

# CASTORIA

for Infants and Children.

"Castoria is well adapted to children that recommend it as superior to any prescription known to me." J. A. Archer, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"The use of 'Castoria' is so universal and so well known that it seems a work of supererogation to endorse it. Few are the intelligent families who do not keep Castoria in their easy reach." CARLOS MARTIN, D. D., New York City.

Castoria cures Colic, Constipation, Sour Stomach, Diarrhoea, Eructation, Killia Worms, gives sleep, and promotes the growth of the child, and is safe and wholesome, without injurious medication.

"For several years I have recommended your 'Castoria,' and shall always continue to do so as it has invariably produced beneficial results." EDWIN F. PARKER, M. D., 1234 Street and 7th Ave., New York City.

THE CASTORIA COMPANY, 77 MURRAY STREET, NEW YORK CITY.

W. E. BROWN, B. D. PAINE, F. W. OSBURN, President, Vice President, Cashier.

## Mexican Mustang Liniment

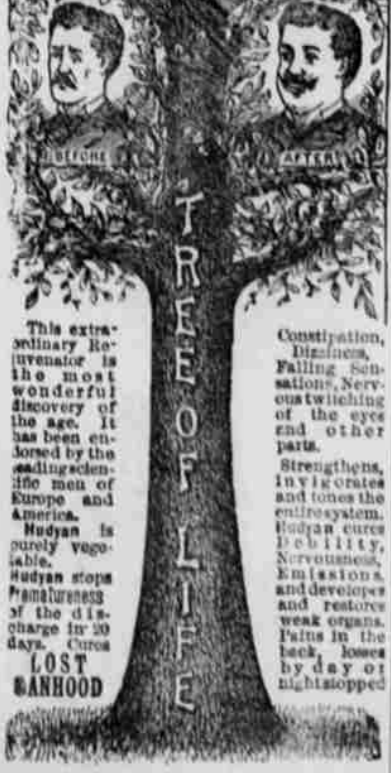

Burns, Caked & Inflamed Udders, Piles, Rheumatic Pains, Bruises and Strains, Running Sores, Inflammations, Stiff Joints, Harness & Saddle Sores, Sciatica, Lumbago, Scalds, Blisters, Insect Bites, All Cattle Ailments, All Horse Ailments, All Sheep Ailments.

Penetrates Muscle, Membrane and Tissue Quickly to the Very Seat of Pain and Ousts it in a Jiffy. Rub in Vigorously.

Mustang Liniment conquers Pain, Makes Flesh or Beast well again.

THIS PAPER is kept on file at E. C. DAVIS Advertising Agency, 64 and 65 Merchants Exchange, San Francisco, Cal. where contracts for advertising can be made.

### THE GREAT HUDYAN

Over 2,000 private endorsements. The strongest stimulant in the first stage. It is a symptom of general weakness and nervousness. It can be used in 10 days by the use of Hudyan.

### GETTING SCARED.

The single standard gold men are badly scared and are now on the run as the following editorial under the head of "Are they in Earnest?" from the New York Sun, their greatest organ will conclusively prove:

"It is not at all doubtful that the silver repudiationists are in earnest, dead in earnest. They are full of hope and vigorous determination. But how is it with the enemies of repudiation? Are they proceeding as if they were impressed by the danger of financial ruin which now menaces this country? They seem to be incapable of understanding that in the campaign every business interest and every man's property or wages are really and actually in peril. It is impossible for the people to vote for such disaster, they say. But why is it impossible? The same democrats said it was impossible that the silverites should control the Chicago convention, and they remained slothful while the silver crowd were drumming up the delegates. Then they turned with childish confidence to Mr. Whitney. They thought he could stop the conflagration; but it went on, gathering new forces as it proceeded. Now they are talking of some cheap device to put it out. They are talking about a new and sound-money ticket in order to gratify their partisan and personal prejudices."

Men who have time to spend in such comparative frivolities cannot be very much in earnest. If their houses were afire or notes likely to go to protest they would have something of more pressing importance than the cut of their coats to think about. But now, when all their financial security is in peril, they are idle. The danger is real. It is not impossible, but it is also very probable, if this inability to comprehend the actual situation continues to be exhibited. Wake up! The threatened ruin can be prevented by the union of the forces of honesty, but to avert it they must get together and fight hard from now until November."

