.....3 South Eugene No 2.....3 North Eugene No 1.....3 North Eugene No 2.....3

Dated at Eugene, Oregon, this 10th day of March, 1896.

F. C. MATTESON, Secretary Dem. Co. Cen. Com.

ARE YOU SUPERSTITIOUS?

Look For Your Natal Month and See Yourself as Others See You.

An English authority is responsible for the assertion that a man's destiny depends upon the month of his birth.

A man born in January will be a hard worker, a lover of good wine, a fine singer, a manager of great enterprises. A woman born in that month will be affable; will have domestic tastes, and will be capable of great endurance.

The man born in February will love money, but not women. He will be stingy at home, but prodigal abroad. The woman will be an affectionate wife and a good mother.

The man born in March will be handsome, honest and prudent. Yet he will die poor. The woman will be tall and stout and witty.

The man born in April will not necessarily be a fool even if his birthday is the day next after March 31. The woman will be a chatterbox and will have advanced ideas. She will be a leading member of the shrieking sisterhood.

The man born in May will be amiable and will make his life partner happy. The woman will equal him in amiability and the other above named desirable qualities.

The man born in June will be of small stature and very fond of women and children. The woman will be flighty and a high liver, but will repent and sober down at 40.

The man born in July will be of military tastes, a trifle pompous, but a good fellow withal. The woman will have a sulky temper; she will pout and be handsome.

The man born in August will be ambitious and courageous. The woman will be what Americans call capable. She will be equal to running a farm or editing a newspaper.

The man born in September will be strong and wise. He will make few mistakes and live and die rich. The woman will be loved by her friends; have many suitors and die an old maid.

The man born in October will write poetry when young. Then he will dabble in politics and wind up as a reformer. The woman will be pretty and late in life an apostle of total abstinence.

The man born in November will have a fine face, great address, and if not careful he will be a gay Lothario. The woman will be large, liberal minded and fond of novelty and novels.

The man born in December will have a passionate temper, yet will be the first to forgive. The woman will be a Lady Bountiful to the deserving poor, but a terror to tramps and the willfully unemployed.

Fashionable Photography.

The scene is a photograph gallery on Fifth avenue. The dramatics persons are the young woman at the office desk and a lady caller. The other woman says: "I am sorry, but Miss Vanderbeck has chosen this hour for her sittings and made an appointment. Had you an appointment? No? Sorry, but it is the only safe thing to do. Then you cannot be disappointed. Let me put you down for tomorrow at—ah, this is Miss Vanderbeck now."

Atmospheric Pressure.

The science of atmospheric pressures has been the subject of various and valuable experiments by Professor Asman at Charlottenburg, near Berlin. Recently there was sent up a small balloon provided with improved automatic registering apparatus designed to reproduce automatically the figures indicated by the barometer and thermometer at various heights.

The balloon, it is related, first started off in a northeast direction, veered suddenly to the northwest and finally landed in good condition in the district of Zvornik, on the Servo-Bosnian frontier, after a voyage of 11 hours, and, since the distance between the two points is about 600 miles, the velocity of the balloon was without counting curves, nearly 60 miles an hour.

At the moment of starting the thermometer marked 17 degrees, and the barometer stood at 76 mm. The extreme figures noted by the apparatus during the voyage were, for the temperature, 52 degrees, and for the barometric pressure 55 mm, this latter reading denoting an altitude some 10 miles and 546 feet, such low pressure, it is stated, not having been suspected hitherto at the altitude above named.

Natron Items.

March 9, 1896. C L Smith made a trip to Eugene last week. Ed Reese was in our midst last Friday night.

J W Smith and wife spent Saturday night at Thurston.

Mr H Keeney from Jasper was in our midst last Sunday riding his valuable horse.

Levi Castleman reports losing a \$10 gold piece.

There will be a private dance given at the Natron hall soon.

Byron Smith was the guest of A R Smith last Sunday.

Prof S A DeVane made a business trip to Eugene Saturday. He is now teaching a very successful book keeping class. Those in the class are: Ollie, Dollie and C L Smith, Myron Wallace and J F Russell.

Jasper Whittings.

Fair weather at present.

J B Young sold a fine lot of beef cattle this week for the market.

Ventch and Drury are cutting wood again after a few days vacation.

While two drummers stopped at J M Keeney's store their horses became frightened and tried making their escape, but were soon surrounded by a lot of bystanders.

P S Hill's little boy while in the blacksmith shop got a piece of steel in his eye. He was taken to Eugene and Dr Kaykendall soon removed it.

The bids for the school house wood opened Saturday. Chas Eaton was the lucky man.

The report is on Pleasant Hill, that "Moses" had better keep his eyes open when measuring calico by the piece.

DOGGER.

A NOVELIST'S BLUNDER.

Forgot He Had Killed Off A Character and Had to Resuscitate Him.

