### THE GREAT HUDDYAN

It is said in Philadelphia, which seems to be the headquarters of the free coinage of silver party in the east, that unless the republican convention shall adopt a bimetallic plank, 15 to 1 ratio, there will be a bolt, and that the silver candidate for president will be either Senator Teller of Colorado or Wharton Barker of Philadelphia.

Notwithstanding the protest of the American Forestry Association, the commissioner of the general land office, has made an earnest recommendation that the petition of the Oregon's delegation to the president for a reduction of the Cascade timber reserve be granted. The application now goes to the secretary of the interior for his consideration, and then to the president. The people of Oregon will hope to see this reserve reduced to a reasonable size.

Jacksonville Times: "This part of Oregon, which is considerably interested in the withdrawal of the Cascade timber belt from settlement, will be surprised to learn that the State Board of Land Commissioners protest against the opening of the greater portion of the Cascade reserve to settlement. The President's proclamation was entirely too sweeping, and will prove detrimental to public interests in more ways than one." We can hardly believe that Governor Lord, Hon. H. R. Kincaid and Mr. Irwin, the land commissioners, would interpose their objections to just relief to our people.

### STATE DEMOCRACY AND SILVER.

Three democratic county conventions have thus far met in Oregon, and each have declared in no uncertain language their position on the silver question. Here they are:

#### CLATSOP COUNTY.

The Clatsop democrats resolved emphatically as follows: "Be it resolved, First—That the democratic party of Clatsop county favors the free, independent and unlimited coinage of silver at a ratio of 16 to 1.

"Second—That as this issue overshadows all others before the American people at this time, and its immediate settlement is a matter of the most extreme importance, we believe that the platform to be adopted at our state convention to vote for delegates to the National convention should favor such coinage."

#### MARION COUNTY.

"Resolved by the democracy of Marion county in convention assembled: "First—That we favor the money of our fathers—the money named in the constitution—gold and silver; that we are in favor of the free and unlimited coinage of both metals; that each should have the same purchasing and debt-paying powers, and this without reference to any convention or agreement between the United States and foreign powers.

"Second—That the delegates elected today to represent Marion county in the state democratic convention be and are hereby instructed to use their best endeavors to secure the adoption of the above or some similar resolutions by the state convention as a part of our state platform."

#### POLK COUNTY.

The democratic county convention of Polk spoke as follows: "Whereas the present depressed condition of the country and the shrinkage of values are mainly due to the financial system which has controlled the country for more than twenty years past, the democracy of Polk county in convention assembled, believing that the money question is the paramount issue before the people, hereby declare ourselves as unalterably opposed to the single gold standard, and demand the immediate return to the constitutional standard of gold and silver by the restoration by the general government, independently of any foreign power, of the unrestricted coinage of gold and silver into standard money at the ratio of 16 to 1, and upon terms of exact equality as they existed prior to 1873, the silver coin to be a full legal tender equally with gold for all debts and dues, public and private, and we denounce all discrimination by the government against the gold or silver currency of the country. We demand that the secretary of the treasury shall coin into standard silver dollars, as soon as practicable, all the silver bullion now in the treasury of the United States, which represents the silver seigniorage or coinage profit to the government, also all silver bullion that may hereafter be offered for coinage."

#### MARRIAGE LICENSE.

A marriage license was today granted to Ludwig Christensen, aged 21, and Mary L. Seeley, aged 18, both of Florence.

#### AYER'S Sarsaparilla

ADMITTED READ RULE XV. "Articles that are in any way dangerous or offensive, also patent medicines, nostrums, and empirical preparations, whose ingredients are concealed, will not be admitted to the Exposition."

Why was Ayer's Sarsaparilla admitted? Because it is not a patent medicine, not a nostrum, nor a secret preparation, not dangerous, not an experiment, and because it is all that a family medicine should be.

At the WORLD'S FAIR Chicago, 1893. Why not get the Best?

#### DOGGER.

THE CREAMERY—Mr S E Craig, the creamery man arrived here yesterday and will commence the work in a few days of erecting a building and putting in a plant. He has secured a vacant lot on the south side of Eighth street, between Olive and Charlelot, and will erect a building about 34x40 feet in size. Mr Craig expects to have the creamery in operation by May 1st. He expects his family here in a few weeks and also his son, Wm Craig, of Hillsboro, who will be associated in the business.

