

CASTORIA

for Infants and Children.

Castoria is well adapted to children that need it as a purgative to any prescription given to them. It is a natural and safe medicine. H. A. Anderson, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"The use of Castoria is so universal and so sure that it is known that it is a safe and a sure purgative to endorse it. There are the sweetest families who do not keep Castoria within easy reach."

For several years I have recommended your "Castoria" and shall always continue to do so as it has invariably produced the best results.

PROSPERITY WITH A VENGEANCE

In yesterday's Oregonian's two columns of failures were recorded, notwithstanding that we were told by the above paper that when McKinley was elected that "Prosperity would engulf the country." The contraction of the currency is responsible for the hundreds of failures occurring daily throughout our land. Only the larger failures are reported by the Associated Press.

Here is the list published on that day:

- Security Mortgage and Trust Co., Dallas, Texas; creditors lose \$1,500,000.
- Bank of Superior, Wis.; assets, \$25,000; tied up; deposits, \$100,000.
- Scandia bank, Minneapolis; no assets; liabilities, \$300,000.
- Atlas National, Chicago; liabilities, \$2,900,000, with \$820,000 in questionable resources.
- Dime Savings bank, with nothing in sight.
- The Peninsular Car Works, Detroit, opened a few weeks before election with 1,500 men, who were promised steady employment if McKinley was elected; this captured their votes, and a few weeks after election they were shut down indefinitely.
- Duhne Jewelry Company, Cincinnati; \$40,000; assets unknown; affairs badly involved.
- The McCoy Banking Company, of Independence, Mo. The reason given is that its president, W. C. McCoy, is too advanced in years to manage its affairs longer.
- Dry goods firm of A. Frank & Co. Fort Wayne, Ind.; indebtedness to local creditors, \$70,000; also a heavy indebtedness to Eastern creditors.
- The Excelsior Machine and Bolt Work Company, Chicago Ill.; liabilities and assets are each about \$40,000.
- Loecina (N.H.) Car Company; creditors will lose \$600,000.
- The Atlas bank is the most prominently thievish, because it has ruined more people than the others and they are bad enough.

THE GREAT HUDYAN

Some one should inform the "advance agent of prosperity" that his show has been sidetracked.

Already 8000 citizens of Ohio have filed applications for federal positions under McKinley's administration.

There may be a pointer in the fact that most of President Cleveland's congressional callers are republicans.

The democratic senators should not allow the republicans to put the blame on them for doing nothing at this session of congress.

An Albany man yesterday advertised for a girl to do general work, "stammers need not apply." He received eight or ten answers.

Princeton Review: Dick Vandever returned from Eugene last Tuesday. Sometime ago we stated that he had been caught on the other side of the mountains by the snow and could not get across with his wagon and supplies consequently he came back by the Dalles. Dick is no exception to those who have returned from The Dalles— all pronounce the roads, the next to impassable.

Courier: The financial administration of Clackamas county has for years been like that of the national government, uneconomical. The county revenues annually about \$70,000, of which from three and one-half to three and one-half years' interest at 5 per cent has accrued, or \$10,000. The county has a debt of \$150,000 in warrants and interest accrued, and there is little hope, under the system in vogue, of ever wiping this out.

A letter from Warm Springs, Harney county, by G. R. Southworth, written November 23, and received December 23, says: "The snow began to fall here on Monday evening, November 23, and covered for 30 hours, giving a depth of 6 to 8 inches. I have had a fire in the stove 3 1/2 days today—the 28th—yet the water froze in the bucket, not over six feet from the stove. My house is a double box, sealed overhead with match lumber."

J. F. FORD

(Evangelist)

Of Des Moines, Iowa, writes under date of March 23, 1898:

S. B. MED. CO., DuFur, Oregon.

GENTLEMEN: On arriving home last week I found all well and anxiously waiting. Our little girl, eight and one-half years old, who had wasted away to 35 pounds, is now well, strong and vigorous, and well fleshed up. S. B. Cough Cure has cured and kept away all humors from me. So give it to every one, with greetings for all. Wishing you prosperity, we are Yours, MR. AND MRS. J. F. FORD.

If you wish to feel fresh and cheerful, and ready for the spring's work, cleanse the system with the Headache and Liver Cure, by taking two or three doses a week.

Twenty-three is apparently a lucky number for Major McKinley. He will be the twenty-third president, the regiment to which he belonged was the twenty-third Ohio, and he was elected by the electoral votes of 23 states.

It is said that the fifty-fifth congress will contain three members named "Loud, Tongue and Booze." The Kansas City Times suggests that some day these three members will get into a controversy on the floor and the people of Washington will realize for the first time what a real western campaign means.

A California exchange says: "There is a probability that in the next legislature a bill will be introduced, and possibly passed, to abolish the grand jury system, which is claimed by many to be a useless expense to the counties." Washington already has such a law and Oregon should hasten to avail herself of such a measure. It would save the state thousands of dollars now spent on an old worn out law.

The City Council last evening passed an ordinance in relation to the old shack, by courtesy called an opera house. The improvements ordered are good ones, but the old structure should be condemned as a public theatre building, if it is possible, and the charter should be amended so as to give the council legal control of this matter if it is deficient in this regard, as the building is a veritable fire trap, and loss of life will certainly ensue if a fire ever occurs in the shack.

