THE TANNERY.

Amount of Tan Bark Used An-nually, and Other Notes.

Perhaps one of the most important and successful industries under the present stringency of the hard times is W W Haines & Sons' tannery, locate in the eastern part of the city. Messrs Haines have built up a business which has prospered even in these times. By prospering it has proven of great value to Eugene, Lane county and in fact the entire Willamette valey, inasmuch as wood, tan bark. hides, etc, are often purchase at a long distance from the seat of the tannery. In fact hides are purchased by Mi The library committee announce the sale of the following magazines: The Ferum, The Arena, Century, Harpers Monthly and St Nicholas.

The numbers of all are from April all hides to be bad. The prices paid

nitude to the average person is the amount of tan bark used annually and the price paid for it. Messrs Haines have this year purchased 400 cords, nearly all of which has already been employ of the Chicago Lumber Co, at cash, per cord. Thus it will be seen personal use to be the best medicine is ing up the mountainous districts of the world for rheumatism, having the county. The bark of the hemlock used it in my family for several years. only is used for tan bark and this tree grows only on the higher mountain elevations. The prices paid are such as It always does the work." 50 cent to give good wages both to the men bottles for sale by sters who haul it. The company has also purchased 200 cords of wool at

\$2.00 per cord, the highest market price this year. The tannery is now running on full time. Several new buildings for shelt-ering tan bark and wood and additions to the main building have been erected during the summer. A number of new vats have been built lately and the capacity of the tannery has other-wise been increased considerably within the past year and next year's out-put of leather will far exceed that of any previous year. Twelve men are any previous year. Twelve men are now employed and 1000 sides of leather mand for the leather is such that It is shipped as fast as a few rolls can be turned out. Forty-five rolls, or over 10,000 pounds, were shipped during August. The output will be increased
