The decision is important, as it defines clearly, for the first time, the restrictions to be placed upon American seal hunters in Behring sea.

When taken to jail she sang "Nearer My God, to Thee" in a loud voice. Baldwin was crazy with rage and wanted a chance to fight with her. His hair was singed by the powder and the bullet passed within an inch of his head. His escape is ascribed to the woman's inexperience with firearms. The pistol was thrown upward by recoil after the trigger was pulled.

A remarkable circular has been issued by the Women's Rescue League of Washington, D. C. It is signed by Charlotte Smith, president, and Virginia N. Lount, secretary of the legislative committee, and it calls attention in a most sensational manner to what these ladies consider the manifold, moral and physical ill effect of the riding of bicycles by women. The occasion of the issuance of the circular at this time is that next week there will be a bicycle parade in Washington in which it is thought that fully 40,000 wheels will participate. Because many of the ships naturally attached to his station, have been necessarily transferred to the Atlantic station, Admiral Beardsley will not have as many vessels available for his drills as will Admiral Bunce, on the Atlantic coast. Consequently, in order to be able to carry out a programme of any value, from an educational standpoint, he must make the most of such ships as he can command, and it will be impossible, therefore, this season to withdraw any of the ships, even temporarily, from the squadron to attend the local celebrations at various points on the Pacific coast, as has been customary in the past.

The coast steamer Triton brought yesterday from Bahia Honda many Spanish families. The feeling in Pinar del Rio is now one of alarm.

Generals Gonzales, Munoz and Molinos arrived here from Pinar del Rio last night to confer with the captain-general. Lieutenant-General Valdez sailed from Havana today for Spain to recuperate his health. The insurgent chief, Armando Sanchez, fighting under Maximo Gomez, in the late battle of Najasa, was wounded. Sanchez's leg has since been amputated.

Gomez is said to be now encamped with only 600 men all mounted, 400 being from Minas Point, known as Los Estrapados.

Four hundred rebels commanded by Salvador Reyes attacked, on the 24th, 26th and 27th inst., the town of Yara, near Manzanillo, but were vigorously repulsed with heavy loss. The garrison at length learned of what was going on under their noses, rushed to arms and attacked the invaders, who were, according to the government reports, compelled to retreat, with four killed and twelve wounded.

NEWS OF IDAHO.

Steamer Backed Into a Ferry and Nearly Drowned Several Persons.

Julietta, Idaho, July 3.—The steamer Lewiston made an excursion up the river Saturday. The boat had tied up about thirty yards above Evans ferry, to discharge some passengers who were being ferried to the opposite shore when the big steamer backed off and collided with the ferry-boat, which was crowded with men, women and children. One of the guy ropes gave away, and the ferry immediately slewed around and commenced filling rapidly. Some one cut the other rope, when she righted and drifted down stream, where, after an exciting chase, she was picked up by the Lewiston and towed back. At the time of the collision, one man, W. Baby, jumped on board the steamer, and the women were with difficulty restrained from throwing themselves into the water.

Drilled Into Dynamite.

Gem, Idaho, July 3.—Two miners, Carr and Richard D. Downs, were blown up in the Gem mine at 9 o'clock this morning. While drilling, they struck an old charge of dynamite, exploding it. The unfortunate men were taken to Providence hospital, at Wallace. The physician has hopes of saving their lives, but it is doubtful about their eyesight. The faces and bodies of the men were filled with small bits of rock. They were badly burned, but no bones were broken.

A Dreamer and Swindler.

Joplin, Mo., July 3.—Madame Zulech, operating under numerous aliases, under arrest here charged with using the mails to defraud. The prisoner is said to have caught people in all parts of the country by a shrewd scheme to dispose of fictitious lead mines. She, it is charged, sent letters to men in several states describing in extravagant terms mining lands which she claimed to own. In many instances the properties had no existence, it is said, and most of the land which she really owned is declared worthless for mining purposes. Her plausible stories found many willing ears, and she is said to have obtained thousands of dollars.

As Madame Zulech she passed as an astrologer and medium. She wrote to an old Michigan farmer and told him that in a dream a valuable deposit of mineral on land which she owned had been disclosed to her. The Michigan man was a devout spiritualist and believed the story, and his credulity is said to have cost him several thousand dollars.

