Welcome: Some of the local freaks of the votes Monday in certain counties are curious. For example, Linn county gives Vanderburg nearly 1100 votes more than Tongue, while Lane county, adjoining, gives Tongue a plurality of over 400. In Linn, Myers' home county, Myers gets only 442 votes, about one in ten, while in Lane, a republican county, he received 1089. Douglas county, too, which might be supposed to be Hermann's stronghold, gives Tongue a handsome plurality, while Marion, supposed to be republican by 1000, and Washington, Tongue's home county, make about a stand off between him and Vanderburg.

Gold Standard Indians.

It transpires that the voting population of the Siletz Indian reservation, 106 bucks in all, set their ballots for Thomas H Tongue for congress, and, considering his small plurality, were responsible for his election. This fact moves the Corvallis Times to comment as follows:

"On what a tender thread hangs everlasting things." Just contemplate the fact, that out of the Siletz Indian reservation this last spring there was created "Siletz Precinct," made up of a voting population of 106 Indians and 15 whites, so-called, of which Mr Tongue received 119 votes out of a possible 121. Can it be longer doubted that the Indian problem is now fully solved? The Indian grasped the financial question with intuitive intuition—under the inspiration of the Oregonian. In the bright days of the future it will be the money question and not hop picking which will engross the attention of the Indian. Lo, the poor Indian is now educated up to the gold standard and Tongue is elected. It was an Antony who stood over the dead body of Cesar and said: "Have all thy glories, triumphs and spoils shrunk to this little measure?" What sayest thou, Mr Tongue? What a calamity it would be to the public if the whole Indian vote of 106, of Lincoln county, should be held illegal. Where, O, where would Thomas H Tongue be? "Tell it not in Gath lest the hearts of the uncircumcised rejoice."

OLD TIME CIRCUS.—Salem Journal: The old-timer says the circus today is a very good show, but nothing like what they used to see in Oregon 20 or 30 years ago. "In them days a circus was the biggest thing on earth. We couldn't hold a state fair at Salem and get a crowd without a circus. Money was plenty, and there were not so many ways to spend it. We had no state militia, but all were safe and happy. People packed up and camped right along with the circus a week at a time, and tended the show twice a day, besides taking in the side shows and lemonade stands, between times. Talk about spending money to get Eastern immigration and bring people to Salem! What we want to make Salem a live town, is to hire a circus to stay here all the time." And the old timer sighed hard.

DAILY GUARD, JUNE 12.

SHORTLY BEFORE NOON today Judge Fullerton passed sentence on the two hobos, John Foster and John Martin, convicted of the crime of sodomy, giving each two years in the state penitentiary. The prisoners will probably be taken to Salem by Sheriff Johnson Monday. He will be accompanied by S R Williams as guard.

Considering the crime and the verdict rendered by the jury the sentence is a light one, and many have expressed themselves as of the opinion that the prisoners should have been given the full benefit of the law. The jury was out only a short time and promptly returned a verdict of guilty as charged without any recommendation of mercy. The highest penalty that could have been given is five years in the penitentiary.

GOING OUT OF BUSINESS.—J D Matlock & Co are advertising to close out their large stock of mercantile goods in this city. Owing to the ill condition of the health of his family Mr Matlock has decided to remove to a new location with the hope that they will be benefited by the change, hence his closing out sale. The family are not yet decided as to their new location but will probably seek a dryer climate.

DAILY GUARD, JUNE 12.

THE VICTORY OF MR E L MATLOCK in Morrow county, in defeating Mr Rod for the office of sheriff, is a testimonial of his popularity and standing in that community. Two years ago, the democratic candidate for sheriff received only 250 out of a total of 1100 votes in the county. This year Mr Matlock received 519, nearly half the total vote cast, and giving him a plurality over his republican opponent of 163, and over the populist candidate, 206 plurality.