Calling patriotic citizens "repudiationists," "anarchists," "socialists," etc., is not stampeding the true American voter. Of course the silver men are in earnest. They are convinced that the blotting out of nearly one-half the circulating medium will further enslave the mechanic, farmer and laborer. And if these classes do not prosper the business man and manufacturer must also go to the wall. The Sun calls for the union of gold forces. To offset this every silver man should come up to the polls in November and vote to place the white metal where it was prior to 1873.

### ALL KINDS OF GIRLS.

The girls are running away with poor fellows nowadays. With the bicycle girl, the golf girl, the tennis girl, the seaside girl, the hunting girl, the riding girl, the rowing girl, the football girl, the fencing girl, the mountain climbing girl, the graduate girl, the new and the old summer girl, the youth of today lives in a nerve ending quandary.—Memphis Commercial-Appal.

Here are the physical proportions of the two candidates:

William J. Bryan—Height, 5 feet 10 1/2 inches; weight, 200 pounds; chest, 44 inches; waist 39 inches; hat, 7 1/2; shoes, 9; glove, 8; collar, 17.

William McKinley—Height, 5 ft. 8 1/2 inches; weight, 185 pounds; chest 42; waist 44; hat 7 1/2; shoes, 7; glove, 8; collar 16 1/2.

Hon W H H Hart, ex-attorney-general of California, and a prominent Republican, who is at Washington D. C. on business connected with the sale of some Pacific coast mines, says that Bryan will carry the golden state by a good sized majority. The sentiment in favor of free coinage is sweeping the whole country.

Massachusetts has lost within two years six of her governors, all of them national reputes—Ames, Banks, Rice, Robinson, Greenhalgh and Russell. Today she has left only four of her governors of the past—Long, Brackett, Claflin and Boutwell.

### SEEKS PROSPERITY.

The dispatches under date of Chicago, August 17th have this: Frank H. Cooper of the big firm of Siegel, Cooper & Co., of Chicago and New York, the biggest retail firm in the world, has just returned from Europe. He is alive to the issue of the day and has kept well posted while away.

"We can make everything over here that is made abroad," said Mr. Cooper, "but with McKinley as president our currency may be come even more contracted than it is today, as a single gold standard, if adopted, would work ruin to this country and make times harder than they are."

"I can't see anything but good to the result from the free coinage of silver. True, it will benefit the mine owners, but it will also benefit the farmers and the West. It will give the farmer money; it will make better prices for farm products; it will make the farmer a buyer in our markets. Times can be no worse than they are at present. Our Currency is not expanded enough for the demands of the people. France has \$40 per capita of money in circulation, and her people are prosperous and happy. We have but \$20 per capita. We need more money, and free coinage will put an end to business stagnation. Our factories are closed and our artisans and mechanics are out of work. More money will make higher prices, a better demand for goods and a revival of prosperity. Goods and produce are too cheap because people have no money to buy them. The depreciation in prices on some lines of goods has been more than 50 per cent in the last six months. Can our merchants and manufacturers stand this?"

"With free silver the price of wheat and corn would enhance in value at once. Dollar wheat for the farmer makes him look at his clothes. When they are frayed he buys new. He refurnishes his house, if it is needed, and so helps to start the furniture factories going again. It is so in all lines. The more money, the greater demand for goods."

"A single gold standard would bring prices still lower and more failures and more disaster for the people. We are partially upon a bimetallic basis now, and that in a measure is our salvation. Contract our currency to \$15 or \$12 per capita and the result would be such as no one could figure."

"Talking of free silver, our mints could not turn out over \$60,000,000 per year—less than \$1 to every inhabitant. Would that flood the country? It would restore prices, confidence and resuscitation of business. That, I think, is about what free silver would do for us. We want to take care of our selves first—European countries are able to take care of themselves."

### Hop Contracts Filed.

Salem Statesman: Hop contracts aggregating 33,000 pounds of the current year's product were filed with County Recorder F. W. Waters yesterday by Lillenthal & Co's agent, H. J. Ottenheimer. Four growers agree to supply that amount as shown in the following: Henry Manning, of Gervais, 10,000 pounds; Charles LaRuan and David Martin, Gervais, 11,000 pounds; Joseph LeMay, Gervais, 9,000 pounds; Henry Foy, Aurora, 6,000 pounds. Six cents is the price to be paid per pound and each grower is to have an advance of 31 cents at the time of picking his hops.

