## THE NEWS OF THE WEEK

Comprehensive Review of the Important Happenings of the Past Week Called From the Telegraph Columns.

Storms in West Virginia have created great havoc and railway traffic has been suspended.

The members of a camping party near Oakland, Cal., were forced to climb trees, while a maddened bull destroyed their camp.

E. L. Harrison, who was formerly traveling auditor for the Northern Pacific railroad, committed suicide in Tacoma, by shooting himself in the mouth, the bullet from his revolver penetrating to the brain and killing him almost instantly.

A freight train on the Vandalla railroad ran through a bridge near Crawfordville, Ind., killing Conductor McKenzie and Fireman John Herber and seriously injuring Roadmaster J. S. Brothers and Engineer Bowman. The wreck was caused by washouts.

Rev. Geo. P. Knapp, who was arrested in Billis, Eastern Turkey, on the charge of conspiring against the Turkish government, and who was once liberated, but refused to leave the country before his innocence was established, has again been arrested and will be tried on a charge of inciting riot.

E. L. Moody, a logger, made a cowardly attempt to murder Mrs. H. J. Bunn in a hotel kept by the woman's husband at Elma, Wash. Moody stabbed his victim in the wrist and in the right breast with a knife, and then fled, leaving Mrs. Bunn seriously if not fatally wounded. Moody is still at large.

A Havana dispatch says the police have captured a collection of maps of the island, highly colored, showing the supposed insurgent headquarters in Cabañas, the rebel flag and picturing various chiefs of the insurrection. The maps bear the imprint of a Barcelona firm. The Havana stationer, Don Fernandez, in whose possession they were found, was arrested.

The two daring navigators who left New York June 28, in a sailboat but eighteen feet long, to cross the Atlantic, are all right. They were sighted on July 19 in latitude 53, longitude 81.55, by the American liner Indiana and asked to be reported. They appeared to be in the best of spirits and required no assistance whatever from the Indiana, although provisions and water were offered them.

It is rumored that the Turkish government contemplates an issue of paper money.

In Victor, Colo., fifty pounds of giant powder exploded, causing \$5,000 worth of damage. Many people were cut by glass, but none killed.

In Sedalia, Mo., Mart Crawford, a section foreman on the Missouri Pacific, was hanged by a furious mob for the attempted rape of a 16-year-old girl.

The socialist congress, which met in London, proved to be a noisy gathering. Scenes of violence were enacted and a free fight was narrowly averted.

The coming year it is said wines will come high, owing to the failure of California's grape crop. Little wine will be exported from the golden state this season.

A New York dispatch says Senator Hill is now in favor of a third ticket. The information, it is said, comes direct from a personal friend of the senator, who is a prominent Democrat.

A stockman named John Lawrence was found dead upon the range near Union, Or., with a bullet in his head and a pistol lying a few feet away. It is supposed that he committed suicide.

The trial of the South African raiders has ended in London, and Dr. Jameson has been given a sentence of fifteen months imprisonment without labor. The others received light sentences.

In Quincy, Ill., five fatalities by drowning or otherwise occurred in forty-eight hours. James McLean was killed by an accidental fall from the roof of the Ricker National bank; Herbert Harrison, a school teacher; Frederick Gross and Fred Baumgarten, sons of prominent citizens, were drowned in Bear creek; George Betero, another youth, was drowned in a pool south of the city limits, and his two brothers were saved only with great difficulty.

Pennsylvania was visited by a disastrous hurricane, resulting in loss of life and property. Steeples were blown from churches, adjoining buildings were crushed, houses were unroofed, and trees broken off or torn up by the roots. Great havoc was caused by the heavy rainfall. Two lives were lost, thirty-six injured, some fatally, and property damaged to the amount of \$100,000. A boarding-house near Cecil, Washington county, was washed away and its occupants, fifteen coal miners, were drowned. Seven of the bodies have been recovered. Eight are still missing.

