THE BEST SPRING MEDICINE. It is SIMMONS' LIVER REGULATOR—don't forget to take it. The liver gets sluggish during the winter, just like all nature, and the system becomes choked up by the accumulation of wastes, which brings on Malaria, Fevers and Chills, and Rheumatism. You want to wake up your liver now, but by some you take SIMMONS' LIVER REGULATOR to do it. It also regulates the liver—keeps it properly at work, when your system will be free from poison and the whole body benefited.

Republican Betterments Wanted. Salem Journal, Oct. 13: Monday after exhausting all argument, Geo Stolz offered to bet Dr W S Mott \$100 that McKinley would be elected. The doctor at once agreed to meet him with the coin at 9 o'clock. The republican striker in his enthusiasm also wanted to bet another \$100 on the results in Oregon. The doctor at once agreed to cover the same with his coin at 9 o'clock Tuesday. At this Tom Kay, the popular woolen mill operator and protection enthusiast, stepped up and said he had \$500 to wager upon general results for McKinley, which offer was accepted by the nervous doctor with the other two. This morning the man of medicine and Hon G S Downing appeared at the appointed place and hour with the \$700 jingling in their jeans, prepared to double their money on their faith, but in and behold they were lonesome until some of the Bryan friends gathered around, for the republican advocates failed to show up, with their proffered wealth. And the Bryan money has been forced back into the coffers of some Salem bank.

Rev Wookey preached at the Red Rock school house today. Henry Smith returned Friday from Bohemia where he has been at work for some time. Born, Oct. 4, to the wife of Chas Groshing a girl. Dudley Shields has rented the Grousebeck place and will move on the place as soon as Jay Gould moves away from the place. THE HOP MARKET.

—Tuesday's Sale in the "hop" market was a success. The well-known hop buyer, who went to Jefferson this morning, Mr Hubbard stated that 71 cents per pound was being paid for choice hops and it was a question in his mind whether it would be possible for growers to any longer hold their hops in the expectation of a further rise since he did not think the price would advance any more.
