Magnificent Collection of Land scape, Marine and Other Views New on Exhibition in This City.

Mr Frank A Tabor and Mrs CJ Wilkins, who have established a tem-porary art studio in room 5 of the Tiins block, have in connection with their studio one of the most complete and magnificent collections paintings ever brought to this coast and without doubt by far the finest that has ever been brought to Eugene. The collection consists of about 100 pieces and may be seen by anyone at any time during the afternoon of each week day. The display that can be seen would fill the mind of one who wiclds the brush and pallet with costacles of delight.