Two cable cars broke loose at the top of the Ninth-street incline in Kansas City, and dashed down the declivity into the Union depot sheds. The grip car and those on board escaped injury, but the trailer was thrown from the track just inside the elevated sheds and literally smashed to pieces. Several of the occupants of this car were badly hurt. Among them are George D. Fearon, of Kansas City, and his two sisters, Mrs. Gay and Miss Fearon, both of New York. Mrs. Gay suffered an injury of the spine.

Ex-Congressman Bynum, who is a member of the sub-committee of the sound-money Democrats, which is arranging for a national convention to nominate a sound-money ticket, says that 15 states have already indicated that they will be represented at the meeting in Indianapolis August 7. There are a few Western states that will not be represented at the meeting, he says, because the time is too short. Bynum says Minnesota has already appointed delegates. Delegates have organized in several states, and Kansas has sent word that the state will be organized immediately.

# BRADSTREET'S REPORT.

Political Uncertainty Has an Unfavorable Effect.  
New York, Aug. 3.—Bradstreet's weekly review of trade says: Political uncertainty continues to have an unfavorable effect on trade, and industrial and mercantile lines are unusually dull. Mercantile credits are closely scanned, and in many cases shortened. The industrial situation is less favorable. Among manufacturers of iron and steel it is regarded as serious in some lines, owing to the surprising falling off in the demand. The reduction of pig iron is further curtailed, yet stocks increase. The outlook is for a further decline in iron and steel prices. Chicago offers concessions on pig to bring bids for round lots. Curtailments of products in cotton fabrics continues, and as a result about 100 persons are either killed or injured.

The Reading railroad express, which left Philadelphia at 6:40 o'clock this evening for Atlantic City, crashed into a Pennsylvania railroad excursion train at the second signal tower, about four miles out from here.  
The Pennsylvania train was returning to Bridgeton with a party of excursionists from that place, Millville and neighboring towns. It was loaded with passengers, and a rough estimate of the killed and injured at a late hour places the number at 100. It is hoped that this is an exaggeration, but the number is undoubtedly more than fifty.

At the second signal tower, the tracks of the two roads diagonally crossed. The Reading train was given the signal to stop, but the brakes either failed to work or the speed of the express was too great to be checked in time. It caught the excursion train broadside and ploughed through, literally cleaving it in twain. The engine of the Reading train was shattered to pieces. Every car on the excursion train was jammed to its fullest capacity.

As soon as the news reached Atlantic City, the utmost consternation prevailed, but the authorities were equal to the emergency. Relief trains were dispatched to the scene, loaded with out and bearing staffs of surgeons. As quick as the bodies were recovered, they were carried into the local hospitals and undertaker's shops.

A general fire alarm was sounded, and the department promptly responded, and aided in the heartrending work of digging for the victims. Fear grew into despair and horror as the vigorous work of the relief gangs revealed the awful extent of the disaster.

The first Reading relief train bore into this city twenty-seven mangled corpses, men, women and children. The next train, not an hour later, carried fifteen of the maimed and wounded, and two of these died soon after reaching the city.

As train after train piled to the scene of the wreck, and came back with its ghastly burdens, the Sanitarium, which does duty as the city hospital, quickly found its capacity overtaxed. Meanwhile others of the dead and injured were being carried to the private hospital at Ocean and Pacific avenues.

Eward Farr, engineer on the Reading train, was killed outright, as was another railroad man who rode on the engine with him. This man, whose name has not yet been learned, saw the collision coming and leaped from the cab an instant before the crash came. Almost at the same instant the engine cut its way through and caught him directly in its path. His body and that of Farr were found under a heap of debris, but the engineer lay in what remained of the cab, and his right hand still clasped the throttle. He had been faithful unto death, and met it at his post.

The fireman on that train leaped a few seconds before and escaped with trifling injuries.

Samuel Thornton, baggage-master on the Reading train, is among the dead.

Jame M. Bateman, a Bridgeton undertaker, is known to be killed. He was in the third car, and his hat was found lying among the mass of broken timbers.

