GRANGE RESOLUTIONS.

Last December the state grange of Pennsylvania adopted the following resolutions:

Whereas, The American Protective Tariff League and Home Market Club are assumed to be well versed in the operation of protection by a tariff on imports and are assumed to be representative exponents of protection; therefore be it

Resolved by the state grange of Pennsylvania, at its regular annual meeting held at Williamsport, Pa., that we respectfully, earnestly and urgently request said Tariff League and Home Market Club to forward to the secretary of this state grange for general publication, replies to the following questions:

First—Can a tariff on imports directly or indirectly protect the home prices of agricultural staples as long as the surplus is sold for export, and the export and the home price for these are the same?

Second—If it cannot must not this unprotected industry pay for the cost of protection of the protected industries?

Third—Is not such a system of protection injuriously unjust and inequitable to the producers of agricultural staples?

Fourth—Will not a bounty on the export of agricultural staples for the protection of their prices in the home market be just and equitable so long as protection by a tariff on imports is in operation?

The American Protective Tariff League made no reply to the challenge.

COVERED WITH HUMOR

When I was thirteen years old I began to have sore eyes and my eyes soon spread. I doctored with five different skafal doctors, but they did me no good. My disease was chronic. By this time I had gone all over my head, face, and body. Nobody thought I would live, and would not have had for me. I used four boxes of CUTICURA, five boxes of CUTICURA SOAP, and three bottles of CUTICURA RESOLVENT. My hair all came out at this time, but now it is as thick as I can hardly comb it. I am sixteen years old, weigh 150 pounds, and am perfectly well.

MISS IRIS GRADY, Clayton, N. Y.

MISS CURE TREATMENT—Warm baths with CUTICURA SOAP, gentle applications of CUTICURA RESOLVENT, and mild uses of CUTICURA RESOLVENT.

Send for the world. Price, CUTICURA, Soap, 25c; RESOLVENT, 50c; and E. POTTER DAVIS' CUTICURA CURE, 10c.

MORRISON'S "FAUST."—This highly classical production was presented in good taste to a large and appreciative audience at the opera house last evening. The play is sublime in effect and when properly produced, is one of the grandest that has ever been placed on the stage. Morrison's presentation of the piece was looked forward to with considerable anticipation and all the requirements of the company were met. They did all they promised to do and have won popular favor in this city. The story of the play is one that carries the auditor into other worlds than this and makes him think of the things of other spheres of which he has often read but never seen. Before the play is finished one is almost made to realize that there is a hereafter, such as is so admirably pictured out in connection with the life of the immortal "Faust." The scenic productions used in connection with the piece are something grand and gorgeous. The lights thrown upon the stage illuminate Meplisto and his uncanny spirits in their work of destruction and ruin were something seldom seen on the stage. The scene on the broken where fire and brimstone are showered upon the suffering mortals, and the final scene when Meplisto loses his power over Faust, left an indelible impression upon the mind of the auditor.

CHARGES CORRUPTION.

The Salem Journal, Rep., whose editor was a member of the last corrupt legislature, reprints the communication which recently appeared in the GUARD and State Journal and signed, "One Who Opposed the Simon Charter," which among other things stated:

"There were none of the members of the legislature from Lane county who opposed the election of Mr. Dolph and opposed the Simon charter, that were able after we came home, to make a trip east, or travel around the world, or build additions to our houses, or paint our barns, or simply stand by our pledges made by the people, and fought the ring boodle to the bitter end. I went a poor man, came out still poorer, but honest and with a clear conscience."

It comments as follows:

[The above is God's truth. The Republicans renominated the only man who in the last legislature bowed his head to the Simon gang. In the senatorial caucus to make sure of his vote he sat between Simon and McGinn until the votes were gathered. He got onto the committee to revise the house journals at \$10 a day and no one knows what other rewards he did not get. Out upon such creatures in the name of republicanism! A republican should wear no man's collar or he is not a republican to start with.—Editor Salem Journal.]

HOW TO BECOME BEAUTIFUL.

