Another class of men must cut a respeciable figure as farmers, and they buy a half section or a section of land; spondent of the Daily Mail says: Ten and Dayton, \$4.00; Benton county and a part of the purchase money. The Flour-Portland, Salem, Cascadia may pay for the whole or go in debt for White Lily, \$4.00; graham, \$3,40; su- land may be first rate, but the man has more land than he can work. He can-Wheat-Walla Walla, 73@74c; Val- not more than about half farm the land he has undertaken to work. He cannot Oats-Choice white, 38@40c per keep down the weeds nor properly fertilize his ground. The hiring of help Hay-Timothy, \$14.00@15.00 per as wanted is very uncertain, these days

A speculator buys 8,000 or 10,000 Barley-Feed barley, \$16.50 per ton; acres of land in a good locality. He is interested in having settlements made Millstuffs - Bran, \$14.50; shorts, as fast around his purchase as possible. He has bought with the calculation that Butter-Creamery, 35c; dairy, 20 or the settlement of the country will make him a fortune. The speculator's land Potatoes-Oregon Burbanks, 40 @ 50c; , is usually offered at a strong advance been repulsed by the Greeks. General Garnet Chilles, 55@65c; Early Rose, on the price originally paid for it, but 35 at 40c per sack; sweets, \$2.75 per on long-time payments, bearing a cental for Merced; new potatoes, 3c healthy rate of interest. In this way a good many farmers have been drawn into trouble and some speculators have Poultry-Chickens, mixed, \$2.50@ made money. It is, however, the policy day, by a vote of 43 to 26, refused to 3.00; geese, \$5.00 a 7.00; turkeys, live, of the government of this country to

have all lands sold in small holdings. A man going into a new part of the Young country to buy a farm should make his calculation to buy just as much land as he can pay for and have enough money left to improve the purchase with. He should have buildings of the right size would have been required to secure a Beef — Gross, top steers, \$3.50; and for all purposes, and should have cows, \$2.25 @ 3.00; dressed beef, 4 at fencing of the right kind, so stock could likely be thick necked and grow a crosneither break in upon him nor break of scullions. Mutton-Gross, lost sheep, wethers out. After the farm is well fixed every farmer should have a bank a of \$300 to \$500, which is far better than the session and was cordially greeted 4.25; light and feeders, \$2.50 a 3.00; to year. How much anxiety and trou-

ble has the mortgage made. We have seen it stated lately that the which has been entered, exclusive of Alaska, is 600,000,000 acres. Of course, whatever the amount is, the estimate takes in mountain, hill and dale, sand. plain and every kind of worthless, unproductive land. It will yet be a long time before all the land that is really desirable is taken up and put to practical use. The Indian reservations. when they come into market, sell quickly, and they are all choice land.-Rural

Dwarf Pears. There is one great advantage of dwarf trees over standard. They come into bearing earlier. A dwarf pear, for instance, is produced by budding on a quince stock and matures sooner than If on a pear stock. Dwarf trees should be pruned at the top, otherwise they are liable to fall over. More trees can be planted on given space than of stan dard size, but of course each tree will Vegetables-Potatocs, per ton, \$13,00 not bear as profusely. The yield is @14; parsnips, per sack, 75c; beets, nearly the same per acre for both. They are in high favor with many, because pruning, thinning, spraying and gathering fruit can be done so much more easily from small trees than from high ones.-Fruit Garden.

Fattening Calves. The first question which a butcher asks about a calf offered for the shambles is how it has been fed. If it has been allowed to suckle the cow, the calf is in his opinion all right, and will dress as well as it looks. But this de are only natural to the breed. St. Louis pending on suckling, though good for Republic. the calf, helps to dry up the cow, and to make her uneasy when the calf is taken from her. The advantage of the suckling process is that the calf gets its food slowly, and always warm. The slowness with which the calf gets the milk, and the muscular effort of the mouth required to get it, mixes more sallya with the nutrition and insures better digestion. But the owner of the cow may properly insist that the calf shall not run with its dam, suckling a little every hour or two. Give it two meals per day, as nearly twelve hours apart as possible, and the last few minutes milk the richest part of the milk, the strippings, into a pati. It is very rare that a calf will get from the | p. 106) states that there were Admirals udder all that the human hand will do. It is this retention of the strip-Joaquin plains, 8 & 11c; do 12 months, pings in the udder that tends to dry cows so quickly when their calves Edgar, Ethelred and others who had

Enging Sweet Potato Fets. Most nurserymen and seedsmen are glad to furnish sweet potato sets for planting. They can do it, too, more cheaply than the average farmer who has no greenhouse can do it for himself. More sweet potatoes ought to be grown by Northern farmers. They need a warm, rich soil. By selecting a cloudy day, with probability of rain, the sets fore the top wilts. The home supply of | ference in their looks.

by farmers as ordinary potatoes, except that it is cheaper and better to winter, and may multiply the sets several times over from each eye before spring. It is this multiplication of sots from single eyes that makes it possible

American Cultivator.

