

WHEAT CONSUMPTION.

A Remarkable Deficiency. - Short Crops Everywhere Except in Canada and the United States.

Europe and America are the great wheat eating parts of the world; it is in those parts of the globe that wheat can rightly be spoken of as the staff of life.

Western and Southern Europe and the American continents are, then the great wheat using parts of the globe. Western Europe consumes more wheat than is there produced, while that of America produce much wheat beyond their own needs.

But in ordinary years there is a deficiency of the crops of Western Europe, and that cannot be supplied from the surplus of Eastern Europe, of something like 175,000,000 bushels.

Thus, there is a demand for wheat in Europe such as has been paralleled but once before in 1891-2. And this great demand must largely fall upon the United States and Canada, for of the other wheat exporting countries.

ROUGH ON PROFESSORS.

The Salem Journal lacks reverence and respect for the literary professors who teach students at the Agricultural college how to farm.

There are some good stories, too good to be told and mention the names of the parties. Up at Corvallis Agricultural college the other day some one remarked that the superintendent of the dairy department had returned and brought a cheese plant with him.

There is in Chicago a scheme to provide work-rooms for men out of employment. No money will be given them, but they will be paid in clothing or what ever else they may need of the articles made in the work-rooms.

The Montana man who sent his wife six sticks of dynamite has been given the alternative of paying a fine of \$1000 or going to the penitentiary for 500 days.

Missouri is having a drought. Not only the corn crop, but stock suffering for water.

NEBRASKA FUSION.

Democrats, Populists and Silver Republicans United on a Free Silver Platform.

Nebraska is in the midst of an exciting political campaign. Democrats, Populists and free silver Republicans have united on a ticket, and are waging common war against the gold standard Republicans.

Under the new blanket ballot law each party had to adopt an emblem. The Democrats adopted the time-honored rooster, the Silver Republicans the Liberty Bell and the Populists the plow.

The Democrats reiterated allegiance to the Chicago platform and declared that the financial question was still the paramount issue.

TRUE BASIS OF PROSPERITY.

Everything Depends on the Farmer. - Rise in Prices of Wheat Hailed with Joy.

A prosperous farmer means a prosperous country, and rising prices for farm products are the foundation of agricultural prosperity.

Put more money in the farmer's pocket, the farmer will put more money in the pockets of the merchant and manufacturer, and trade and industry will revive.

Manufacturing revival cannot grow faster than the increased demand for manufactured goods, and that increased demand will be measured by the increased sums realized by the farmer for his products this year as compared to the sums he realized last.

The London Graphic publishes a table comparing the available and prospective English wheat supply at the present time with that of September, 1896, showing a deficiency of nearly 2,000,000 quarters.

THREESALOONS CLOSED - A remarkable case is reported at Danville, Ill, of a real saloon strike. Every one of the forty-two Danville saloons is closed.

FOSTER FORECASTS.

Weather Predictions for the Next Ten Days.

Foster's last bulletin gave forecasts of the storm waves to cross the continent from the 8th to 12th and 14th to 18th.

The next disturbance, he says, will reach the Pacific coast about the 19th or he west of Rockies country by close of 20th, great central valleys 21st to 23d, Eastern states 24th.

Warm wave will cross the west of Rockies country about 19th, great central valleys 21st. Eastern states 23d. Cool wave will cross the west of Rockies country about 23d, great central valleys 24th, Eastern states 26th.

The low of this disturbance will pass through the Northern and the high through the Southern states, causing cool weather in the South and high temperature in the North.

Temperatures of the week ending September 11th will average below normal in the Northern and above in the Southern states. Not much rain in the Northern states that week. Rains will begin in the Southern states and severe storms may be expected about the close of that week.

Klondike Journalism.

The first number of the Klondike Morning Times is on our exchange table. It is a small, pale, yellow, four-page paper, printed in large type.

Justice Miller's court is in session today on the case of G W Rhinehart vs Doyle, the latter having had Mr Rhinehart's place rented the past year.

Wallace Bros are putting up a brick kiln and digging out the best of the old kiln on the old yard.

F S Waicott, the traveling chimney sweep, was in Creswell today. He is working his way to Seattle, sweeping as he goes.

The county convention of the W C T U will meet in Creswell September 14th and 15th. An interesting program is in preparation.

Mrs L H Johnson and son, Louis were in Creswell last Sunday.

Prune growers hereabouts feel sore over the poor prices fruit is bringing in the East. They will all dry prunes hereafter.

L F Wooley, of the Cottage Grove Leader spent a couple of days here this week hunting pheasants. He killed several.

Mrs Mary Hawley and son, Frank are visiting friends here after a long absence.

WA Teutsch leaves for Pendleton Friday, where he has a two months' job with Cleaver Bros.

Will Hamilton cut his left hand on a rotten stick. Dr Scabrough took some stitches and closed the gash, which was a painful one.
