FRANK AND OPEN.

The Oregon Union is the name of a new paper published at Corvallis. It is very frank and open on the political situation and pleads for the Republican party to give the gold Democrats proper recognition. It does not appear to understand that for every gold Democrat carried into the Republican party that political organization will lose ten free silver Republicans when the matter again comes to issue. We give our readers a few choice extracts from this appeal to the "patriotism" of the gol i Democrats prefacing the same, however, with the opinion that outside of capitalistic and monied interests very few "gold" Democrats are in existence:

"The sound money democrats carried Oregon for McKinley. If the republicans carry the state next state election it must be done by the aid of the same voters. Therefore, it is the part of political wisdom to seek to retain these allies.

"Sound money is what these democrats voted for, and the republican party must make it sure that the country is to have sound money,

"They would not tolerate fr e silver in the democratic party, they will not tolerate even a doubt about it in the republican party.

"The party at Washington may be relied on to perform its pledges in that regard, but the party in Oregon must not permit it to be questioned whether it is firmly for sound money, otherwise it will lose the sound money democrats and tion 5 of No 15 overland to day, lose Oregon. There ought to be no reason why the sound money democrats should not permanently act with the Oregon republicans.

"Then comes a question of practical politics. Sound money demperats were patriotic. They had not the hope of political preferment nor the pride of party success as incentives. It is to their credit that they have not sought to be rewarded for their splendid patriotism Nevertheless it would be a graceful recognition of their services to tender to them a confidence and ppreciation implied in the bestowal of important offices. Not for their sake, but for the sake of the republican party ought this to be done,

"In every country in this state there are s erling democrats who would add strength to our party and efficiency to the public service.

"And who doubts that we shall need them again? The torces of free silver will surely combine again. When the fight is on again the sound money democrats must be in our army.

"To insure this we must give some commissions beforehand.

"The free silver republicans who went from us will not come back ngain until the fight is over. Th is, they will not be converted from their error until the republican party shall have demonstrated by practical results the soundness of sound money, and the rottenness of rotten money. This will require a practical demonstration.

We invite the o-operation of all sound money democrats in this country to defeat our common enemy,

The Sacraments Bee says Bryan came overland from Ogden to Sucra mento in a Pull nan sleeper and was fortunate in being able to se cure a lower borth. On the trip over he became very well acquainted with the twen y or more paspart from him. After the adieus were over one of the passengers turned to another and said: 'I have been with Mr Bryan for three days and old. I never met a man in my lie that I thought was more deserving of confidence. He is an honest, earnest man and thinker with a mighty big capacity for thought, and the people of the United States have just begun to hear from him."
