CHARGED WITH RAPE.

John A. Holt, of Coburg, Arrested for This Horrible Crime.

Two Daughters Said to be His Victims.

Coburg, Or., Aug 19.—For some time it has been rumored that John A Holt would soon be arrested for the crime of rape committed on his two daughters aged 11 and 13 years respectively.

This morning the arrest was made on a warrant sworn out before Justice Drury, for the crime of rape. Holt claimed his entire innocence, and demanded preliminary examination at once.

The mother of the girls at the girls themselves told a party today that the charges were false. Holt has lived here a number of years, belongs to several fraternal orders, and has borne a fair reputation. A few years ago his livery stable was consumed by fire. He is the proprietor of the Coburg stage line.

At this hour, 3 p m, the preliminary examination is being heard. Attorney Harris appeared on behalf of the state and L Bilyeu for the defendant.

"HE SHOULD RESIGN".

Harmony Must Exist Between the Faculty, Board of Regents, Students and Citizens of Eugene.

Cannot Do Himself or School Justice.

The Dalles Times-Mountaineer, one of the ablest and most conservative journals in the state, urges Dr Chapman to resign the presidency of the State University, and gives cogent reasons why his further retention of the position cannot but prove injurious to the future usefulness of that educational institution. The Times-Mountaineer says:

"It now seems to be an assured fact that Prof Chapman will not resign the presidency of the state university, he having telegraphed his intention to return to Eugene before the date fixed for the opening of the school. Having been re-elected president of the university, it is a matter of choice with Prof Chapman whether he retains the position or not, yet it would seem that better judgment would have dictated that he resign. Whether in the right or wrong, the opposition that has been raised to his being retained at the head of the school cannot be overcome. The efficiency of the institution cannot but be affected so long as one who has incurred the displeasure of a large number of the students and a considerable portion of the citizens of the city in which the university is located remains in control.

"For the university to be a perfect success as the leading educational institution of the state, perfect harmony must exist between the faculty, the Board of Regents, the students and the citizens of Eugene. This can never exist with Prof Chapman as president. So long as he is president of the university there will be discord and dissension. It is a lamentable fact that one man's ambition to be vindicated or to retain control of an institution where at least a respectable minority of its patrons does not want him, should make him hold on to the position, for he can neither do himself nor the school justice. It would certainly be the best for the school, and for Prof Chapman also, if he would resign."

Mrs Chase and her daughters, Misses Emma and Nettie, gave a most delightful lawn party to a number of their lady friends yesterday afternoon, on North Pearl street. A light luncheon was served and some good drinks. It was a very pleasant affair.

THE TRUE REMEDY.

Wm Repine, editor Tri-Weekly, Ill. "Chief," says: "We would keep house without Dr King's New Discovery for Consumption, Coughs and Colds. Experimented with many others, but never got the true remedy until we used Dr King's New Discovery. No other remedy can take its place in our home, as in it we have a certain and sure cure for coughs, colds, whooping cough, etc." It is idle to experiment with other remedies even if they are urged on us as just as good as Dr King's New Discovery. They are not as good, because this remedy has a record of cures and besides is guaranteed. It never fails to satisfy. Trial bottles free at Henderson & Linn's Drug Store.

DAILY GUARD AUGUST 18. FIRST HOPE OF SEASON.—The first hops of the season of 1897 came into Eugene today. There were 12 bales of the Fugles variety and they were grown on the Mrs I L Campbell yard on the McKenzie. The Fugles is an early variety and is not so heavy a producer as the English cluster the variety grown here with the exception of a very few yards.

DRIED FRUIT.—Local grocers tell us that they are receiving advices daily from the commission merchants in Portland, San Francisco and Chicago advising every farmer to dry every pound of apples, plums and prunes that they possibly can, as the prices promise to be large. The Klondike and other mining excitements will take many pounds, besides the market is now entirely cleaned up.

Pathetic News From Ruthyn — His Warning to His Friends.