#### BLUE RIVER MINES.

Brownsville Times: DeWitt Roberts, who has been employed at the Lucky Boy mine for the past two months, returned home Thursday morning. He reports work progressing nicely, and says the tunnel is in about ninety-five feet. Considerable snow has fallen and there is about two feet at present at the Lucky Boy cabin.

#### PROF IRWIN'S VISIT TO THE UNIVERSITY.

EUGENE, Or, March 17.—Hon G M Irwin visited the University of Oregon today and thoroughly inspected the departments and laboratories. He expressed satisfaction with the progress of the institution and the rapid growth of its attendance. In his opinion, the university is greatly encouraged, and should have more space as soon as the financial situation improves. The present attendance of 320 seemed to Professor Irwin remarkable, considering the hard times. Professor Irwin will preside at the educational convention to be held at the university in May.

#### WHY NAMED.—Albany Democrat: Mr W B Lawler, who has the post office at the Santiam mines is named Media after an old mining companion; but the name was so much like Mebama in appearance that they refused to use it, hence he had the name reversed so as to read backwardly, Aniden.

#### Lancaster Items.

H W Ross of Lancaster will be a candidate for justice in this district on the republican ticket.

Floyd Howard is taking down the post and wire from one of his 12 acre hop yards, which is an indication of a good wheat crop the coming season on hop land.

There will be only 5 acres out of 29 cultivated on the Tibbet hop yard. The remainder will be sowed to grain.

There is no prospect for much better prices for hops next fall.

Hurray for Skipworth for county judge.

Jesse Lawrence is down from Eugene, having come on his wheel. There were several boys from the city down this way last Sunday.

Mr Matt, of Junction, was out at this place for a load of wood last week. Some one had put poison out and his dog got a dose and died. He valued the dog at \$50.

The spring term of school commenced at this place Monday.

The Sunday school is improving every Sunday.

Where is the Pleasant Hill correspondent. We would like to hear from there.

James Howard will go to your house for your poultry and pays cash.

Geo Carson has the lung fever. He should have good attention as he is one of the best to go and wait on the sick. Dr Artman of Junction is the attending physician.

Mrs C D Coffman is visiting in Eugene at the home of her daughter Mrs L A Wheeler.

The name of L L Judson was elected director instead of Dodson.

W H Spangh has rented his hop yard to the Barons Bros and a portion of it will be put to grain.

Theo Hammeady has been very ill and was taken to his parents on Lake Creek last week. His brother Jesse saw the news in the GARD that his brother-in-law was killed by a saw log. He started there immediately to see his sister.

I will name Mr Merritt Castell for constable in this precinct. How is it?

The populists and democrats will put out a ticket for justice, perhaps fuse.

George Carson has concluded not to rent his place this year.

C J Tibbetts writes from California that he is receiving \$2 a day.

Alex McFadden is having quite a lot of work in the grubbing on his farm.

### THE SNAKE BOAT CORVALLIS.

Another Unsuccessful Attempt Made to Release Her.

Daily Guard, March 15.

Yesterday afternoon, the snake boat crew with the aid of the steamer Three Sisters made another unsuccessful attempt to release the snake boat Corvallis from her present perilous position.

With all the appliances used the boat was started but just at this important moment, the double six inch hawser parted, and therefore another failure was recorded.

Captain Fish, the Portland government engineer, who is in charge of the improvement of all the rivers in the Northwest, arrived here on the afternoon train, and immediately, in company with Captain Hatch left for the scene of the snake boat.

Another attempt will be made to pull the boat off, and if unsuccessful, she will probably be abandoned, after removing her upper deck. It will be impossible to remove the machinery until in the summer when the water is at its lowest stage.

#### A COUNTY EDITOR'S LUCK.

There is an editor of a country paper who comes to Spokane quite often, says the Review. His home is not many miles away, and with an editorial mileage-book in his pocket and a sack of flour for some of Spokane's pleasures he manages to make the visit at least twice a month. A short time ago he was up on one of these bi-monthly trips, "strictly for business" when, meeting a few congenial friends, a social game of poker was proposed. The editor, being a country editor, was not overburdened with coin, but he was not averse to invest what he had in the game. It was in the afternoon when they started in and by supper time the editor, together with a couple of his friends, were cleaned up, and a good-natured young man, who is doing the mining act, had all the money. As they walked out of the room the mining man turning to the editor and deeply pitying his condition, said:

"How much is that paper of yours? I think I will subscribe—seeing you're busted."