Richard Trecheard, a Bridgeton machinist, and his wife are both dead. Conductor Kelly, of the Pennsylvania train, had both arms and legs broken, and was internally injured.

Albert J. Mosebach, of No. 18 North Eighth street, Philadelphia, was on the Reading train. He escaped unhurt.

The excursion train was made up of fifteen cars, the foremost of which was a baggage car. This and the next two coaches caught the full force of the crash, and were utterly demolished. What remained of the third car was tumbled into a ditch at the roadside. The responsibility for the accident cannot now be fixed.

William Thurlow, telegraph operator in the tower-house, was arrested to-night and held, pending an inquiry.

Dressed to Death.  
The Dalles, Or., Aug. 3.—A distressing accident happened late last evening, whereby Frances Elizabeth Kraft, the eldest daughter of ex-Mayor Paul Kraft, was killed. The young lady, accompanied by her younger sisters, was out driving when the horse became frightened and ran away. The younger sisters were thrown out and the elder one stayed in for a time, when she, too, was thrown from the vehicle. The young lady was dragged for over a mile and fearfully lacerated.

Driven Out by Cretons.  
Athens, July 30.—A large body of Mussulmans supported by Turkish troops while engaged in pillaging the Adomati district of Crete were attacked by 1,000 insurgents. The latter drove the Mussulmans and Turkish troops out of the district inflicting serious losses.

To Succeed Sotelli.  
Rome, Aug. 3.—Father Martinelli, prior-general of Augustinians, has been appointed successor to Monsignore Sotelli as papal delegate to the Roman Catholic church in the United States.

A Bicycle Rider Killed.  
Lima, O., July 31.—Joseph Greidler, of Minneapolis, one of the crack bicycle racers, was killed here today. Greidler was probably overcome by heat, for he left the track, ran straight into the crowd, and was thrown upon a fence, receiving injuries which resulted in his death half an hour later. Greidler was in the lead in the half-mile open race at the time the accident happened.

A 4½ Burmay ruby, the largest ever cut, was sold in London the other day for \$40,000.

# ANOTHER HORRIBLE ACCIDENT

Express Crashes Into an Excursion Train.  
100 ARE KILLED AND INJURED

Wreck Occurred at a Railroad Crossing, and the Excursion Train was Literally Cut in Twain by the Express.

Atlantic City, N. J., Aug. 3.—A railroad accident, horrible in its details and sickening in its results, occurred this evening, just outside of this city, and as a result about 100 persons are either killed or injured.

The Reading railroad express, which left Philadelphia at 6:40 o'clock this evening for Atlantic City, crashed into a Pennsylvania railroad excursion train at the second signal tower, about four miles out from here.

The Pennsylvania train was returning to Bridgeton with a party of excursionists from that place, Millville and neighboring towns. # UNPRECEDENTED RUN.

More Salmon Than the Lower River Canneries Can Handle.

Astoria, Or., Aug. 3.—The receipts of salmon at the various lower river canneries continue unusually heavy and are far in excess of the capacity of several of the packing establishments. Today the fish were so plentiful that Kinney's men delivered nearly 100,000, and near Sand Island it was reported that the water was almost awash with large chinooks. Many were reported to have been taken with hook and line in the midst of a great school of fish. At one or two canneries, where too many fish were received, the loss is heavy. Tons of fish are being thrown overboard at Kinney's on account of the lack of means to preserve them until they could be canned. As many as possible have been salted for the winter use by the citizens in the west end of town, and were freely given to all who would carry them away.

Fishermen assert that never since the canning industry began has such a run been seen. If it continues until the close of the season, the chances are favorable for a much larger pack than had been anticipated. An unusual feature of the situation is the quality of the fish, which is fully equal to those taken in June, the fish being exceptionally red and firm and the quality of oil abundant.

THROWN INTO A CISTERN.  
Texas Man Slays His Family and Disposes of Their Bodies.

