Top Dressing Poor Knolls.

It is often hard work to get a clover seeding on the dry, elevated knolls in grain fields. Lack of moisture is usually the cause. But the evil may be remedied by drawing a few loads of stable manure and spreading over these knolls. The manure not only protects the young clover plants, but it also holds the moisture in the soil by checking evaporation. A few times seeding the knolls thus will make them as rich With a better understanding of the transient nature of the many phys-ical ills, which vanish before properef-forts-gentle efforts-pleasant efforts-rightly directed. compound.

Tells a story of health. It is the reflection of strength in all the vital parts. A face is expressive of joy and mirth, caused by health, or of misery and suffering, caused by disease. The nerves that are irritable and tired cannot give brightness to the eye; blood that is sluggish cannot make the cheeks rosy ; so ill health tells its story, too. But nature provides a cure for all such troubles.

A Pretty Face

Dr. Sanden's Electric Belt

Whence comes the joyous vital force? From electricity-animal magnet-ism. Dr. Sanden's Electric Belt saturates the vital parts with its warming, vitalizing power, which gives new life and healthy blood to all parts of the body. It arouses the energy of youth and makes life a pleasure.

"I have received very much benefit from the use of your Belt. My health has been very much better this winter. I am relieved of that tired and worn out feeling; also of the numbness of my hands and twitching of the cyclids. I out feeling, also with the Belt, and would not do without one for a good deal more than it cost if I could get it. I shall always remember the Sanden Electrie Co. with a grateful heart."-D. C. COYNER, Montesano, Wash., March 22, 1897.

897. Men or women who are weak, read Dr. Sanden's book, "THREE CLASSES OF MEN." It is free, sealed from observation, by mail.
