South bound local train due here at 2:30 was expected to arrive here at about 5 o'clock. Another full carload of Oliver plows at F. L. Chambers's.

In a couple of more days, providing it does not rain, would be a good time to haul the mud off our business streets.

A travelling photographer has been in the city for the past few days taking flash light views of the interior of stores.

The 500 Oliver plow is leader of all favorites. See it at F. L. Chambers. The county board of equalization has had but little to do so far. They have not even overruled yet with claims of over taxation.

Frank Abram Powell, a divinity school student, lectured at the court house last night on the subject: "What is Pluripotism?"

Quite a number of farmers are in town today trading, the water having receded so as to permit them to cross the rivers and sloughs.

Miss Eva S. Harbour, of Montague, California, arrived on yesterday's delayed overland. Miss Harbour attended the university last year.

Stephen Smeed of Camp Creek precinct, is in town. He says more general damage was done by the recent high water than any flood in the last twenty years.

The Jacksonville Times learns that A E Fenner will soon return to Jacksonville and the practice of law in connection with Hon W M Colvig. This would make a good team.

Florence West: The members of the Presbyterian church of Florence are circulating a subscription paper for the purpose of raising funds in hopes of retaining Rev I G Knotts as pastor for another year.

It would be hard to convince a man suffering from bilious colic that his agony is due to a microbe with an unpronounceable name. But one dose of DeWitt's Colic and Cholera Cure will convince him of its power to afford instant relief. It kills pain.

OSBURN & DELANO. E Patterson was arrested this morning by Constable Best on a complaint charging him with fast riding over the Eugene wagon bridge across the river. The trial will probably take place tomorrow.

We are anxious to do a little good in this world and can think of no pleasanter or better way to do it than by recommending One Minute Cough Cure as a preventive of pneumonia, consumption and other serious lung troubles that follow neglected colds.

OSBURN & DELANO. Primeville Review of November 14: "Moses George Stewart and Mattie Babey and Mr Frank Stewart, three teachers of Crook county, started last Thursday by private conveyance to The Dalles. From there they will go on to Eugene and enter the University of Oregon and will take a course in that institution of learning. Crook county loses (but only temporarily) three of her best teachers, but they intend to prepare themselves for their future work. We wish these young people a pleasant trip and that their highest hopes may be realized."

We might tell you more about One Minute Cough Cure, but you probably know that it cures a cough. Every one does who has used it. It is a perfect remedy for coughs, colds, hoarseness. It is an especial favorite for children, being pleasant to take and quick in curing.

OSBURN & DELANO. An Oregon Ex. says: "Speaking of street crossing, in a short time the winter dark colored stockings will be a thing of the past. Fashion's relentless edict proclaims the advent of tight gorgious hose and in a short time the red, white and blue barber shop signs will be the tames of muddy day street scenes. There is a new stocking out, which has the appearance of being bound with ribbon from the toe to the top. A sight of it would make a striped zebra die of envy. Flashy colors are to be all the go, and a clothes line will look like a Fourth of July celebration. Large plaids will be in the swim and the louder the colors the more fashionable. Perpendicular stripes of embroidered flowers and also plain fine lines will be in vogue."

CHRYSANTHEMUM SHOW. Mrs Veazie and Mrs Chapman announce a chrysanthemum show to be held Wednesday, Thursday and Friday of Thanksgiving week. Eli Hill, Lumber City, Pa., writes: "I have been suffering from piles for 25 years and thought my case incurable. DeWitt's Witch Hazel Salve I recommended to me as a pile cure, so I bought a box and it performed a permanent cure." This is only one of thousands of similar cures. Eczema, sores and skin diseases yield quickly when it is used.

OSBURN & DELANO. The wife of Mr Leonard Wells, of East Brimfield, Mass., had been suffering from neuralgia for two days, not being able to sleep or hardly keep still, when Mr Holden the merchant there sent her a bottle of Chamberlain's Pain Balm, and asked that she give it a thorough trial. On meeting Mr Wells the next day he was told that she was all right, the pain had left her within two hours, and that the bottle of Pain Balm was worth \$5.00 if it could not be had for less. For sale at 50 cents per bottle by Osburn & Delano.

Hops.

Of the hop situation in Puyallup portion of Washington the last issue of the Weekly Commerce contains the following: "Robert Brown the well-known hop grower of Connell prairie was down this week and is hopeful of soon getting some fair returns on his six tons of hops. He consigned them to Pier Bros., and they ought to be on the rising market there this week. His advance was 4 cents and he left two tons on the trees unpicked. The forced sale of the E Meeker Co. hops attracted quite a crowd to Puyallup Wednesday, the following hop buyers being present: Robt Livesly, representing the Pacific Hop Co.; A E Poole and H E McGowan, representing Pier Bros; T L McNeft, representing Phil Nies & Co; Isaac and James Phinix, Herman Klaber and Geo Rose. These hops were all of '95 growth and a few of them were sold to H S Ottenheimer, Geo L Rose and Herman Klaber, the price paid was from 1 1/2 to 2 1/2 cents per pound. There were 1000 bales in all to be sold. The sale of the balance was postponed until November 23d. A F Backus bought of C F Meuthler 100 bales at 13 cents per pound, also 100 bales of '95 hops at 5 1/2 cents per pound. Offers of 12 1/2 cents have been made for hops at North Yastima, and prices still show firmness. It is reported that the London and San Francisco bank, of San Francisco will run the old E Meeker Co., hop yards this year."