Coville Times: Another letter has been received from Ruthyn today and it contains a decided and determined warning to all not to attempt to reach the Klondike this year. The letter was addressed to William C. Beaman and was written at Dyea shortly after the arrival there of Mr Turvey on the steamer Elder. In full it follows:

"Dyea, Alaska, August 8, 1897.—According to promise I drop you a line. Have only just arrived. Everything is a scene of confusion, so I am not sure. One man of the party was drowned the evening we arrived. The next morning a horse drove over a low and a white man shot an Indian, and so it goes. Every man is almost blocked and the Indians who carry over it raise the rates every time a new boat load of Klondikers arrive, and they are now charging 50 cents per pound. It is terrible, and there will be intense suffering on the part of some people. We will not get unless I am sadly mistaken. Stron, men have given up in despair on the pass, and have damned God and shed tears of sorrow and wrath. We Schmidt Frye and myself, will exercise our best judgment concerning how to operate. Warn people against coming here. I only have time to per these few lines, and my information from the pass and the price of packing, from what others have told me later. I will send something authentic. Watch the papers. I cannot write all the facts to my different friends. You can form no idea of what an undertaking it is to get to Klondike. Nice Beaman disembarked at Juneau.

"RUTHYN TURN Y.

Prunes in Good Demand.

The Dalles Times-Mountaineer of August 17th says:

"A A Urquhart, representing the Farmers Market in this city, has received telegraphic advices to purchase five cars of Italian prunes at 35 cents a crate, and ship them direct to Milwaukee, Wis. At this price the growers will realize \$250 per car for their prunes, which will have to take no chance upon loss by shipment, or fall in the market, and will get their money as soon as fruit has been accepted at a car. While it may be possible to realize better prices than this by consigning fruit, still there is a possibility of loss. This method of marketing the fruit of Oregon will ere long be generally established. Eastern buyers will come here and buy direct, so that the grower will know just what he will realize upon his product as soon as it is loaded on board the cars."

Clear the Way.

For the escape from the system of its state and debts, which, it retained, would make the body fat and overthrown health. That important channel of exit, the bowels, must be kept perfectly free from obstructions by using the non-gripping, gently acting and aggressive cathartic, Hostetter's Stomach Bitters, which not only liberates impurities, but invigorates the lining of the intestinal canal, when weakened by constipation of the unwise use. Violent purgatives, the stomach, liver and urinary organs are likewise reinforced and a course of healthful action by this benevolent tonic and corrective, and every organ, fiber, muscle and nerve experiences a share of its invigorating influence. Unquestionable, thorough, most genial and wholesome medicinal stimulant, and owing its efficacy to its natural source, it is the remedy best adapted to household use, on account of its safety, its scope, and speedy action.

Wheat Jumped Again.

CHICAGO, August 18.—September wheat closed today at 88 1/2c, the highest point it has reached since 1891, and an advance of a full 4 1/2c since yesterday. The closing was a scene long to be remembered, the pit in the last few minutes of trading becoming a struggling mass of excited speculators trying frantically to buy. There was literally no wheat for sale, and the effect of the shorts fairly took the market to its feet.

Hop Pickers Wanted.

Hop picking will commence on the Dr Brown yard, two miles east of Springfield, Monday, August 23rd. Pickers wanted. SHERMAN HAYES.

At factory prices still, at F. L. Chambers.

AT COOS BAY.—Marshfield News. "Prof Washburn paid the bay a short visit lately, and made inquiries concerning the temperature of the bay water, etc., with the view of ascertaining if the bay is adapted for the culture of oysters. We are sorry the professor could not remain longer and make a more thorough investigation. We know from experience that Eastern oysters will thrive here, as that fact was demonstrated very satisfactorily several years ago; but what the people here want to know here is, whether or not the oysters will increase and multiply. Experiments, conducted by some one who has had experience in such matters, is the only way by which a correct conclusion can be reached. Temperature of water may be the same as at other places where oyster culture is a success, but other conditions, equally important, may be lacking."

Fruit Dryers Wanted.

I want two men experienced in drying fruit, September 1st, 1897. NORRIS HUMPHREY.

MARRIED.—At Walton postoffice, August 18th, 1897, by J L Atkinson, Justice of the peace, Scott H Lyons and Etta D Valentine. All of Walton, Lane county, Oregon.