For telegraph news like the following we have to depend on Eastern papers, and it is not very bad reading when it does get here:

New York Sun, Dec 16: The last of the municipal elections in Massachusetts were there yesterday. The most surprising result came in Lynn, where Walter L. Ramsdell, a silver democrat and populist, was elected by a majority of about 1,700. This was brought about largely by the cut-downs in the local shoe-shops since the national election. Ramsdell is a newspaper man and has conducted his campaign on the late silver issue.

In Boston six republicans and six democrats are elected aldermen. The common council is democratic by a fair majority. License is carried by about 7,000 majority.

The mayors elected in various cities are: Cambridge, Alvin F. Sartwell, dem; Chelsea, Herman W. Pratt, rep; Lynn, Walter L. Ramsdell, dem; Newburyport, A. R. Curtis, dem; North Adams, A. C. Houghton, dem.

Ramsdell, the successful candidate in Lynn, received tonight a congratulatory telegram from Wm J. Bryan, saying the city had "at last put the right shoe on the right foot."

The Pendleton E. O. wrote very nicely about Christmas on the day previous. It said: The greatest and best and loveliest of days! At midnight tomorrow the birth of Christ will have been celebrated seventeen hundred and ninety-nine times. The first celebration of the event occurred in 98. For fifteen centuries the event has been celebrated on December 25th. No better tidings were ever given to mortal man than Christ's first gospel message delivered to the humble shepherds on the Judean hills. There surely was a special solemnity about the night and the surroundings, for the mind of Him would not have coined such a beautiful and poetic phrase as "peace and good will towards men," making His voice still heard to this day and age, if there had not been. That the shepherds heard Him gladly proved, for we of this day are still moved and moulded by His influences. He thus gave to us Christmas days with its joys and its blessings and noble feelings toward one another. He taught us love, and to the extent that He did, He relieved us of the burden of hate. From His teachings we have learned to live more for one another. We have become less literal and more spiritual, less believers in the letter of things. We have caught the spirit of "Do unto others as ye would have them do unto you," and we have grown larger and broader because of it.

The McMinnville Transcript, rep. says: The Oregon legislature convenes Monday, Jan 11th—2 weeks from last Monday. The body will be largely republican, and we hope to see a good work done that will redound to the credit of the people who have trusted the republican party sufficiently to place it in power. Of course the most important act will be the election of United States Senator. There should be no quibbling in this matter. The party should go into caucus, choose a nominee and then elect him—whoever he may be. Another session of jugglery like that of two years ago and the republican party's name in Oregon is "Jugglers." The good people will not tolerate it—and they can't be blamed.

Roseburg Review: Only a few weeks ago, the managers of these bankrupt banking institutions were selling depositors that the election of Bryan meant that they would be paid off in fifty-cent silver dollars. Now these same depositors will be lucky to get ten-cent dollars—and that, too, in spite of the fact that the "advance agent of prosperity" was elected.

MONDAY, DECEMBER 28.

Oregon weather again. 1897 calendars are being distributed. A man in Portland has invented another calendar.

There is just now a lively competition in the undertaking business in Baker city, and while the cost of burial is so low it might be well for all those contemplating a change from this mundane sphere to take advantage of the cut rates, says the Baker City Democrat.

W. W. Haines & Sons of the Eugene tinners have been blasting the channel of the river out in places to protect the company's property in the eastern part of the city. Last year several hundred feet of breakwater was put in and has been of great value.

It is reported that a party of fakirs are working the towns in Eastern Oregon on the old time worn racket of carrying family photos at \$1.50 apiece, and invariably getting the money, the preliminary advance of 50 cents, the balance to be paid when the company delivers the goods.

Do You Use It?

It's the best thing for the hair under all circumstances. Just as no man by taking thought can add an inch to his stature, so no preparation can make hair. The utmost that can be done is to promote conditions favorable to growth. This is done by Ayer's Hair Vigor. It removes dandruff, cleanses the scalp, nourishes the soil in which the hair grows, and, just as a desert will blossom under rain, so bald heads grow hair, when the roots are nourished. But the roots must be there. If you wish your hair to retain its normal color, or if you wish to restore the lost tint of gray or faded hair use Ayer's Hair Vigor.

Salem Statesman: State Senator Robert Carter, of Benton county, and representative Norman Miller, of Col. county, both republicans, are eligible to fill H. H. Mitchell's resignation in the United States senate, respectively. It is doubtful if either of these gentlemen will be able to attend the legislative session of the Oregon legislature.

Oregonian: "How is business?" asked one Portland lawyer of another. "This place," was the reply. "I have been pained to death all the forenoon." "What has been done?" "Oh! I was watching up a 'mercantile' boy from a poor devil of a corporation, and he would not let me see it. I had to pay a dollar to pay for recording it. Could you lend me four bits to buy some mistletoe and holly?"

Bentley West: Recently while on the beach west of the mouth of the Willamette Taylor and his boys found a bundle of papers which had evidently come from the sea. The papers were much worn and apparently from being tossed about by the waves, but upon unrolling them were found to be a paper's report, manifest of cargo, etc., of the steamer Walla Walla on trip from Seattle to San Francisco, Dec 18, 1897. Mr. E. J. Taylor found a paper and some letters which had apparently come ashore lately.