Under date of the 11th the Osego Republican, of Cooperstown, New York, says of the hop market there: "The hop market is in a very healthy and promising condition. The purchases here the past week have run well into the hundreds, the buying being general. Twelve cents has been freely paid for choice hops. Sales at 12 cents have also been made. It is said, too, that 13 and 14 cents have been paid for special lots of extra choice large growths."

Creswell Casualties. Nov 18, '96. Henry Parsons has received the first degree of daddynood and it is a girl.

The snow of yesterday was a surprise and the "oldest inhabitants" declare that it never happened before, but Wm Tiffany of this place distinctly remembers the 17th of November just 24 years ago, when he first arrived in Lane county and there was about five inches of snow fell that day. Creswell was at that time the terminus of the O & C R R.

The river here reached its highest point at 8 o'clock Sunday night, and laked only three inches of reaching the high water of 1890. A lot of railroad wood from beyond Walkers, came down the river during the night and a lot of it is in the drifts near here.

Two young men named Elliot who were working at the Stone hop yard, got supper Sunday evening with the water creeping up the legs of their stove and when supper was done there was five inches of water on the floor of their shanty. They moved camp that night and sought higher grounds.

There are two dangerous places in the roads of this district either of which are liable to cost Lane county a heavy lawsuit one of these days, just because of a system of false economy. One of them is within sight of town and has given three or four persons a close call for their lives, and is now dangerous. The other is a mile south of here at Low's place, where some Indians got in deep water Tuesday and came near drowning. Two of them cut their hands terribly on the barbed wire fence which the S P added to the already dangerous place.

Some business changes are taking place in Creswell F A Tozier has moved his stock of goods into the "Temple of Justice," and we understand that Howe and Webber will put in a stock of merchandise in the old Scarbrough building.

ZEPH. STATE OF OHIO, CITY OF TOLEDO, Lucas County. Frank J. Cheney makes oath that he is the senior partner of the firm of F. J. Cheney & Co., doing business in the city of Toledo, county and state aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

THROUGH INVOICING.—E H Ingham of the Ninth street department store has finished invoicing his large stock of goods. The business has shown a good profit the last year, as Mr Ingham states in his new ad in the GUARD today, and he will continue to sell goods at low prices the coming year.

MARRIED.—Mr Harley S Furman and Miss Minnie Morris were united in marriage at the home of the bride's father on Monroe street, at 8:30 o'clock last evening, Nov 18, J A Longbotton officiating. Quite a number of friends were present, and following the ceremony all were served to a beautiful repast.

MARRIAGE LICENSES.—The county clerk last evening granted marriage licenses to the following persons: Harley S Furman and Miss Minnie Morris; Carl S Baker and Miss Laura B Burns.

WHEAT SOLD.—Over 6000 bushels of wheat were sold at Junction City yesterday to millers for 75 cents per bushel, net. For export it is worth only 72 1/2 net, but the millers have raised the price.

FINAL GAME IS OFF.

Salem Will Not Play Eugene Next Saturday—Cannot Raise Funds. The final game of the intercollegiate series for the pennant, season of '96, is off. The game as arranged for was to have been played in Salem next Saturday by the team of the University of Oregon of this city and the Willamette University eleven of Salem. Manager Travis of the U of O team last night received the following letter from the manager of the Salem team: SALEM, Or., Nov 17, 1896.

MR L M TRAVIS, Manager U of O Team, Eugene, Or. DEAR SIR:—From indications it does not look like we could make expenses of playing a game of foot ball here next Saturday between our respective teams. We do not care to come to Eugene to play; consequently, I hereby notify you that it is all off between us, and there will be no game next Saturday, the 21st.

Very truly, L H VAN WINKLE, Manager W U Team. How to Prevent Croup. Some reading that will prove interesting to young mothers. How to guard against the disease.

Croup is a terror to young mothers and to post them concerning the cause, first symptoms and treatment is the object of this item. The origin of croup is a common cold. Children who are subject to it take cold very easily and croup is almost sure to follow. The first symptom is hoarseness; this is soon followed by a peculiar rough cough, which is easily recognized and will never be forgotten by anyone who has heard it. The time to act is when the child first becomes hoarse. If Chamberlain's Cough Remedy is freely given all tendency to croup will soon disappear, even after the croupy cough has developed it will prevent the attack. There is no danger in giving this remedy for it contains nothing injurious. For sale by Osburn & Delano, druggists.

