Hon Thos H Tongue, republican candidate for congress, will speak in Lane county Saturday and Monday, May 9th and 11th. Of course one of the appointments will be in Eugene.  
Monday's Portland Telegram: An order of default was entered today in the divorce case of Hope Holman against Emma Holman. These parties are well known at Junction City.

Gen. Coxe is coming to Oregon to stamp the state in the interest of the populists. However, Chairman Young, of the populist party of Oregon, is opposed to his coming here, as is also Ex-Gov. Penneyer.  
A Portland paper says: C. J. Mulkey who was convicted of smuggling opium two years ago, was today released from the county jail, having completed his sentence of one year. He was also fined \$5,000, but he swore to being with out funds, and was released under the paper account.  
Monday's Salem Journal: C S Nicklin returned home on the afternoon local Sunday while W P Matthews and C J Atwood returned on the overland this morning. They report a fine time and royal treatment at the hands of the Eugene boys.

The state officers have had a lively time selecting the hands to work on the big sewer at Salem to be built by the state for the benefit of that city. Among the bidders were Fred Bellman, brickmason, and Phil Miller, of this city. For the 55 places there were 500 applicants.  
Cottage Grove-Lemati Leader: We are standing today on the threshold of an era of gold mining that in the future will read like a romance. The next few years will bring to those who take hold now returns that will surprise the most sanguine.

President C H Chapman was compelled to turn back home at Portland and was unable to go to Junction to deliver the address before the graduating class of the public schools of that city on account of sickness. He is now unable to attend to his duties at the university.  
Judge J J Daly, the popular Polk county democratic politician, spent yesterday in this city visiting his son who is in attendance upon the U of O. He thinks the people of Lane county should be certain that only warm friends of the university, and able men, should be elected to the legislative body.

The tax rolls will be kept open as long as tax money continues to be paid in as fast as it is at present. Over \$2000 was collected yesterday. Sheriff Johnson has no desire to add costs to the taxes of the delinquent, but will give him as much time as possible to pay his taxes before closing the roll.  
The Albany Democrat is kicking because the U of O was awarded the debate last Saturday night. It is against the present plan of electing senators by legislatures, and claims that no argument should convince a judge otherwise. The judge in such cases only decides upon the excellent of the arguments, not upon what he thinks or believes is right.

Roseburg Plaindealer of Saturday: "W S Moon, of Eugene, made the Plaindealer a pleasant call today. Mr Moon has rented the old Flood building on Main street and is fitting it up for a bowling alley, which he proposes to open the 1st of May." Mr Moon is highly respected and our people will regret to learn that he intends leaving for other fields of labor.  
Saturday's Pendleton EO: When the orations and essays were all read and spoken, and the valedictorian had finished the address, T G Hailey spoke briefly to the graduates, substituting for Dr Chas H Chapman, president of the University of Oregon, who had the hon from Eugene and was detained in Portland by sickness, and who was to address the graduates, presenting the diplomas.

A GOOD ONE ON EUGENE—Salem Journal: "Since Salem has no street cars that are moved by means of a mule or a bovine it will probably be safe to publish the following: In speaking of the Russians and their care of horses, Dr Gregory de Kannek related that Russian horsemen exchanged horses at least every other hour. The lecturer said he found at Eugene there is a street car line whose cars are propelled by an old mule and the owners of the corporation are so thoughtful that they charge ears every half hour but the mule is obliged to work the entire day." It looks as if before many months that the mule will be exchanged for steam or electric power.

THAT BIG POTATO.—The N Y World of last Sunday swallows the Loveland, Colo., story of the 86 pound potato, and gives a picture of Mr Swan with the potato on his shoulder. An Albany lady was in Loveland recently and met Mr Swan who gave her a photograph of himself and potato. A aster of Mr Swan is quite an artist and one day she manufactured out of canvas a big potato, so nearly life like as to deceive. A cut was made of it and Mr Swan used it merely as an advertisement without any intention of deceiving. It spread abroad and was accepted as a fact and Mr Swan's mail has been crowded, even from all over Europe. The truth is a three pound potato is a curiosity in Loveland.  
ENCOURAGING.—Pendleton EO: Twenty-two young people have gone forth from Pendleton's public schools armed with ribboned sheepskins which are testimonials that, to the entire satisfaction of the faculty and directors they have prepared either for the pursuits of study in higher institutions of learning or for the active duties of life. It is cause for congratulation that nearly all the graduates are determined to continue in the pursuit of knowledge, and will matriculate in the state university at Eugene or some other advanced institution.

MARKET PURCHASED.— Joel McCormack has purchased the entire interest of his partners in the U of O meat market and is now sole proprietor.