The answer did not come, as attention was distracted, and the mining man, with all the money, went to the theatre that evening. The editor in the meantime had done some A. I. work and was ready to get in another game. The mining man was willing and "with a naughty little twinkle in his eye" sat down at the table. It was only a little after midnight when the game broke up. The mining man and his two friends hadn't a cent left, while the suave editor carried in his pocket gold, silver and greenbacks. As they walked out of the room the editor looking at the downcast miner, said:

"Say, what is your address? I'll just send you that paper gratis—seeing you are busted."

#### A SON'S DOINGS.—Salem Statesman:

A sad piece of news is awaiting the aged grandfather and mother of Herbert Ringland, a young man now in the Oregon penitentiary for seven years under sentence of robbery. The family of Ringland, back in the Eastern states, have not for years heard of the boy who came West to make his fortune, but got a long job in the penitentiary. When the young man got into trouble and was convicted of robbery, he was desirous of keeping his fate from his family. A letter has been received by Sheriff Sears of Multnomah county, who is requested for a despatching mother's sake to try and find some traces of young Ringland. The writer speaks of a 97-year-old grandfather, who is extremely anxious to hear about the boy, and they say they have been on a search for him for a long time. With great reluctance the sheriff has replied to the letter, giving the address of the mining man as the state penitentiary at this city.

#### STOLE A BOAT.—Some individual whose name has not yet been learned by the officers here stole a skiff from the vicinity of the river bridge Monday night, and left down the river in it. The boat belonged to a Mr Hillman and he notified the officers as soon as it was missing. Constable Linton sent word to Sheriff Dave Osburn of Benton county to keep a lookout for the boat. Mr Osburn did so and succeeded in capturing the boat thief at Corvallis this morning. Constable Linton will go down after him on tomorrow's local train.

#### FREE CONCERT.—Last evening at 8:30 the Eugene concert band formed on Willamette street at the Lane County bank and played several nice selections. As before, the boys were out to late to catch a very large audience, but the music was highly appreciated by the few people who were on the streets at that time.FINE CATTLE.—John Tait, the progressive farmer and cattlemen, of Corvallis, this week shipped to Port Townsend, Wash. forty head of very choice stall fed beef cattle. He averaged 1200 lbs. and he received three cents per pound gross for them. The manager of the stock yards of Portland, writes that they were the best lot of cattle he had seen this year.

#### FRUIT INSECT.—The frequency with which late frosts have occurred this season has proved destructive to the earliest varieties of fruit and nuts in this section. Fruit growers tell us that early peaches, almonds and apricots have been destroyed by the frosts. However, the loss will be light as but few of these varieties are grown here.

#### THE JOINT DEBATE.—The joint debate between the Philonian literary society of Willamette University and the Lambda society of the University of Oregon, will occur on the evening of April 10 or 11, notwithstanding the report in this morning's Register that the debate had been indefinitely postponed.

#### THE WEST.—The new proprietor of the Florence West is George O Knowles, of Seaton, and it will probably advocate the principles of the populist party. We wish the new proprietor much success from a financial standpoint. The letter received says Mr. Knowles and family will either arrive tonight or Saturday evening on the stage, and after visiting a couple of days will leave for his new field of labor, Baker City. The Salvation Amythes went to Jacksonville to examine the field as suited to their work. Upon making the acquaintance of Charles Nickell, Gen. Reames, Boyer, Day, Bookman and others, the necessity of their good offices became apparent and they proceeded to erect barracks and institute war upon Satan and his followers in that locality.

Commissioners Court.		Wheat Frozen.	
Mrs G W Vaughan, grand jury witness, 1 day, 44 miles, allowed 42 miles.	6 20	J L Killian stated to the East gonian Friday evening that he found his wheat badly frozen by recent cold snap and had been compelled to put two teams at work to get some of the land. Although grain was not entirely killed, from present appearances, he thought it was all so badly damaged that it would reseed almost all of it. He advised to her farmers was to have very close inspection and not wait long before resewing the fields were frozen out. The reason he signs for the freezing of the wheat that it was brought out so fast by the previous warm weather that it is tender and susceptible to the cold more than it would have been had the growth been gradual and not hastened by the unusually hot sun.

#### The Date For Easter.

"Thirty days hath September, Every person can remember. But to know when Easter's come, Puzles even scholars, some. When March the twenty-first is past, Just watch the silvery moon, And when you see it full and round, Know Easter'll be here soon. After the moon has reached its full, Then Easter will be here The very Sunday after, In each and every year. And if it lap on Sunday, The moon should reach its height, The Sunday following this event, Will be the Easter bright." —Boston Transcript.

#### To Investigate Sam Brown's Case.