Eat fruit for breakfast. Eat fruit for luncheon. Avoid pastry. Shun muffins and crumpet. Eat buttered toast. Eat whole-meal bread. Refuse rice puddings. Decline potatoes if they are served more than once a day. Do not drink too much tea or coffee. Walk four miles every day. Take a bath every day. Wash the face every night in warm water. Sleep eight hours a night.

Answers.

Brownsville Times: The plank in the Oregon state platform on finance is about as easy for a silver as a gold man to stand upon, still it does not commit the republican party to any policy. That is where it is weak. It means free silver, it should say so; if not it should be equally plain. In fact it should men rather have the best of it. With all the boasted independence of the republican party it is too weak-kneed to come out plainly on the money question, as do the democrats.

Contradictory statements sometimes creep in on the most hearty workers for proposition. For instance the Globe-Democrat—which is one of the most pronounced of the gold standard papers, and has been promulgating the statement that the only silver advocates were silver mine owners and those interested with them—recently says: "As a politician, Senator Carter is for free silver; but as a business man, he is part owner of one of the principle gold mines in Montana."

Boston Herald: The Oregon democrats declare explicitly for free silver, and the Oregon republicans straddle the questions. As between the financial planks of the two parties, the democratic position is entitled to more respect. It is wrong but it is not cowardly as well. Even the Eastern gold bug condemns the straddle proposition. It is natural for the press of that section to think that the silver proposition is wrong, and their opinions as to the democratic platform have no weight in Oregon.

Hop Intelligence.

Payroll Commerce: The Meeker hop yard on the west side of Ackerson street south of the electric line, is being plowed up and will be sowed to grain.

Auburn, N. Y., Argus: The H. M. Conner hop yard has been plowed up and the land sown to grain.

The David Hart hop yard has been grubbed out, root and pole. The land has been plowed and dragged, and will be planted to a variety of cereals, thus assuring some returns.

Telegrams from California show that the heavy frost did much damage to fruit. In many cases the damage is said to be so great that the crop will not be picked. It is said to have been heavier on the lowlands, although fruit on the higher lands suffered severely.

Sowing backward.—On account of the rains this month the sowing of spring grain has been greatly retarded. Many of our farmers have nearly their entire crop yet to sow. The Meek's have 200 acres to sow and the Vitus' nearly as much.

Utah Indians Want Money.—PENDLETON, Or., April 27.—Over 200 Indians held an excited council today at the U. S. military agency regarding the payment to them of \$14,000 appropriated by the government. The majority want the principal and interest, instead of the interest alone, as provided by congress. There is general dissatisfaction among the Indians, and Agent G. W. Harper has sent a commissioner to Washington to ascertain what can be done.

Assets of Linn County Bank Sold.—ALBANY, Or., April 27.—The remaining assets of the Linn County National bank were sold at auction today by Robert W. Hall. About \$18,000 was realized from the sale. This, with the \$10,000 already collected by the receiver, will pay the remaining 15 per cent of the principal due depositors. Mr. Hall says an assessment of 18 per cent will be levied upon stockholders to pay accrued interest, which will wind up the bank's affairs.

Mason May Withdraw.—PORTLAND, April 27.—It was stated tonight, on what is considered good authority, that W. S. Mason, candidate for mayor on the anti-Simon ticket would withdraw.

Self for Divorce.—C. M. Westbrook has commenced suit in the circuit court to procure a divorce from his wife, Cora W. Westbrook, on the grounds of desertion. The couple were married in Jackson county, Iowa, March 31, 1871.

Declined.—On account of having to go East, Hon. B. F. Dorris has declined the democratic nomination for county treasurer. The vacancy will be filled at the meeting of the central committee next Friday.

Brownsville Burglary.—The following account is given of a burglary at Brownsville Thursday night: Last night G. U. Cooley & Co's store, in Brownsville, was broken into and safe burglarized. The robbers effected an entrance by forcing open the door. They drilled a half inch hole in the door and destroyed the combination, giving them an entrance into the safe. They secured about \$100 worth of books and emptying packages and papers out on the floor. A few tools were found under the safe near by, also a coin sack, containing \$3, dropped by them at the edge of the sidewalk. They did not molest anything else. There was a clue as yet to the identity of the robbers. They are supposed to be the same party who blew R. N. Thompson's safe open about two weeks ago. Both safes were operated on in the same manner.