A great master of the art of throwing off stories by daily installments was Ponson du Terrail. When he was at the height of his career, he kept three running at the same time in different papers.

When a character was settled off, the little man or woman in hand was taken away from his companion and laid aside.

One day when Ponson du Terrail was all behind in his work, he set himself to his task without examining the slain. His bad memory led him into a terrible blunder. He had forgotten that he had killed Rocambole—the still famous Rocambole—in the previous feuilleton, and, to the great surprise of the reader, he made him talk again as if nothing out of the common had befallen him.

The modern astronomical principle on which stars are classified—namely, the resemblance and difference between their spectra—and the revelations characterizing this remarkable phenomenon, have led to various attempts to indicate the stage of advancement attained by each particular orb in its life's history or development.

Monday at Berkeley, Cal., Robert Edgren, the well known hammer thrower, set the world's record for throwing the 16 pound hammer. He threw the missile 147 feet and 7 inches.

The world's record was formerly 145 feet, and held by Mitchell of the New York Athletic club.

Parks' Tea clears the complexion. Mrs. N. M. Meyette, of Le Roy, N. Y., says: "I have used Parks' Tea and find it the best remedy I have ever tried. Sold by A. YERLINGTON.

Baker City Democrat: On this morning's train from the west, the arrival of Mrs. Ella Houston, grand child of the Bathbone Sisters of the World, is expected. The holy will visit Hermon Temple this evening. Returning to Union Wednesday the Grand Child will institute a lodge at that place.

Salem Statesman: The citizens are petitioning congress to allow the continued opening and improvement of the road across the Cascade mountains known as the McKenzie route.

The following anecdote brought down from Hood river by Mr Will Langille, is given for the benefit of the few old timers who can understand and appreciate it: Mr Langille, meeting an old Indian going fishing on Sunday said to him, "Jim you old sinner, why don't you go to church?" To which Jim replied, "Wake nika tikee klatawa kopa church house. Okok man halo kumuxu sabah tree. Tet man mitwit halo, halo, halo. Tet as kioetloman hitu sing, sing, sing. Sitwah pollatoh, chikamit, chikamit, chikamit. Wake nika tikee. Nokwa stams."—St. Helena Mist.

Frenchmen, who, as is well known, are particularly fond of soup, are dismayed by finding that food of Europe is the cause of all the flat dyspeptic nature is heir to. According to him, the practice of beginning dinner with soup causes a distention of the stomach that is fatal to the process of digesting the solids which follow. Moreover, as if this were not bad enough, the same writer declares that there is little or no nourishment in it, and that as it is usually eaten very hot, it injures the enamel of the teeth.—London News.

Can any man or woman choose their birthplace? No more than they can choose their birthplace or their father and mother.—George Eliot.

WALL PAPER : 12 CENTS. PAINTS : : : \$1.50 and everything else in proportion at OVERTON'S TAKE LIVERINE FOR THE LIVER AND CONSTIPATION. For Sale by All Druggists.

PLOW SHOES.

ALL KINDS. ALL PRICES.

A few boots left yet at a big reduction.

Just The Thing You Want For Plowing. YORAN & SON The Shoe Dealers.

FLORENCE NOTES.

C. D. Thomas (dangerously ill)—Col. Alley Will go to Baker City Soon.

Work on the schooner, which is building at Acme, is progressing rapidly.

Born.—At Florence, Oregon, on March 7, 1896, to Mr and Mrs Wm Saffey, a son.

The population of Florence is greatly depleted, as many of its inhabitants are in Eugene attending court.

Two schooners were sighted Monday morning just outside the bar bound for this port. The tug is still at Yaquina awaiting favorable weather so she can tow a schooner into Alsea bay.

Mr C D Thomas, who is well known in Eugene, is quite ill. He is suffering from the effects of a severe rupture, caused by trying to lift a heavy log while on his Idaho farm, some five miles.

On Monday morning, March 9, a novel sight was afforded the people of Florence. It was the moving of the house of Capt. Cox on a scow from West Florence to Acme, a distance of three miles.

It is now a certainty that Senator Alley has sold The West, and the party buying has not fully decided whether to remain here or move the plant to another town.

Mr Mack Holbrook, of Dexter, is here this week looking after the interests of his saw mill. He is planning to build a handsome mansion on his farm near this place this summer.

A W Jones has bought a piece of land of H H Hammett near here on which he will build the neat future Lester Jacoby, of Jasper, is attending this week. He seems to manifest quite an interest. Ask Hattie.

Miller Blackburn has sub-contracted his mail route from Lowell to Hazel Dell to Arthur Ventch, and he will take charge of the Springfield Lowell route, of which Mr Clark is now in charge.

Give me a liver regulator and I can regulate the world," said a genius. The druggist handed him a bottle of DeWitt's Little Early Risers, the famous little pills.

