SURELY COMING.

The Walter L. Main R. R. Shows.

Every man, woman and child who knows anything about circuses, and who ever saw the Walter L. Main enormous R. R. shows, will be delighted to know that the big shows, in all their magnificence and exalted grandeur, will surely exhibit at Eugene on Thursday, July 25, and precede both exhibitions with the grandest morning street parade ever seen since parades were first exploited.

The great shows will be seen several new features, which cannot be seen elsewhere. Those who have seen the monster corral jump pronounce it the greatest, the strangest and most unique marvel to which the deep ocean ever gave birth.

The lady lions, four of a kind, infants of the forest, are a strange and lovely sight. The Roman hippodrome, an exact reproduction of the arena of Ancient Rome, and the modern races attached to it, are all new, exciting, exhilarating, and in all things equal to the best races run on a modern race course.

The menagerie will be a delightful study for all, because it comprises more wild, tame and strange beasts than our people have ever before had an opportunity to see. The show is great in everything and small in nothing.

A number of farmers have said however, that they would commence threshing the latter part of this week. This is considerably earlier than last year, the first of the '96 crop coming in the first week of August.