SUIT IN EQUITY.—Jas F. Moade, et al, have commenced suit against Sarah Howard Harold, et al, to quiet title to 520 acres of land in Lane county. The land it seems was assessed to one Reuben Robinson, who was dead at that time, and was afterwards sold for delinquent taxes to defendants. In the meantime the land came into the possession of plaintiffs and they had given in the same and paid paid taxes on it, hence the suit.

MARRIED.—G. Walter Milliken and Miss Mabel Dodson, two well known young people of Wallerville, were married at 4 p. m. today at the residence of James Abrams on East Ninth street, Rev R C Brooks of the Congregational church officiating. The GARD extends congratulations to the newly-wedded couple.

CHAIR OF MUSIC AND ELOCUTION.—Irving M. Glenn, of Dayton, has been placed in the chair of music and elocution in McMinnville college. He is a graduate of the University of Oregon, a class of '94. Since his graduation he has put in two years at John Hopkins University in special work in English and elocution.

A BRYAN CLUB.—Eugene is to have a Bryan club. A number of leading silver democrats are now preparing a club will not be confined entirely to democrats but the friends of the white metal in all parties will be admitted.

MATRIMONIALLY INCLINED.—Medford item in Jacksonville Times: "Joe Koch of Jacksonville, the map builder, has been sojourning with us during this week. From appearances his friends sniff matrimony in the air."

Daily Guard, August 19.

THE '96 ROLL.—Assessor Burton and deputies began work on the '96 assessment roll today. Four copies of the roll will have to be made—two each for the assessor and clerk. Only two copies of the roll will be made now.

10 TO 1.—A harvest crew of 17 men working near this city took a vote on the money question a few days ago. The vote resulted: Silver 16; gold 1. That was 16 to 1.

HOPS.—The hop market is some flimsy. The Wallerville, N. Y., Times, reports that buyers are offering to contract in that state at twelve cents per pound.

### School Apportionment.

The county and state school apportionments for August have been made, and are divided up among the different districts of the county as follows:

Pleasant Hill No. 1	277 50

### O. C. & E. Speculation.

The Lincoln County Leaver publishes the following railroad gossip: The solid, substantial and thorough repairs that are being made on the O C & E, seem to be a very good indication that something in the way of extension is contemplated. The bridges and roadbed are being put in the best possible shape, thousands of ties are being replaced, and the physical condition of the road is the best it has been since it was first built, if not the best it has ever been. All this has been done at an immense outlay of money, and at an outlay that the present traffic of the road would never justify. The plausible theory then is that the owners contemplate something more than the extension into Eastern Oregon so long looked for and so ardently hoped for. Mr Hammond is a man of very few words, and he is actually doing today what a great many capitalists before him have tried to do and failed—he is actually building a railroad into Astoria. Everything indicates that before the first of 1897 that the Astoria & Goble road will be completed and cars running into Astoria. After that giant project has been terminated by a successful completion we verily believe that Mr Hammond will immediately turn his attention to the extension of the O C & E. The undertaking is not so great as that of the Astoria & Goble road, and while there will be no great subsidy to earn, the profits and earnings would repay the outlay. It would not only open up a vast country by railroad connection, but it would put the present line of the O C & E in a paying, profitable condition. We have full faith that August, 1897, will see the active work on the long-cherished extension of the O C & E well under way.

### Fire From Incandescent Lamps.

"There is a most erroneous impression abroad regarding the incandescent light," remarked a prominent electrician recently. "Most people have an idea that enclosed in glass, as this idea cannot set fire to anything. This is, but is very dangerous. An illustration of the truth of what I say is an experience a friend of mine had the other night. He was reading by one of these incandescent lights. The glare hurt his eyes, and he tied a handkerchief around the light to soften it. Shortly after doing so he had occasion to leave the room. Fortunately he was not absent long, for when he returned the handkerchief which had been tied around the light had become set afire, and dropping on the table under the light, had ignited a lot of papers. The papers, table and all were blazing away merrily when returned." —New Orleans Times Democrat.

