WANTS TO KEEP HIS OFFICE.

Superintendent of Mails Sues Postmaster-General.

Washington, Sept. 6 .- John G. Woods, superintendent of mails at the Louisville postoffice, today brought suit against Potmater-General Gary and the postoffice department to prevent them from removing him from service. Woods was notified his services would be dispensed with, and he refused to resign. The court has issued a temporary restraining order to protect his rights.

At the postoffice department, it is stated that the office of superintendent of mails, which Woods is seeking to keep, is uniformly filled by details of employee of the railroad mail service. This is the nature of a temporary promotion, and the order against which Woods complains directed him to "resume" his former run in that service. With this notification to Woods to return to his old work, was the formal detail of Clerk O'Donnell to succeed him as superintendent. The restraining order issued by Judge Bingham was served on Postmaster-General Gary and First Assisstant Postmaster-

TO SEIZE THE CANAL NEARING THE END. Coal Miners' Strike Is Practi cally Over.

Columbus, O., Sept. 6.-The end of the great miners' strike is in sight. This afternoon the national executive board of the United Mineworkers' Association agreed to recommend to the miners a proposition from the Pittsburg operators for a straight price of 65 cents a ton, to continue in force until the end of the year, with the additional mutual understanding that a joint meeting of operators and miners shall be held in

December, 1897, for the purpose of determining what the rate of mining shall be thereafter. A delegate convention of all miners who have suspended work has been

called to meet in Columbus September 8, at 10 A. M., to act upon the recommendation. President Eatchford and the other members of the board say there is not the slightest doubt but that the miners will approve the recommendation. The proposition does not involve arbitration, and it provides for immediate settlement of the strik s. As soon as the miners ratify the proposition work will be resumed in all

the mines. McDonald Miners Out.

Pittsburg, Pa., Spet. 6.-Colonel Rend's miners at McDonald, Pa., will not go back at the terms offered by him yesterday. The committee appointed to present his ultimatum to the men reported today that meetings were held last night, and it was decided to accept no rate except 69 cents, and not to work for that price unless all the other miners do it. Operators here say they will not pay 69 cents, and will now go ahead

with their arrangements to start the mines with new men.

Marchers Again Enjoined.

Wheeling, W. Va., Sept. 6 .- Another injunction was served this morning on J. Glenwood Springs, Colo., Spet. 6 .-A coal dust explosion in one of the chambers of the Sunrise Coal Company, the property of the Colorado Fuel & Iron Company, at Sunshine, 12 miles southeast of Glenwood Springs, killed 11 Italians and one American tonight, a few minutes before 6 o'clock. The men were preparing to leave the mine on the day shift when the disaster occurred. A shot had been fired, and instead of its being a direct explosion, which in miners' parlance is called a 'blowout," it created a flame, which shot backward and caught the dust that tion to liken it to a city, for the image had accumulated in the chamber intsead was so distinct and plain that it re- of dislodging the seam of the coal in-

Negotiations Upon the Subject Pending Between Japan and the Greater Republic.

New York, Sept. 6 .- A special to the Herald from Washington says: Japan, not content with an interference in President McKinley's Hawaiian annexation policy, now has designs upon the Nicarauga canal. According to seim-official advices just received here from Nicaragua, the Japanese government is secretly negotiating with the diet of the Greater Republic of Central America, which recently met in Salvador, for the construction of the Nicaragua canal, independently and in defiance of the interests of the United States or other nations.

This action of Japan, taken in connection with her recent attitude in regard to Hawalian annexation is of the greatest significance, showing as it does to the authorities that there is no limit to the ambition of the nation, and that her aggressive policy may yet get her into trouble with the United States. That the administration will resent any interference with the Nicaragua canal project as it did in the case of the Hawwalian annexation treaty goes without saying.

If Japan can encompass it, according to the Nicaraguan advices received here, she would like to obtain the abrogation of all treaty rights possessed by the United States in relation to interoceanic transit and the forfeiture of the American canal concessions from Nicaragua, and to immediately make a treaty with the diet of the Greater Republic of Central American giving her control of the route through Nicaragua. In the negotiations Costa Rica has not been consulted, it being well known that she would not assent to a violation of a treaty right. It has been suspected in some quarters that England, which rations of the jail. has always been anxious to acquire at least a joint control of the canal, might

be working in collusion with Japan in the "dickering" with the diet now understood to be in progress, but nothing has yet come to the surface to indicate that she has encouraged Japan in the move.

It is said that the agent of the Nicaragua canal here has laid the facts before Mr. Hitchcock, president of the canal company in New York, with the suggestion that the department be apprised of the secret negotiations that are now being carried on between Japan and the diet.

Senor Zelaya, the president of Nicaragua, it is understood, has admitted to close personal friends that Japan is now negotiating with the diet, but in each case he advised the strictest soc-

AWAITING HER FATE. A Glimpse at Evangelina Cisneros Her Prison Home

New York, Sept. 6 .- A special to the World from Havana says: The World's correspondent went to see Evangelina Cisneros in her prison. Tuesdays, Thursdays and Saturdays are visiting days at the woman's jail, and the ante-room on these days is full of people from 12 to 4 P. M., who have come to condole with and bear good

tidings to their relatives and friends. When the World's correspondent asked to see Miss Cisneros, he was allowed to pass through the outside iron gate into a small room with a stone

floor, on one of the walls of which was painted in large letters, "Salla de Justica." Evangelina was sent for upstairs, and while waiting the correspondent had the opportunity to notice ome of the other women who were receiving visits. One was a well-dressed woman who had murdered her husband, Sitting next to her was a good-looking woman who had been caught selling ammunition and supplies to the insurgents. She was a political prisoner, Next to her was a woman who kept a lodging-house in Havana, and had rented a room to two men whom she did not know. While their baggage

was being moved into the room the polic · seized two of their trunks and found arms and ammunition. The men escaped, but the landlady was arrested. She knew nothing of the case, but was held responsible, and is now waiting the result of the full and long investigation.

A few minutes after the arrival of the correspondent Evangelina came tripping down the stairs and walked gracefully across the end of the courtyard and out through the gate into the reception room. She is beyond question pretty. She is petite of figure and graceful in all her movements. Her manners are perfect and her self-possession wonderful. She said she could not make any statement on paper because her friends had told her not to, but she talked freely of her hopes and fears and answered questions seemingly without reserve. She did not receive her meals from the outside, she said, because she was afraid of treachery, and preferred to be content with the

Another attempt has been made to destroy the life of President Faure of France. Three minutes after the president had passed the Madeline church in Paris, on his return from Russia, a bomb was exploded inside the railing around the church. An arrest followed immediately, and the railed field was closed by the police, who began an active investigation into the outrage. Nobody was injured by the explosion, but the affair, following so closely upon others of a similar nature, caused the greatest excitement.