Salem Post: One a good body of ice is struck on the Bohemia mines it is reported to be inexhaustible, while in many regions the tendency of the vein is to run out. That is what gives these mines their great value.  
Hallie Wilkins, a Corvallis boy, earned some money last year picking strawberries and kept it until recently when he bought a bicycle in Portland. While trying to learn to ride he fell under a street car and lost an arm. That was an unlucky bicycle.  
A E Wheeler, Mrs Prof Condon and Miss Ellen Loomis went to Albany today to attend the meeting of the Willamette Association of Congregational churches, which convenes in that city today and continues in session until tomorrow.  
Portland Telegram: John B Young, of Baker county, chairman of the populist state central committee, who has opened headquarters in one of the hotels in this city, has received a telegram from General J B Weaver, from Colfax, Iowa, saying he was coming to Oregon, and that J H Davis of Texas, J R Sovereign, master workman of the Knights of Labor, and Mortimer Whitehead, of New Jersey, of the national grange, would follow him. These men will stamp the state for the populist party.

**NEW ROUTE TO BOHEMIA.**  
Eugene May Become the Distributing Station for these Popular Mines.  
A new route to the Bohemia mines in Southern Lane is now being talked of and a road leading out from this city may yet be established to the mines.  
Two routes are now in view. One shown us Johnson's Meadow, on the Military wagon road a few miles beyond John Hills, at Kitson springs, and about 60 miles east of this city. The river can be ferried or bridged at that place and a ridge or back bone of mountains extending to the Bohemia forms a natural route for a wagon road. The distance from Johnson's Meadows to the mines is only about 12 miles, which makes the distance from Eugene by that route about 70 miles.  
The other route starts out at the head of Lost Creek. This route is much shorter, being only about 45 miles from Eugene to Bohemia, but will require about 20 miles of road to be built.

What the companies most interested in Bohemia mines want is the best route that can be kept open the greatest portion of the year.  
Superintendent Jennings of Bohemia in company with Wallace Chamberlain, a hunter and trapper of this city, went up the Military road about 45 miles to McClaine's a few days ago. As soon as the weather is more favorable Mr Chamberlain and a practical road man will be sent over both of the routes above named for the purpose of estimating the feasibility and cost of wagon road to Bohemia by either one of these routes.  
The company which Mr Jennings represents has contracted for over one hundred tons of machinery to be delivered at the mines this summer, and a road must be built before the machinery and ready all the supplies used in the mines must come from points north of here, and Eugene being at the head of navigation, the mining men look upon this location as a distributing point for Bohemia with considerable favor.

**An Explanation.**  
EDITOR GUARD:—As there have been some criticisms in regard to the action of the Eugene Band on the day of the I O O F anniversary, we, in justice to ourselves, wish to make the following explanation:  
One of the committee from the lodge came to our leader and stated that they would want the band to be ready to march to Merian's park at 11. Then the band was to be subject to the order of the committee during the day. In the evening they (the Odd Fellows) would want the opera house, some band music on the outside and the orchestra during the evening's program. This was the only program made to the band until the day before the celebration; then the band felt that they had been so grossly misrepresented that they did not wish the job at all.  
When the proposition was submitted to the band they decided to ask \$75. Had they been asked to play during the exercises in town they would not have asked more than \$15 or \$20 for the work.

The above proposition is in substance just as the committee made it and we have an outside witness to it.  
THE EUGENE BAND.  
BILKED PRINEVILLE.—The Prineville Review writes up a young man known in Eugene in the following terms: "Kid" Moore who has been "visiting" here for the past two or three months, suddenly jumped the town on last Sunday morning's stage. If ever a brute needed a coat of tar and feathers it was this excuse of a human being. The evening before his departure he succeeded in getting a woman from an old gray headed woman of this place by working upon her feelings, stating that he was in destitute circumstances and a whole lot of other trash, even weeping like a babe to accomplish his end. This good old lady could not withstand his entreaties, little dreaming his was the rascal that he is. His next act was to quit the town, and none too soon to please the citizens of this place. Such men as "Kid" Moore are a disgrace to the human race and the sooner the people acquainted with this morning's fiend the better off they will be. We warn all people to shun this sleek gentleman (?) as you would a viper.

**FRAUDULENT CHECK.**—Albany Herald: John Wood, who has been buying hops in this vicinity, is in jail in Portland, and will be brought to this city today to answer to a charge of passing fraudulent checks. Wood purchased 30 bales of hops from some Chinamen who ran a hop yard near Albany, the price being \$168.00. In payment he gave the Chinamen a check on the bank of A Bush, in Salem. On forwarding the check for collection it was found that Wood had no money in the bank. Chief of Police Lee was notified and he wired to Portland. Wood was caught and will be brought to this city to answer for the offense.  
LATER.—The case was settled, Mr Wood paying the Chinamen for the hops less the costs in the case. Mr Wood is agent for hop firms in New York and has been buying hops for some time in Oregon. He says he has never passed a fraudulent check in his life. He simply gave the Chinamen a check due in 30 days, and it would have been paid at that time.