Karl's Clover Root, the great Blood Purifier, gives freshness and clearness to the complexion and cures Constipation. 25 cts., 50 cts., \$1. Sold by Henderson & Linn.

Monday at Berkeley, Cal., Robert Edgren, the well known hammer thrower, set the world's record for throwing the 16 pound hammer. He threw the missile 147 feet and 7 inches.

Parks' Tea clears the complexion. Mrs. N. M. Meyette, of Le Roy, N. Y., says: "I have used Parks' Tea and find it the best remedy I have ever tried. Sold by A. YERLINGTON.

Baker City Democrat: On this morning's train from the west, the arrival of Mrs. Ella Houston, grand child of the Bathbone Sisters of the World, is expected. The holy will visit Hermon Temple this evening. Returning to Union Wednesday the Grand Child will institute a lodge at that place.

Salem Statesman: The citizens are petitioning congress to allow the continued opening and improvement of the road across the Cascade mountains known as the McKenzie route.

The following anecdote brought down from Hood river by Mr Will Langille, is given for the benefit of the few old timers who can understand and appreciate it: Mr Langille, meeting an old Indian going fishing on Sunday said to him, "Jim you old sinner, why don't you go to church?" To which Jim replied, "Wake nika tikee klatawa kopa church house. Okok man halo kumuxu sabah tree. Tet man mitwit halo, halo, halo. Tet as kioetloman hitu sing, sing, sing. Sitwah pollatoh, chikamit, chikamit, chikamit. Wake nika tikee. Nokwa stams."—St. Helena Mist.

WALL PAPER : 12 CENTS. PAINTS : : : \$1.50 and everything else in proportion at OVERTON'S TAKE LIVERINE FOR THE LIVER AND CONSTIPATION. For Sale by All Druggists.

To the Citizens of Lane County. Again we ask you to buy Home Made goods if as cheap and good as foreign made.

We have for the past year, and will for this year, sell you Home Made tin ware cheaper than Any Dealer in Lane County, and of a much Better Quality, and our tinners buy their living at home; why not you buy Home Made goods? In Hardware and Stoves we are willing to work cheap for ready pay.

Thanking you for past favors, we ask a continuance of your patronage—in the Old Fellows building, opposite G. & H. office.

GRIFFIN HARDWARE CO. DAY & HENDERSON, Furniture and Undertaking, 7th and Willamette Streets.

Creswell Casualties. March 12, 1896. Tom Brown is now in Oakland, Cal. L W Riggs started Monday for Juneau, Alaska. George Petty has taken another girl to raise.

Henry Parsons has taken to the trade of a blacksmith, working with W P Lower.

R D Hawley and I W Franklin spent Sunday at home, returning to court Monday.

Rev M O Brink spent last Sunday at Cottage Grove instead of Goshen.

There is considerable talk of dividing Cloverdale school district and building a school house near George Petty's, where the necessary grounds will be donated. Such a change is needed as there are children in that part of the district who are denied schooling because of the distance.

Mr T C Martin's wife arrived from California last Sunday and they are now keeping house at Vess Kelsay's place during the absence of Mr Kelsay and family. Mr Martin is improving the place owned by his brother, the late C M Martin.

B S Kelsay and family left for Fossil, Or., Monday morning where they will reside for some time to send their children to school. Vess intends to dispose of some of his real estate and in case he can sell the home at this place he will move permanently to Eastern Oregon. He has made some first-class improvements on his property here since buying it.

The question of a new addition to our school house is being discussed with considerable interest. It is a fact that we must either have more school room or abandon the hope entertained by all progressive citizens of a school that would not only keep considerable money in tuition fees at home but bring many here from other districts whose tuition would help support the home school. Our school must either progress or go the other way, for there is no possibility of improvement if confined to insufficient room.

Unit Items. Mr Henry Howard and Miss Daisy Hogan were married at the U B parsonage Sunday evening. Rev Miller officiating. They are excellent young people and we wish them a happy and prosperous life.

Rev Wolf is still holding revival services at this place with good interest manifested. The meeting will hold until Sunday evening. Rev Miller is assisting in the meeting.

A burglar entered the home of H C Morgan at Winberry last week and took about all of his groceries. There is no clue to the thief.

Miller Blackburn has appeared again in our midst. His boy will come up soon.

Mack Holbrook, of Dexter, is here this week looking after the interests of his saw mill. He is planning to build a handsome mansion on his farm near this place this summer.

A W Jones has bought a piece of land of H H Hammett near here on which he will build the neat future Lester Jacoby, of Jasper, is attending this week. He seems to manifest quite an interest. Ask Hattie.

Miller Blackburn has sub-contracted his mail route from Lowell to Hazel Dell to Arthur Ventch, and he will take charge of the Springfield Lowell route, of which Mr Clark is now in charge.