The five Japanese girls brought to the Sound on the steamer Tacoma six weeks ago for alleged immoral purposes are on their way to San Francisco, for deportation. Major Walker, immigration inspector at this port, started with them Tuesday. He is having an interesting time with the pretty maids, as they cannot speak a word of English.

AWFUL WAVE OF DEATH

Further Particulars of the Disaster in Japan.

WORSE THAN FIRST THOUGHT

Entire Cities Were Washed Away—Some of the Seaports That Were Affected—Thousands Were Killed.

Vancouver, B. C., July 6.—The Empress of China arrived last night with Yokohama news to June 18. Regarding the recent earthquake wave, the Yokohama Mail has the following: It will be sometime reach Tokio of the full particulars that has overtaken the cruel disaster on the coast of Pikuken and Kikuken. Between 8 and 8:30 P. M. on the 15th a violent seismic disturbance occurred in the ocean that bathes the northeastern coast of the main island. Accounts thus far received place the center of the disturbance in the vicinity of the island Kinkwa-Zan. Following the coast line northward from Kinkwa-Zan, we find the reports from the various places on the beach:

Onogawa, Futhama—Many lives lost, animals destroyed and houses inundated, but no definite numbers stated.

Washigama—Forty persons killed, thirty houses washed away; prison doors thrown open and several prisoners supposed to be lost, as well as some of the warden; quantities of mail matter swept away.

Motoyoshi (or Shizukawa)—Eighty houses swept away; seventy-two corpses recovered.

Kamaishi—Over one-half of the town swept away; many persons and animals killed; telegraph office washed away.

Miyako—Much injury to life and property.

Kuji—The same fate as above.

Hachinohe, Minato—Eleven persons killed, two missing; school building destroyed; bridges swept away.

Some accounts speak vaguely of thousands of lives lost and 500 houses swept away on the coast of Ojika and Motoyosi alone, but that seems to be exaggeration.

One statement is that thirteen shocks were felt in the neighborhood of Ishimaki, but they must have been comparatively slight. Undoubtedly there has been a lamentable loss of life and property, and large tracts of rice fields have been inundated and destroyed.

Following are further details regarding the damage done and lives lost through the tidal wave:

Onani, Motoyoshi—Buildings swept away, ninety; deaths, 400.

Hashikami, Mura—Buildings swept away, 300; deaths, 400; wounded, 100.

Koidzumi, Mura—Deaths, 1,450.

Utatsu, Mura, Matoyoshi district—Buildings swept away, 600, there being absolutely nothing left; deaths, 600; wounded, 250.

Okachihama, Momo district—Buildings swept away, 40; deaths, 31; wounded, 5.

Senda—In the districts of Motoyoshi, Ojika and Momo, in Miyagi prefecture, there was disastrous damage by the tidal wave during the night. Motoyoshi alone had 1,030 deaths, and 660 buildings washed away.

Protection of Pugilism.

San Francisco, July 6.—There is a movement on foot among sporting men to form a society that will probably be known as a Sportsmen's Protective Association. The object will be the protection of sports in general, and the fostering of boxing bouts in particular. Business men interested in sporting matters are at the head of the movement. It is their intention to interest John D. Spreckles, Thomas H. Williams and others equally prominent in sporting circles in the matter, and in this way form an organization that will not only do a great deal toward the purification of sports, but become a prominent political factor as well. Just at present it looks as if the sole purpose of the organization is to perpetuate "scientific" boxing exhibitions, and that candidates for public office who are not opposed to such exhibitions will have the support and approval of the association.

A Quarantine Squabble.

San Francisco, July 6.—The board of health is prepared to defy the federal government. At a meeting of the board today a letter was dictated by Dr. Wallace Wyman, in charge of the Marine hospital at Washington, declaring that the United States statutes gives the federal government no authority to establish quarantine regulations over San Francisco bay, while the California statutes particularly establish the position of the quarantine officer. The board has announced its intention of standing by its authority.

New York, July 6.—A special to the World from Winnipeg says: "A mysterious balloon passed over Winnipeg this evening. The appearance of the balloon caused people to wonder if it was Anders' balloon. The High Hat Bill Passed.

New Orleans, July 6.—Representative Dudenhafer's high-hat bill has passed the house by a vote of 81 yeas to 21 nays. As amended it provides that the theaters and other places of amusement where admission is charged shall provide a suitable reception-room for hats, and an attendant to take charge of them free of cost to their patrons. The bill, in effect, prohibits the wearing of hats altogether at theaters, etc.