SOMETIMES WE FORGET. The "oldest inhabitant," last Tuesday was quite confident that three inches of snow never fell here in the Willamette valley before at such an early date. Of course the GUARD reporter recorded the fact. Today we were told by at least two parties that on November 17, 1872, just exactly twenty-four years prior to last Tuesday that five inches of snow fell right here in Eugene. We hunted up our newspaper files and found this to be correct. We also found this item in the issue of Nov 23, 1872: "During the past week we have been regaled with regular winter weather, some of the nights ice forming in thickness from one to two inches." This proves conclusively that we are very likely to forget occurrences as time rolls by. However, no one yet has claimed that we ever had such a raise in the river as occurred last Monday so early in November.

Two Lives Saved. Mrs Phoebe Thomas of Junction City, Ill., was told by her doctors she had consumption and that there was no hope for her, but two bottles of Dr King's New Discovery, completely cured her and she says it saved her life. Mr Thomas Eggers, 130 Florida street, San Francisco, suffered from a dreadful cold, approaching consumption, tried without result everything else then bought one bottle of Dr King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results of which these are samples that prove the wonderful efficacy of this medicine in coughs and colds. Free trial bottles at Henderson & Linn's drug store. Regular size 50c and \$1.

COMPounding REMEDIES.—We like enterprise and are always ready to chronicle any display of it. It is the life of the community. These remarks are occasioned by the display in Yerlington's drug store window, of some ten or fifteen proprietary remedies of his own compounding, intending to take the place of the patent medicines ordinarily used in families. He informs us that he will extend the line as far as possible until the whole field is covered. This is praiseworthy and must commend itself to his patrons.

THROUGH INVOICING.—E H Ingham of the Ninth street department store has finished invoicing his large stock of goods. The business has shown a good profit the last year, as Mr Ingham states in his new ad in the GUARD today, and he will continue to sell goods at low prices the coming year.

MARRIED.—Mr Harley S Furman and Miss Minnie Morris were united in marriage at the home of the bride's father on Monroe street, at 8:30 o'clock last evening, Nov 18, J A Longbotton officiating. Quite a number of friends were present, and following the ceremony all were served to a beautiful repast.

MARRIAGE LICENSES.—The county clerk last evening granted marriage licenses to the following persons: Harley S Furman and Miss Minnie Morris; Carl S Baker and Miss Laura B Burns.

WHEAT SOLD.—Over 6000 bushels of wheat were sold at Junction City yesterday to millers for 75 cents per bushel, net. For export it is worth only 72 1/2 net, but the millers have raised the price.

Armature Burned Out.

About 8 o'clock last night a coil in the armature of the large incandescent dynamo of the Eugene Electric Light Company burned out, causing a stoppage of that machine. Several business houses and private residences were left without light.

The company at once took the machine to pieces and are repairing it today. They think it will be ready for service tonight (maybe not until tomorrow night); the accident is known as an electrical burn. No known cause can be ascribed for an armature burn.

The insulation on about 800 feet of wire becomes charred and allows the naked wires to touch each other and renders the machine useless until the wire is removed and new wire again wound on.

This is a very particular work as any two wires again touching would cause a repetition of the accident. The officers of the company are always active, and work day and night to give their patrons the best of service. It is impossible to prevent such accidents as the above.

For Fast Riding on Bridge. Daily Guard, November 18. Everet Paterson today answered in Justice Wheeler's court the charge of fast riding on the Eugene bridge in violation of the law. The complaint was entered by County Judge Potter. The case was prosecuted by Deputy District Attorney Harris, and Attorney J M Williams had charge of the defense.

Paterson stood trial and the following jury was drawn in the case: John Edmunson, S R Williams, I E Stevens, J R Sloan, James Taylor and Martin Foster.

The jury returned a verdict of guilty and a fine of \$10 and costs was imposed.

SHAKESPEARE CLUB.—The Shakespeare club met on Tuesday evening with Misses Scott and Murch at the home of Mrs Underwood. The reading of "The Winter's Tale" was concluded and was followed by an animated discussion of Act V and of the character of Hermione. Miss Carson then entertained the club with selections from Mrs Jamison, contrasting the characters of Hermione, Imogen and Desdemona—Shakespeare's three ideal characters of true womanhood. Cymbeline was selected as the next play to read. The next meeting will be with Miss Maud Wilkins, and will be devoted to papers on the leading characters in The Winter's Tale, and to an outline of the play of Cymbeline, by the president.

DAILY SUPPER.—The supper given last night by the Catholic ladies in the building formerly occupied by Goldenith's grocery, was attended by a large crowd and was a very successful affair financially. A splendid supper was served.

Highest in 400 Years. Albany Democrat: "The O C & E train was at Detroit when the heavy storm set in and is there now and will be for several days. The Santiam upon that way raged as never before. At one or two points it turned directly upon the track washing everything out of sight. Mr John Butterworth, who walked nineteen miles to get out and arrived in Albany last night, says that trees that were there when Columbus discovered America were uprooted and toppled over. The work of putting the road in condition between Green Basin and Detroit will be a big task."

BORN.—In living precinct, Nov 18, 1896, to the wife of S S Spencer, a daughter.