**A RUNAWAY.**—A pair belonging to Mr Gilbert, who is here from Roseburg, became frightened on west Eighth street this morning, and ran away with its owner, who was thrown out of the cart. The horse ran east on Eighth street to the mill race bridge, where it was caught, without having done any material damage.  
**Struck by a Piece of Timber.**—COTTAGE GROVE, Or., April 27.—Peter Tason, an employe at Jones sawmill, was today struck in the back by a large piece of timber that was sliding down from the mill, where a dam is being constructed. It is feared that he will not recover.

**TRUCKS.**—Elmer Bangs drove the Simslaw stage last trip. After May 1st this line will make three round trips per week. The line to Foley Springs after the above date will also be a tri-weekly.  
**INDICTED.**—The Josephine county circuit court grand jury has returned an indictment against Charlton Purkins, charging him with feloniously entering the Grant's Pass railroad office and stealing a ticket. He is well known in Lane county.  
**HORSE KILLED.**—The northbound freight train ran into and killed a horse in the eastern part of the city last evening. The animal had gained entrance to the company's right-of-way and got in front of the engine.

**COMMITTEES MEET.**  
Active Arrangements for the Fourth of July Celebration.  
Daily Guard, April 28.  
The committees from the various fire companies of the city who have charge of the matter of getting up a firemen's tournament and a Fourth of July celebration, met in Firemen's Hall last night and heard reports from old committees and appointed a number of new ones.  
The soliciting committee reported about \$750 subscribed and thought that \$800 could be raised. The report of the committee was accepted and they will continue to solicit funds for a few days.  
Arch Rice was elected treasurer of the committee and the following committees on arrangements were appointed:  
Music—G W Griffin, Mayer, Beavenue.  
Finance—Mayer, Hodles, Beavenue, Jenkins.  
Advertising—Jenkins, G W Griffin, Hodles.  
Amusements—Drew Griffin, Hubble, Herhold.  
Reception—McTee, McPherson, Matthews, Hubble, Jenkins, Herhold.  
The various committees will enter upon their duties at once, and the indications now are for a rousing celebration.  
**Ed West and His Colt.**  
Daily Guard, April 28.  
Ed West is having lots of fun these days. He is breaking a colt, or rather it is about to break him. A few days ago while driving the colt it got an idea that it wanted to visit a neighbor's back yard. Ed did not want to go but the colt was obstinate and as there was no gate went through the fence. Ed got out alive but the buggy is still in a doctor shop undergoing repairs.  
Yesterday Ed concluded it was about time to break the colt again. The first play he took a high cross walk, then crossed on a narrow tree with the result of a broken cart and colt piled up together. Ed did not stay with them, but went on about thirty feet where, although he is not a populist, he found the middle of the road, and a soft spot too. No bones broken. Ed has concluded to hire a couple of cowboys hereafter when he goes out pleasure riding, one on each side of the driver is much better. Whenever that colt shows the least disposition to climb a fence or tree, run off a grade or into the river, two lasses will hold him in position. Ed has taken out an accident policy and from this time on that colt will have his hands full. He must be broke.  
**Merian's Park News.**  
A contract has been closed between S Meriau and C C Nichols for the hauling of 100,000 feet of lumber in the log from Merian's Park to the Eugene saw mill. The lumber is mostly pine saw white fir and will be used by the mill company for boxes.  
Mr Meriau expects to fence the entire park within a year. The fence will not only keep out stragglers but will be an ornament as well.  
A grand stand to seat 1500 people is in process of construction at the new track, which is now completed and in use. Mr Meriau will keep the grand stand at the kite track for other entertainments.

**WEDNESDAY, APRIL 29.**  
A large number of people visited Merian's park yesterday.  
The steamer Gypsy is expected here again tomorrow. She experienced considerable difficulty in getting here Saturday, owing to the snags in the channel, but so long as the river remains high will continue to come.

THE BEST

You want to wake up your Liver now, but be sure you take SIMMONS' LIVER REGULATOR to do it. It also regulates the Liver—keeps it properly at work, when your system will be free from poison and the whole body invigorated.

**Colonies of "Dunkards."**  
Chas H R Knoche, for a number of years a resident of Eugene but now an employe in the office of the Chicago, Milwaukee & St Paul Railway at St Paul, Minn., writes to the GUARD as follows:  
EDITOR GUARD:—I would like to call your attention to the movements of the U P and Grand Northern Railways who are now going through Pennsylvania, Indiana, and the Eastern states getting up colonies of "Dunkards," who are good German farmers, and settling them in the Dakotas and Montana. Would it not be well for Oregonians to let these people know what Oregon is, and maybe they might investigate and perhaps settle. Several thousand of these have passed through St Paul in the last month and I would like to see Oregon get some of them as she would undoubtedly profit by their settling there.

The city of Port Angeles, Wash, has been advertising in this state for nearly a year and I am sure she has profited by the same, at least I have had lots of people ask me what sort of a country it was, and I always answered: "It is pretty good, but Oregon down the line is a little better."  
Hoping you will be able to get up some schemes to get these farmers to locate in Oregon and always wishing to see the state prosper (especially Eugene) I remain  
Respectfully yours,  
CHAS H R KNOCHE.
