IS OHIO FOR BRYAN.

James Gordon Bennett's New York Herald, a staunch supporter of McKinley in this campaign, published the following unpleasant bit of news from the republican headquarters at New York:

"News had come from Ohio that was not of a pleasant character. No one seems to have thought for a minute that McKinley might not carry his own state. Yet the first poll made by the Ohio state committee gave the state for Bryan, and the second poll was not much more satisfactory.'

The report from the Herald confirms the judgment of Henry George, whose prediction of an Ohio landslide tor Bryan, with his reasons for it, have been published.

Henry George, who has been in Ohio for several weeks, viewing the political situation, closes a letter to the New York Journal as follows: "And now, when only four weeks of the campaign remains, there can be no question as to which side is gaining. Free silver is everywhere making its way, and everywhere the republican candidates are losing ground. I find this in Cleveland, as I return to it, after something like a week's absence, and it is the thing upon which all of those I have talked with elsewhere are with new piling. agreed. And to these elements of success is being added that most potent element which Bryan's personal touch with the people is producing and intensifying- a belief in the honesty of the man.

"From my views of the situation, I cannot think that Bryan will fail to carry Ohio by a large majority; and the same influences that give him Ohio should give him all the Central Western states that times are about five times as long as have been considered doubtful.'

There are other evidences which tend to show that Ohio is very Cure subdues inflammation at once doubtful, and, in spite of state and completely removes the difficulty pride in McKinley, it may go for OSBURN & DELANO. Bryan and free silver, Among these other evidences is a statement from Bariah Wilkins, proprietor of the Washington Post, and formerly a representative in congress from neutral in the campaign and his system and purifies the blood. An ex-He says: "Information from my old district in Ohio, from the most reliable sources, leads me to believe that Bryan will have 2300 majority there. In the last election the republican majority was 800." He further says he received a letter from one of the leading railroad mechanics at Cleveland, saying that Cleveland would give Bryan 15,000 majority. At the last election Cleveland went republican by 6000. Mr Conger, formerly chairman of the republican committee and at one time a member of the republican national committee, dropped into Mr Wilkins' office a few days ago and told Mr Wilkins that he had apprised Mr Hanna that Cleveland was lost to the republican party. Mr Wilkins says that a careful poll of the state, made to ascertain the true situation gives Mr Bryan the state by 35,-

If there is any truth in the statements here recorded, and Bryan carries Ohio, his election is likely to be made unanimous. The people are in the humor to show the "professionals" and the "experts," the "specialists" and the "money kings" that they are still on deck determined and capable to sail the ship of state.

Col D B Bush of Portland, prominent in insurance circles and a lifelong republican, has declared for Bryan and free silver.

There was very little play at the pute of some kind or another going on the rooms of Prof Lu-lia C Carson in club except at the time of the three annual fairs, each of which lasted a week. One autumn afternoon, just at the opening of one of these fairs, I happened to go to the club rather early. There was a fair num-ber of men there that day who were strangers to me, wealthy farmers of the neighborhood, who rarely came into town, and the various owners of the country houses

There was no room to sit down at the table, so I continued standing, holding my hat in my hand and throwing my winnings into it. I had a run of luck and went on playing in the most excited way until I was startled by some one calling out, 'You are being robbed, captain!

"I started and instinctively seized a hand which had knocked against mine through my sudden movement. It was M. de Mertens' hand, and he held the £40 note which he had just taken out of my hat. Mertens soon after left the club. Three days passed, and I heard nothing more of the young man. In shielding him as I had done, my first thought had been of his father, and I had determined to save from disgrace the name of the brave soldier of Magenta. Of course I could quite understand that the young man should now shrink from seeing me again, but still it struck me as rather strange that In some way, either direct or indirect, he did not attempt to express his thanks.

"One evening, lowever, just as I was going out to pay some visits, my orderly informed me that a lady wished to see me. I went into the drawing room, and there I found a woman of about 45 years of age. She was very dignified looking, and there was an open, honest expression about her face which fascinated me.