The River and Harbor.—The GUARD has received from Congressman Hermann a copy of the report and harbor bill complete. It states that \$25,000 is appropriated for the Yaquina with a continuing estimate to be paid as appropriations may be made by law. The amount for the improvement of the Yaquina and the Yaquina harbor is \$25,000. Appropriations to be made for work not exceeding \$20,000 may be made.

This is the list of Walterville teachers.

COUNTY DIVISION SCHEME.—There is a move on foot in the vicinity of Buena Vista to have a slice of Polk county cut off and annexed to Benton. The people who reside about Buena Vista state that in order to get to the county seat, Dallas, they are obliged to go in a round about way, that takes time and makes the expense much greater than if they could take the boat and run direct to Corvallis. Dallas, and the people thereabouts, are anxious for this to be done. The reason is that Independence is striving to take the county seat from Dallas. The Corvallis Times says that as the Buena Vista people would like to "do" Independence, they fall in nicely with Dallas. If they succeed in bringing the thing to a successful termination at the next meeting of the legislature, Dallas will be left with the balance of power, and the people of Buena Vista have what they desire. Benton is so would be the richer by having acquired an addition of good farming land.

A WHITE DEER.—Oregonian: The citizens of Crook county are much put out on account of the slaying of a white deer, which has been roaming over a number of localities, and which has been looked upon as a sort of mascot, and which no one would harm, until a short time since one Pointexter wantonly shot it. Such curios are very seldom found, but in story and in song for ages past occasional references are made to a "milk white doe" or white deer, which is generally supposed to have been a mythical or legendary animal. This white deer of Crook county, however, was no myth, for its snowy hide is now in pickle in a taxidermist's shop in Portland, and Game Protector McGuire is preparing at the request of the people of Crook county, to make big trouble for Pointexter, who killed the animal about February 1, during the season when it is not lawful to shoot deer of any color.

LECTURE.—Oakland item in Roseburg Plaindealer: "Prof. C. H. Chapman, president of the State University delivered a lecture in Young's hall Saturday evening, to a good audience. Subject, Our State University, illustrated with stereoscopic views of the buildings and rooms of the different departments that are carried on for the instruction and benefit of the students and also showing how it is possible for many young men and women to obtain an education with a limited amount of means. Prof. Washburn was in company with Prof. Chapman and assisted in the lecture by illustrating the lantern slides, which were very interesting. Prof. Chapman held divine services at the Presbyterian church, Sunday evening."

ROSEBURG'S SHAME.—Roseburg Review: At the pugilistic entertainment in C. A.'s armory in this city, Saturday night, there was quite a crowd of sports. Schuyler and Hamlin had a bout, and there were several minor "scraps," one ambitious young man standing up in the ring and slugging with a Chinaman. A local sport got his nose badly flattened out, and a youth from Eugene was hit in the stomach, and had to be carried to his corner. On the whole, the affair was as disgraceful as could well be imagined, and was not a financial success, we are pleased to learn.

WAGONETTE TO PARK.—Will Clark is having upholstered seats made for his spring transfer wagon and expects to establish a passenger route between this city and Merwin's park on Sundays and special occasions during nice weather. The wagon has a new and serviceable top, and will comfortably seat from 12 to 14 people. The round trip to the park will be made every two hours, and a moderate charge will be made. If the weather remains favor able the trips will be made next Sunday and the wagonette will start from E. D. Pool's ice cream parlors.

OFFERED HIM \$500.—Albany Democrat: Mr. Sam Goin, who was recently in Portland, offered Hermann, the healer, \$500 in gold coin if he would cure his deafness as he advertises to do. He said he could, but wanted the money in his hands before hand. The Democrat believes on general principles, without knowing anything about him personally, that he is a first class fake. People should at least be very cautious about dealing with such men. Don't be credulous.

A DUST COLLECTOR.—The Eugene Mill & Elevator Company has placed a Willamette dust collector in the mill in this city. This machine collects all the dust from the various rollers and does away with the dust room, in which there is always some danger of explosion. The Eugene mill is one of the best equipped mills in the state.