Pekin Ducks and Water. The Pekin duck is a very valuable variety, but it has the reputation of not Mr. Neeley and elicited the loss. Dampness causes leg weakness in ducks.

The good layers are active and genrally on the move.

Dry earth is a good material to scatter under the roosts.

When a thrifty bird is fully matured is easily fattened.

Early hatched, well-developed pullets nake good winter layers. Stale bread, soaked in milk, is a good feed for young poultry,

Thrifty, vigorous one-year-old hens make reliable winter layers. Cleanliness and good feeding are the secrets of success with poultry.

On the average it will cost one dollar o keep a laying ben one year. Leghorns and black Spanish lay eggs

with the whitest shells of any breed. Scald and allow them to stand over night in a place where they will not freeze; this is one of the best ways of feeding oats to poultry.

It is natural for some breeds of poul try to moult lighter each year, and hence what are often taken for defects

Title of Admiral.

It should here be explained that the title of "Admiral" was not used in England in the earlier days, says the Lon don Nautical Magazine. In fact, the better opinion is that it was not so used before the beginning of the fourteenth century. He was called Capitaneus Maris (Captain of the Sea), "Keeper of the seacoasts." "Captain of the King's mariners." The title "Admiral" or "Amiral," probably derived from the Arabic amir or emir (prefect), was used in foreign countries much earlier than in England, and came to us from France. Prynne ("Animadversions," and an Admiralty Court in England as early as the time of Henry L, derived from our ancient Saxon kings-Alfred, the dominion of the British ocean None of these kings probably was more potent that King Edgar, who, possess ing an absolute dominion of the neigh boring sea, sailed round about it every o year and secured it with a constant guard. These ships being very stout ones, were in number 1,200; some writ ers even affirm that there were 4,800 sailing ships.

thousands. Try it and walk in newness of life. Large sized bottles or new style

Large sized bottles or smaller ones at your nearest store.

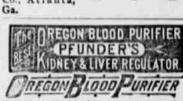

Mr. E. D. Jenkins, of Lithonia, Ga., says that his daughter, Ida, inherited a severe case of Eczema, which the usual mercury and potash remedies failed to relieve. Year by year she was treated with various medicines, external applications and internal remedies, without result. Her sufferings were intense, and her condition grew steadily worse. All the so-called blood remedies did not seem to reach the dis-

ease at all until S. S.S. was given, when an improvement was at once noticed. The medicine was continuedd with favnow she is cured sound and well, her skin is perfectly clear and pure and she has been saved from what threat-

ened to blight her life forever. S.S.S. (guaranteed purely vegetable) cures Eczema, Scrofula, Cancer, Rheumatism, or any other blood trouble.
It is a real blood remedy and always cures even after all else fails.

A Real Blood Remedy. Take a blood remedy for a blood disease;

a tonic won't cure it. Our books on blood and mailed free to diseases Swift Specific Co., Atlanta,

Certain Cure

Is your back weak? Have you Rheumatism or Kidney Trou-

ble? Try Sanden's Electric Belt All other means have failed, but the thousands who have told of their cures by Dr. Sanden's Electric Belt give evi-dence that after everything else has by Dr. Sanden's Electric Beit give evi-dence that after everything else has been tried without results, the famous Beit will cure if a cure is possible. It has great electric power, is warranted to last one year, and is applied by a regular practicing physician. Those who use it have the beneat of Dr. Sanden's knowledge free of charge

HERE IS A LATE CURE. After suffering tortures from rheumatism, lame back and weak kidneys, I was induced to try your belt, and I would not give it up now for \$30 if I could not get another. My troubles had annoyed me for years, and my back was so weak I could not lift twenty-nve pounds. The belt knocked the pain out in six weeks and the rheumatism in three, and I have not felt a return of either since then. I laughed at the idea when a friend of mine told me your belt would cure me, but I am changed now, and am talking for myself.—E. J. Burke, S. F., Cal., April 27.
