

The Sensation Of the Season is the

BARKER BICYCLE

Mr Long says it is a daisy, and it is as fine a looking wheel as I ever saw. The Barker Bicycle.
Mr Fisher said it looks all right, Barker. I don't know anything about a bicycle to speak of, but it surely looks all right. The Barker Bicycle.
Mr Hemenway says it looks as well as any he ever saw. Don't see why it isn't just as good. He likes it. He says it is so easy to mount or dismount.

Learn to ride a Bike. Barker will teach you.

Guarantees to learn gentlemen in 59 minutes so they can ride a bicycle. Price, 75 cents and wheel furnished. Will teach ladies for 50 cents an hour. Wheels 25 cents per hour. Ladies in bloomers will learn to ride in one or two hours. Ladies in short dresses two to four hours. Ladies in long dresses, four to ten hours. Careful instruction given and the most possible pains taken with students. We make no charge to parties buying bicycles of us, when the sale affords a profit to us.

The silent steed of steel, next thing to the flying machine. You ride on air. I have in mind the Barker Bicycle. Ladies and gentlemen, it's all right.

Van Buren says it runs remarkably smooth.

Mr Frank says it is much prettier than the 97 Sterns, The Barker Bicycle.

PEOPLE WHO PURCHASED BARKER BICYCLES

Last year are well pleased
with their mount. They are
silent, run easily, and are the

PINK FELLOWED KIND.
THE BARKER BICYCLE.

Mr. C. C. Matlock says The BARKER Bicycle is all right, runs right. "I can't see anything the matter with it. I like the handle bars."

Mr. Geo. M. Miller says it is all right. You bet it don't make any noise, runs fine. Likes the spring in the handle bars and that very rigid frame very much.

Mr. Al Kuykendall says The BARKER is all right and runs fine.

Mr. J. A. Roach says: "It is the finest running wheel I ever rode. I thought the Columbia was the best wheel on earth, but The BARKER beats it."

Mr. Howard Rowland said The BARKER was fine and compared with other wheels it ranks high.

Dr. Chasher says it is the easiest running wheel he ever rode. "Don't see why you shouldn't get those wheels before the public. They run nice; the design and style is fine. It's a good looker."

Mr. Will Hollenbeck says it is an excellent wheel. Mr. Kincaid says it looks right, feels right and runs right. The Barker Bicycle.

Look out boys, there comes a runaway train. O, excuse me it is only a common bicycle. Boys you can bet that rider never saw the Barker Bicycle. If he had, he would buy one at once.

The Barker Bicycle

Some of the reasons why you should buy a Barker Bicycle:

First-It is worth \$100. You can get it for \$50. You save \$50. This is the agent's and jobber's profit. For you see the point? We make 'em, sell them to you, you only have one profit to pay. You save two profits. See the point?
You will hear someone say, "there goes a person with brains and refinement, good taste," and all such stuff. Ask them why they think so, and they will say, "they have the Pink of Perfection with them". In a you will observe they are out. WHAT? The Barker Bicycle, of course.
Pink Felloved Bicycles are good ones, as well as good lookers. Boys, they a treat the girls, and my dear girls they attract the good looking and intelligent boys. Don't miss the opportunity to own a Pink Felloved Bicycle, for they are good.
THE BARKER BICYCLE.

The Ladies...

All agree
That it is a very handsome
thing to see,
and some say,

"NOW MR BARKER,
YOU OUGHT TO BE
PROUD OF IT."

... THE ...
BARKER BICYCLE.

In the Barker Bicycle each and all bearings are nicely ground and polished after being hardened and tempered, thus assisting a smooth, easy running bearing. All parts are carefully inspected and are of the best material. All of these minor details show in the running qualities of the machine, and the riders all agree that it is the pink of perfection, runs very fast, swift and easy. To make a good bicycle it requires pains. This is what we have taken, and if you ride one of our wheels you will see. It will show you we have taken the pains to make it good. They are also graceful and handsome. They rank with the \$100 kind, but we sell them for less. On our ladies' wheels the aluminum chain guards are a hit in the right direction; looks well, has no lacing to break, no wood to split. They are only put on high grade wheels. Ours are high grade. Barker Bicycles are good value. We expect to sell more next year than this; each year a few more. That is the way we grow. If we didn't give good value this year next year we couldn't do business in wheels; but we expect to do more business in '98 than this year, for the people will then know more about our Bicycles.

Please read other peoples opinion on the Barker Bicycle. They have tried them.

All Barker Bicycles are made of 3-ply tubing, double tension. This tubing is harder to work, but we use it because we think its the best, and the best is none too good for our Bicycles.

McKinley says:

"PATRONIZE HOME INDUSTRY."

Why not try it by buying a BARKER BICYCLE. You save two profits and have the other profit at home. So you can get some benefit of it. Barker has got it. He built three houses in Eugene. How many houses have the men who make wheels in New York built in Eugene. Can't you see the point? This is worth your honest consideration.