### Yerington Wins.

WASHINGTON, Aug. 18.—The secretary of the interior has affirmed the decision of the general land office in the case of George H. Yerington vs the Oregon & California Railroad Company, in which the claim of the road to lands in the Roseburg district, in Oregon, is rejected. The land lies in the limits of the indemnity withdrawal of January 31, 1870, revoked August 15, 1887. The company selected it January 10, 1894, and a hearing showed that Yerington had settled on the land in August, 1891, and had resided thereon continuously to the date of the hearing.

### Distressing Accident.

Appeal, August 15: Nas, the 13 year old son of H. Oleson, who lives near Mt. Angel, met with a distressing and probably fatal accident Wednesday morning about 10 o'clock. While hauling grain, the team the boy was driving, became frightened and ran away, throwing him out of the wagon. He struck his head on a stump, breaking his skull and penetrating the brain. He was unconscious until the surgeon arrived and took out several pieces of bone and bark which were resting on his brain. It was a frightful accident and is a case that demands skillful treatment and if the land reevers, a great deal of credit will be due Dr Brooks, the physician, who has the case in charge.

### Residence Burned.

McMinnville Transcript: "Last Friday morning Rev Harry Watkins expected his wife up from her home at Bertha to join him at this place. But instead came a note from her stating that their residence together with all its contents had been destroyed by fire the night before. Among the things lost were a number of valuable books and papers that Rev Watkins treasured. He is now in town, and is looking for a new residence. The origin of the fire was unknown and clouded in mystery, as Mrs Watkins was away from home at the time." Rev Watkins was at one time pastor of the Eugene Christian church.

### New Contracts.

Salem Statesman: Elissa & Fritz, of Cincinnati, have contracted to purchase 5,000 lbs of hops from J. A. Pooler, who is cultivating the T. M. Adair farm, and 15,000 pounds of H. S. Belle and Chas and David Giger. The latter are to come from the vines now constituting the yards on the farm of Mrs Belle near Salem. The price to be paid in each instance is 6 1/2 cents with an advance of 4 cents at picking time. The contracts were filed at the court house yesterday.

### A Business Change.

Hon Robt Clow, of Junetion City, has purchased a half interest in the Junetion City flouring mills from C. P. Houston. The two gentlemen will conduct the mill under the new firm. Mr Clow is one of Lane county's well known men and possesses excellent business qualifications. The new firm will be a better success and the GARD wishes them increased prosperity, which they will undoubtedly have.

### At Blue River.

City Recorder B. F. Dorris is at Blue River mines. W. B. Lawler is expected daily to arrive with a force of men to begin work in the mines bought by the English syndicate. It is now currently reported at Blue River that the syndicate is assured. This is considered one of the richest in the Blue River district.

### The Successful Applicants.

The following applicants were successful in the recent teachers' examination:

First Grade—Miss Ella E. Mock.  
Second Grade—Miss Ada D. Cate, B. W. Mulkey, Miss Lena Chandler.  
Third Grade—Miss Lenna Reid, Miss Elsie Lea, Chas B. Donaldson, Miss Ethel G. Reid, Miss Ruth Stevenson, Miss Georgia C. Barr.  
From 31 applicants, four dropped out before close of examination, and failed and the above 19 were granted county certificates. Six applicants were recommended for state certificates as follows: Margaret Luckey, Nettie Whitney, Ivan McQueen, Linnie W. G. Neely, Minnie Evans, and Mrs M. G. Neely. There were two applicants for two and two for one diplomas, but their papers have not been completed yet.

The lawn social last Saturday night was a grand success owing to the busy times.

Mrs W. L. Bristow of Pleasant Hill and Mrs J. M. Keeney of this place, visited on Fall Creek last Wednesday.

Daily Guard, August 18.

LEFT FOR AFRICA.—Bishop Mills left today, accompanied by his daughter, Alice, and niece, Miss Harrison. The two latter left for Iowa. The bishop will spend a few weeks in the central states, then on October 1st will leave New York for Liverpool and will go from there to Free Town, West Africa. He will spend about three months in that region inspecting and establishing missions. He will return then to Germany where he will spend several months during which time he will visit the Universities of Halle, Jena, Berlin, and Leipzig, after which he will visit the Universities of Oxford and Cambridge in England, to learn the latest word on sociology. He hopes to return to this country by the first of next June.

Daily Guard, August 18.