Austin, Tex., Aug. 3.—T. E. Burt, a member of one of the most respectable families, murdered his wife and two children, aged 2 and 4 years, last Friday night, and placed the dead bodies in a cistern. He left the city Saturday night following the terrible deed, after advising several neighbors not to drink the water in his cistern, as it was polluted. His relatives became alarmed at the disappearance of his family, and began an investigation, resulting in the finding of the bodies today. Burt bound his wife in a blanket, after tying her feet and neck together, and then dropped the body into the cistern. Both children had their brains knocked out. His brothers have offered a reward of \$800 for his apprehension.

Burt was at one time a prominent furniture dealer in this city, but gambling got the best of him, and last year he failed and was indicted for embezzlement, but his brothers succeeded in getting him out of the trouble. The governor has offered a reward for his arrest. Nothing is known as to Burt's whereabouts, although telegrams have been sent all over the state and to outside cities. No motive for the crime is known.

DESTROYED BY FIRE.  
Grass Valley Suffered a Severe Loss From the Flames.

Grass Valley, Cal., Aug. 3.—At 8:20 o'clock tonight, an alarm of fire was sounded for a blaze in the opera house. The fire started under a store occupied by Ismert and Webbe, and spread with great rapidity. Soon the whole building was enveloped in flames, and the adjoining buildings commenced to burn and, despite the work of the firemen, it looked as though the whole center portion of the town would be destroyed.

The fire department of Nevada City came over to assist the local department, but a scarcity of water hindered them so they were of little service until an extra head of water was turned in to the supply ditch. The two departments did great work and confined the fire to the block bounded by Neal, Church, Auburn and Bank streets. The loss will exceed \$100,000, it is thought. Insurance in most cases is small, and the blow is a hard one to the city.

An Indiana Tragedy.  
Vincennes, Ind., Aug. 3.—Thomas Prather, a farmer, and Miss Maud Delany, daughter of a wealthy farmer, eloped from Sanborn, this county, and drove to this city and were married. They then drove back to Sanborn, when an altercation took place between Prather and Clyde Delany, a brother of the bride. Prather fatally shot the new brother-in-law in the abdomen. The elopement was planned some time ago, but Prather's marriage license was forcibly taken from him by members of the young woman's family.

Neutrality Proclamation.  
Washington, Aug. 3.—The president has issued a proclamation bearing date of July 27, again commanding citizens to observe the neutrality laws in respect to the Cuban insurrection, and giving notice that all violations will be vigorously prosecuted. The president cites the decision of the supreme court in the Wiborg case in order that citizens may not be misled as to the meaning of the military laws.

Oil Tank Exploded.  
New York, Aug. 3.—Two men were fatally injured and three others severely burned by the explosion of a tank at the Standard Oil Company's works, at Cravens Point, Jersey City, today. The fatally injured are: Richard Cunningham, and John Goldsmith. The works were set on fire by the explosion, but the flames were extinguished before much damage was done.

Driven Out by Cretons.  
Athens, July 30.—A large body of Mussulmans supported by Turkish troops while engaged in pillaging the Adomati district of Crete were attacked by 1,000 insurgents. The latter drove the Mussulmans and Turkish troops out of the district inflicting serious losses.

To Succeed Sotelli.

# PORTLAND MARKETS.

Business for the past week has been satisfactory, the month of July far exceeding expectations in most lines. A noticeable feature of the trade is the fact that large orders for which prompt payment is made have been coming in from sections where not a pound of wool or a bushel of wheat has been sold, and where these two great staples are the only crop. The closing days of the fishing season are marked with an unprecedented run of salmon, and wheat has already begun to move.

Wheat Market.  
The prospects for a fair yield are much better than they were reported a few weeks ago, and conservative estimates now place the total output within 10 per cent of that of 1894, or fully 30 per cent greater than in 1895. Some of this increase is due to increased acreage over last year. Quotations are as follows: Walla Walla, 49 to 50c; Valley, 52 to 53c.

Produce Market.  
FLOUR—Portland, Salem, Cascadia and Dayton, \$2.85; Benton county and White Lily, \$2.85; granum, \$2.50; superfine, \$2.25 per barrel.