DISPLAY OF YELLOW METAL

A Grand Gold Exhibit to Be Made at Chicago.

Chicago, July 6.—Chicago is to have a gold exhibit next fall, in which the gold fields of every section of the globe will be represented. A meeting to further arrangements has been held yesterday on for some time was held yesterday at the Wellington hotel under the auspices of the Chicago Western Society, Colorado, California, Washington, British Columbia, Oregon and even the Georgia gold regions were represented, and enough gold was pledged to start a national bank.

Lee, has promised carloads of ore and quartz. Other Western roads have promised to transport exhibits to Chicago free of charge, and L. C. If the mineowners do half what they promised yesterday, several life-sized quartz crushers will be in operation under cover in Chicago this fall. All the machinery for reducing gold ore will be exhibited, and with several railroads hauling quartz free, visitors will have an opportunity of seeing just how gold is extracted and prepared for the mint.

JEFF DAVIS MONUMENT.

Corner Stone Laid at Richmond Yesterday.

Richmond, Va., July 6.—The cornerstone of the monument to be erected in Monroe Park to the memory of Jefferson Davis was laid this afternoon with ceremonies which were impressive and pathetic. Under a bright, sunny sky, through densely packed streets and with the applause of countless thousands to cheer them on, the followers of the lost cause marched to the old Commonwealth building in the city which is dearer to the Confederates than any in the land. Two hundred children, boys and girls, wearing white and red sashes, followed the police, who cleared the way and led the procession. Mrs. Jefferson Davis was in an open carriage, and bowed and smiled as cheers greeted her on every side.

The sponsors and maids of honor, chosen for their beauty from all the Southern states, rode in carriages following that of Mrs. Davis. North Carolina was the first state to exhibit a tattered battle-flag, and as it fluttered in the breeze it was greeted with great cheering. The veterans made the pathetic feature of the parade. Nearly all are old and for the most part weak and feeble, but summoning their remaining strength, they marched with pride and pleasure. A large number of them carried sticks for support, and many were compelled to use umbrellas in order to withstand the rays of the sun.

THE SANGUILLY CASE.

Consul Lee Makes Inquiries Into the Matter.

Havana, July 6.—In response to Consul-General Lee's formal inquiries as to the status of Julio Sanguilly's case, Captain-General Weyler officially stated that the affair was now beyond his jurisdiction, and wholly in the hands of the civil courts. When Sanguilly was tried in December last, certain exceptions to the proceedings were noted by his counsel. Then Consul-General Williams objected to the fact that his sentence was based on the original testimony taken at the court-martial. These exceptions have gone to the supreme court of Madrid for consideration, where the eminent Spanish statesman and jurist Senor Saloneron is acting counsel for the prisoner.

Sanguilly himself remains in Cabanas castle here, pending a final verdict. He occupies the most luxurious quarters in the castle, and the Spanish officials treat him with great consideration. His wife and most intimate Cuban friends are allowed to visit him whenever they desire and he receives his meals from a noted Havana restaurant. He has, in fact, every comfort possible under the circumstances.

Gathering Information.

Olympia, Wash., July 6.—The board of state land commissioners has not yet formulated the rules for leasing harbor line areas. The form of inquiry covering information desired on this subject has been sent out to the United States consuls at seaports abroad, and to harbor officials of the leading cities of this country, with a view to securing the benefit of experience on this subject, and a book containing the results of these inquiries will soon be issued by the government. This work will materially aid the commissioners in the compilation of the rules to obtain in this state.

The Liquefaction of Gases is now a simple mechanical process.

People as a rule hear better with their right than with their left ear.

PORTLAND MARKETS.

There is nothing new to report in the butter market. The receipts continue heavy, but a good demand from California has kept the market well cleaned up in this city. The demand for old potatoes is growing less each day, and prices are drooping. There is plenty of new stock fully matured in the market, and, as much of the old stock is becoming soft and spotted, it is no longer in demand. California onions both red and yellow are in good supply at low prices. With the exception of cucumbers, there is plenty of home-grown vegetables of all kinds, peas being especially plentiful and cheap. The stampery market is weak.

Wheat Market.

There is an air of dullness hovering over the local wheat market during the closing days of the 1895-96 season. The new crop is now coming into the California markets, and harvesting will begin in some parts of Oregon in two or three weeks. Quotations are: Walla Walla, 49 to 50c; Valley, 52 to 53c per bushel.
